1304 business center way: The Art of Escaping Erin Callahan, 2018-06-19 Seventeen-year-old Mattie has a hidden obsession: escapology. Emphasis on hidden. If anyone from school finds out, she'll be abandoned to her haters. Facing a long and lonely summer, Mattie finally seeks out Miyu, the reclusive daughter of a world-renowned escape artist. Following in Houdini's footsteps, Miyu helps Mattie secretly transform herself into an escapologist and performance artist. When Will, a popular athlete from school, discovers Mattie's act at an underground venue, Mattie fears her secret persona will be exposed. Instead of outing her, though, Will tells Mattie a secret not even his girlfriend knows. Through a blossoming friendship, the two must find a way to express their authentic selves. Told through the perspectives of the