aderant expert user manual pdf: *The Grand Strategy of the Roman Empire* Edward Luttwak, 2016-05-18 A newly updated edition of this classic, hugely influential account of how the Romans defended their vast empire. At the height of its power, the Roman Empire encompassed the entire Mediterranean basin, extending much beyond it from Britain to Mesopotamia, from the Rhine to the

Black Sea. Rome prospered for centuries while successfully resisting attack, fending off everything from overnight robbery raids to full-scale invasion attempts by entire nations on the move. How were troops able to defend the Empire's vast territories from constant attacks? And how did they do so at such moderate cost that their treasury could pay for an immensity of highways, aqueducts, amphitheaters, city baths, and magnificent temples? In *The Grand Strategy of the Roman Empire*, seasoned defense analyst Edward N. Luttwak reveals how the Romans were able to combine military strength, diplomacy, and fortifications to effectively respond to changing threats. Rome's secret was not ceaseless fighting, but comprehensive strategies that unified force, diplomacy, and an immense infrastructure of roads, forts, walls, and barriers. Initially relying on client states to buffer attacks, Rome moved to a permanent frontier defense around 117 CE. Finally, as barbarians began to penetrate the empire, Rome fielded large armies in a strategy of "defense-in-depth," allowing invaders to pierce Rome's borders. This updated edition has been extensively revised to incorporate recent scholarship and archeological findings. A new preface explores Roman imperial statecraft. This illuminating book remains essential to both ancient historians and students of modern strategy.

aderant expert user manual pdf: *The Great Legal Reformation* Mitchell Kowalski, 2017-09-13 It's refreshing that this book does not simply look to advances in technology and artificial intelligence as the cause or the future of the Great Legal Reformation. Through in-depth case studies and vignettes, Mitch Kowalski takes us on a tour to meet some of the trailblazers breaking the legal service provider mould, allowing us to eavesdrop on his conversations with them. This is not a glimpse into the future of how he and others might see the legal world developing as the Great Legal Reformation unfolds. This is insight into the here and now - into what these innovators have already envisioned and achieved. These are the platforms from which yet further innovation and re-formation of the market will be driven. From the power and opportunity of regulatory change to enable structural change, access to capital and the participation of people who happen not to be lawyers; through the need to focus on efficiency, continuous improvement, process and project management; to the enduring value of vision, culture, values, leadership, energy and employee engagement, these studies and conversations inform, reveal and challenge. They do not present the new world through rose-tinted glasses or deny the existence of risk: the story of Slater & Gordon's mixed fortunes is testament to that. But they do show a different way of thinking and acting. Whether lawyers like it or not, these are initiatives that buyers of legal services welcome. —Stephen Mayson ,strategic advisor to law departments, legal services providers and regulators "This is an indispensable handbook for any aspiring legal innovator—a well-researched, accessible, and fascinating collection of dispatches from the cutting edge of legal business." —Professor Richard Susskind OBE, author of *Tomorrow's Lawyers* "Mitch Kowalski ... shows us what the new professional world actually does look like. He takes us on a tour of Great Britain, Australia, and the United States, and introduces us to lawyers in big firms and small, serving clients both private and public. The picture that emerges is of a new breed of legal service provider that embraces entrepreneurship, teamwork and technology in a way that seems both unfamiliar and obvious to all lawyers." —Dr Ian Holloway PC QC, ,Professor and Dean of Law, The University of Calgary "This book will either give you hope or a much needed kick in the pants. Either way it's a win-win." —Stephen Allen, , legal innovator, Hogan Lovells "Mitch Kowalski does it again. Diving deep inside some of the world's most innovative legal providers Mitch discovers the future of law in the present. A must read for anyone involved in the legal profession." —John Chisholm, leading Australian legal commentator and advisor

aderant expert user manual pdf: *The Imagination Machine* Martin Reeves, Jack Fuller, 2021-06-08 A guide for mining the imagination to find powerful new ways to succeed. We need

imagination now more than ever—to find new opportunities, rethink our businesses, and discover paths to growth. Yet too many companies have lost their ability to imagine. What is this mysterious capacity? How does imagination work? And how can organizations keep it alive and harness it in a systematic way? The Imagination Machine answers these questions and more. Drawing on the experience and insights of CEOs across several industries, as well as lessons from neuroscience, computer science, psychology, and philosophy, Martin Reeves of Boston Consulting Group's Henderson Institute and Jack Fuller, an expert in neuroscience, provide a fascinating look into the mechanics of imagination and lay out a process for creating ideas and bringing them to life: The Seduction: How to open yourself up to surprises The Idea: How to generate new ideas The Collision: How to rethink your idea based on real-world feedback The Epidemic: How to spread an evolving idea to others The New Ordinary: How to turn your novel idea into an accepted reality The Encore: How to repeat the process—again and again. Imagination is one of the least understood but most crucial ingredients of success. It's what makes the difference between an incremental change and the kinds of pivots and paradigm shifts that are essential to transformation—especially during a crisis. The Imagination Machine is the guide you need to demystify and operationalize this powerful human capacity, to inject new life into your company, and to head into unknown territory with the right tools at your disposal.

aderant expert user manual pdf: *The 'Abbasid and Carolingian Empires* D.G. Tor, 2017-10-23 Circa AD 750, both the Islamic world and western Europe underwent political revolutions; these raised to power, respectively, the 'Abbasid and Carolingian dynasties. The eras thus inaugurated were similar not only in their chronology, but also in the foundational role each played in its respective civilization, forming and shaping enduring religious, cultural, and societal institutions. The 'Abbāsid and Carolingian Empires: Studies in Civilizational Formation, is the first collected volume ever dedicated specifically to comparative Carolingian-'Abbasid history. In it, editor D.G. Tor brings together essays from some of the leading historians in order to elucidate some of the parallel developments in each of these civilizations, many of which persisted not only throughout the Middle Ages, but to the present day. Contributors are: Michael Cook, Jennifer R. Davis, Robert Gleave, Eric J. Goldberg, Minoru Inaba, Jürgen Paul, Walter Pohl, D.G. Tor and Ian Wood.

aderant expert user manual pdf: *Mitra-Varuna* Georges. Dumézil, 2024-07-06 A classic text that develops one prong of Dumézil's tripartite hypothesis of Indo-European tribes: the sacred sovereign. Georges Dumézil's fascination with the myths and histories of India, Rome, Scandinavia, and the Celts yielded an idea that became his most influential scholarly legacy: the tripartite hypothesis, which divides Indo-European societal functions into three classes: the sacred sovereign, the warrior, and the producer. Mitra-Varuna, originally published in 1940, concentrates on the first function, that of sovereignty. Dumézil identifies two types of rulers, the first judicial and worldly, the second divine and supernatural. These figures, both priestly, are oppositional but complementary.

The title nods to these roles, referring to the gods Mitra, a rational mediator, and Varuna, an awesome religious figure. Stuart Elden's critical edition, based on the 1988 English translation by Derek Coltman, identifies variations between the first and second French editions and completes--and in places corrects--Dumézil's references. The editor's detailed introduction situates Mitra-Varuna within Dumézil's career, outlines how his treatment of its themes developed over time, and relates the book to the political controversy around his ideas. Two new appendices contain passages that did not appear in the second French edition.

aderant expert user manual pdf: The Path to Post-Galilean Epistemology Danilo Capecchi, 2017-07-08 This book casts new light on the process that in the sixteenth and seventeenth centuries led to a profound transformation in the study of nature with the emergence of mechanistic philosophy, the new mixed mathematics, and the establishment of the experimental approach. It is argued that modern European science originated from Hellenistic mathematics not so much because of rediscovery of the latter but rather because its "applied" components, namely mechanics, optics, harmonics, and astronomy, and their methodologies continued to be transmitted throughout the Middle Ages without serious interruption. Furthermore, it is proposed that these "applied" components played a role in their entirety; thus, for example, "new" mechanics derived not only from "old" mechanics but also from harmonics, optics, and astronomy. Unlike other texts on the subject, the role of mathematicians is stressed over that of philosophers of nature and the focus is particularly on epistemological aspects. In exploring Galilean and post-Galilean epistemology, attention is paid to the contributions of Galileo's disciples and also the impact of his enemies. The book will appeal to both historians of science and scientists.

aderant expert user manual pdf: The Law Firm of the Future John M. Westcott, Jr., 2018-09-28 During the "golden age of law firm growth" from the late 1960s until 2007, most large law firms adopted a default growth strategy, increasing practice areas and offices, aided by the momentum of the tail winds of law firm growth. Since the recession of 2008-2009, however, the legal marketplace has drastically changed. In this timely book, Jay Westcott suggests strategic building blocks that firms can adopt in order to adapt themselves to this radical change and prosper as lasting institutions.

aderant expert user manual pdf: Passovers of Blood Ariel Toaff, 2020-04-25 For centuries, Jews have been accused of something called blood libel or ritual murder: the killing of non-Jews, often children, to use their blood in bizarre religious ceremonies or to make food. For centuries, this has been denied by Jews. But in fact there may be some truth to such claims after all.

aderant expert user manual pdf: Christian Dualist Heresies in the Byzantine World, c. 650-c. 1450, 2013-01-01 Christian dualism originated in the reign of Constans II (641-68). It was a popular religion, which shared with orthodoxy an acceptance of scriptural authority and apostolic tradition and held a sacramental doctrine of salvation, but understood all these in a radically different way to the Orthodox Church. One of the differences was the strong part demonology played in the belief system. This text traces, through original sources, the origins of dualist Christianity throughout the Byzantine Empire, focusing on the Paulician movement in Armenia and Bogomilism in Bulgaria. It presents not only the theological texts, but puts the movements into their social and political context.

aderant expert user manual pdf: *Burchard de Volder and the Age of the Scientific Revolution* Andrea Strazzoni, 2019-11-18 This monograph details the entire scientific thought of an influential natural philosopher whose contributions, unfortunately, have become obscured by the pages of history. Readers will discover an important thinker: Burchard de Volder. He was instrumental in founding the first experimental cabinet at a European University in 1675. The author goes beyond the familiar image of De Volder as a forerunner of Newtonianism in Continental Europe. He consults neglected materials, including handwritten sources, and takes into account new historiographical categories. His investigation maps the thought of an author who did not sit with an univocal philosophical school, but critically dealt with all the 'major' philosophers and scientists of his age: from Descartes to Newton, via Spinoza, Boyle, Huygens, Bernoulli, and Leibniz. It explores the way De Volder's un-systematic thought used, rejected, and re-shaped their theories and approaches. In addition, the title includes transcriptions of De Volder's teaching materials: disputations, dictations, and notes. Insightful analysis combined with a trove of primary source material will help readers gain a new perspective on a thinker so far mostly ignored by scholars. They will find a thoughtful figure who engaged with early modern science and developed a place that fostered experimental philosophy.

aderant expert user manual pdf: *The Siege and the Fall of Constantinople in 1453* Marios Philippides, Walter K. Hanak, 2017-05-02 This major study is a comprehensive scholarly work on a key moment in the history of Europe, the fall of Constantinople to the Ottoman Turks in 1453. The result of years of research, it presents all available sources along with critical evaluations of these narratives. The authors have consulted texts in all relevant languages, both those that remain only in manuscript and others that have been printed, often in careless and inferior editions. Attention is also given to 'folk history' as it evolved over centuries, producing prominent myths and folktales in Greek, medieval Russian, Italian, and Turkish folklore. Part I, The Pen, addresses the complex questions introduced by this myriad of original literature and secondary sources.

aderant expert user manual pdf: *Past Sense — Studies in Medieval and Early Modern European History* Constantin Fasolt, 2014-04-03 The twenty studies collected in this volume focus on the transition from the Middle Ages to the modern world. The method leads from technical investigations on William Durant the Younger (ca. 1266-1330) and Hermann Conring (1606-1681) through reflection on the nature of historical knowledge to a break with historicism, an affirmation of anachronism, and a broad perspective on the history of Europe. The introduction explains when and why these studies were written, and places them in the context of contemporary historical thinking by drawing on Wittgenstein's *Philosophical Investigations*. This book will appeal to historians with an interest in historical theory, historians of late medieval and early modern Europe, and students looking for the meaning of history.

aderant expert user manual pdf: *Virgil, Aeneid 11* Nicholas Horsfall, 2017-09-18 This is the first comprehensive commentary on Aeneid 11. The commentary treats fully matters of linguistic and textual interpretation, metre and prosody, grammar, lexicon and idiom, of Roman behaviour, social and ritual, as well as Virgil's sources and the literary tradition. New critical approaches and developments in Virgilian studies have been taken into account with economy and fairness. The Latin text is presented with a facing English translation. The commentary is followed by an appendix on Penthesilea and the Epic Cycle and a second appendix which discusses the weaknesses of Aeneid 11. The book concludes with English and Latin indices. In approach and learning, this commentary continues Nicholas Horsfall's impressive work as a commentator and will advance our understanding of the Aeneid and the poet Virgil.

aderant expert user manual pdf: Rethinking Authority in the Carolingian Empire Rutger Kramer, 2019-02-11 By the early ninth century, the responsibility for a series of social, religious and political reforms had become an integral part of running the Carolingian empire. This became especially clear when, in 813/4, Louis the Pious and his court seized the momentum generated by their predecessors and broadened the scope of this correctio ever further. These reformers knew they constituted a movement greater than the sum of its parts; the interdependence of imperial authority and ecclesiastical reformers was driven by comprehensive, yet surprisingly diverse expectations. Taking this diversity as a starting point, this book takes a fresh look at these optimistic decades. Extrapolating from a series of detailed case studies rather than presenting a grand narrative, it offers new interpretations of contemporary theories of correctio, and shows the self-awareness of its main instigators as they pondered what it meant to be a good Christian in a good Christian empire.

aderant expert user manual pdf: The Anthropomorphic Lens Walter Melion, Bret Rothstein, Michel Weemans, 2014-11-06 Anthropomorphism – the projection of the human form onto the every aspect of the world – closely relates to early modern notions of analogy and microcosm. What had been construed in Antiquity as a ready metaphor for the order of creation was reworked into a complex system relating the human body to the body of the world. Numerous books and images – cosmological diagrams, illustrated treatises of botany and zoology, maps, alphabets, collections of ornaments, architectural essays – are entirely constructed on the anthropomorphic analogy. Exploring the complexities inherent in such work, the interdisciplinary essays in this volume address how the anthropomorphic model is fraught with contradictions and tensions, between magical and rational, speculative and practical thought. Contributors include Pamela Brekka, Anne-Laure van Bruaene, Ralph Dekoninck, Agnès Guiderdoni, Christopher P. Heuer, Sarah Kyle, Walter S. Melion, Christina Normore, Elizabeth Petcu, Bertrand Prevost, Bret Rothstein, Paul Smith, Miya Tokumitsu, Michel Weemans, and Elke Werner.

aderant expert user manual pdf: Urban Lawyers John P. Heinz, 2005-07-05 Over the past several decades, the number of lawyers in large cities has doubled, women have entered the bar at an unprecedented rate, and the scale of firms has greatly expanded. This immense growth has transformed the nature and social structure of the legal profession. In the most comprehensive analysis of the urban bar to date, *Urban Lawyers* presents a compelling portrait of how these changes continue to shape the field of law today. Drawing on extensive interviews with Chicago lawyers, the authors demonstrate how developments in the profession have affected virtually every aspect of the work and careers of urban lawyers—their relationships with clients, job tenure and satisfaction, income, social and political values, networks of professional connections, and patterns of participation in the broader community. Yet despite the dramatic changes, much remains the same. Stratification of income and power based on gender, race, and religious background, for instance, still maintains inequality within the bar. The authors of *Urban Lawyers* conclude that organizational priorities will likely determine the future direction of the legal profession. And with this landmark study as their guide, readers will be able to make their own informed predictions.

aderant expert user manual pdf: Florida Apuleius, 2001 In recent years there has been growing interest in Apuleius' works. Notably his famous novel *Metamorphoses* and his speeches are increasingly appreciated as the special products of a Second Sophist writing in Latin. In the *Florida*, a collection of 23 excerpts of speeches, we have a unique example of Roman demonstrative rhetoric. In the text we see Apuleius performing before great audiences, and even in the theatre of Carthage. He delivers speeches on topics as diverse as the eye of the eagle, the inventions of Hippias, or the distinctive features of the parrot. The speaker's wide literary talents, his education and health, and his excellent relations with Carthage and the audience at large, are all put on display with manifest pride. This makes the *Florida* an indispensable text for anyone interested in second century Latin literature, Second Sophistic, culture and education in Roman Africa, or the author Apuleius. A

modern commentary on this brilliant collection has been a desideratum in Apuleian scholarship for a long time. Vincent Hunink has now edited the Florida with an extensive English commentary, in which the literary and rhetorical features of the text are highlighted. Particular attention is paid to the strategies of the speaker and to his exquisite, extravagant style, full of rare or newly coined words and richly adorned with effects of sound and rhythm. Each of the 23 fragments is given a separate introduction, followed by a detailed commentary. The new edition enables readers to gain a better understanding of Apuleius as the great sophist and showman that he was. The volume contains an introduction, a Latin text (based on Helm's Teubner text, but with numerous returns to the text of the manuscripts), a commentary (150 pages), bibliography and indices.

aderant expert user manual pdf: Death and the Optimistic Prophecy in Vergil's AENEID

James J. O'Hara, 2014-07-14 Here James O'Hara shows how the deceptive nature of prophecy in the Aeneid complicates assessment of the poem's attitude toward its hero's achievement and toward the future of Rome under Augustus Caesar. This close study of the language and rhetorical context of the prophecies reveals that they regularly suppress discouraging material: the gods send promising messages to Aeneas and others to spur them on in their struggles, but these struggles often lead to untimely deaths or other disasters only darkly hinted at by the prophecies. O'Hara finds in these prophecies a persistent subtext that both stresses the human cost of Aeneas' mission and casts doubt on Jupiter's promise to Venus of an endless empire for the Romans. O'Hara considers the major prophecies that look confidently toward Augustus' Rome from the standpoint of Vergil's readers, who, like the characters within the poem, must struggle with the possibility that the optimism of the prophecies of Rome is undercut by darker material partially suppressed. The study shows that Vergil links the deception of his characters to the deceptiveness of Roman oratory, politics, and religion, and to the artifice of poetry itself. In response to recent debates about whether the Aeneid is optimistic or pessimistic, O'Hara argues that Vergil expresses both the Romans' hope for the peace of a Golden Age under Augustus and their fear that this hope might be illusory. aderant expert user manual pdf: Music in Martin Luther's Theology Yakub E.

Kartawidjaja, 2021 The study aims to analyse the impact of Luther's theology on his thoughts about music. It limits itself to an analysis of the topic by focusing on the three most important statements of Luther about music in his unfinished treatise 'e?? t?? ??s???? [On Music]. The first statement is that music is a gift of God and not of man [Dei donum hominum est], second, music creates joyful soul [facit letos animos], and third, music drives away the devil [fugat diabolum]. The relation

between these three statements to each other and to Luther's theology in general can be understood in connection with his personal experiences and commitments to music, which were undergirded by his theology. Luther, as a man of medieval times, took for granted the existence of the devil, and many of his writings contained frequent references to the personal attacks of the devil, where it influenced his thoughts about music.

aderant expert user manual pdf: Cicero on the Ideal Orator (De Oratore) Marcus Tullius Cicero, 2001 In *On the Ideal Orator, (De oratore)*, Cicero, the greatest Roman orator and prosewriter of his day, gives his mature views on rhetoric, oratory, and philosophy. Cast in the lively, literary form of a dialogue, this classic work presents a daring view of the orator as the master of all language communication while still emphasizing his role at the heart of Roman society and politics. Cicero's conception of the ideal orator represents his own original synthesis of the positions of the philosophers and the rhetoricians in the age-old quarrel between these disciplines. The first translation of *De oratore* in over fifty years, this volume is ideal for courses on Cicero and on the history of rhetoric/oratory. James May and Jakob Wisse provide an accurate and accessible translation which is based on--and contributes to--recent advances in our understanding of *De oratore* and of the many aspects of ancient rhetoric, philosophy, and history relevant to it. Their translation reflects the many variations of Cicero's style, which are essential ingredients of the work. The volume includes extensive annotation, based on current scholarship and offering significant original contributions as well. It is also enhanced by a full introduction covering all important aspects of both the work and its historical background; appendices on Cicero's works, figures of thought and speech, and alternate manuscript readings; a glossary of terms from rhetoric and Roman life and politics; and a comprehensive index of names and places.

aderant expert user manual pdf: Courthouses of Georgia Association County Commissioners of Georgia, 2014 The courthouses of Georgia's 159 counties hold the keys to the history of individual families and entire communities alike. Internationally recognized photographer Greg Newington captures the prominence and character of these great structures, paying tribute to the community's investment in preserving historic courthouses for future generations.
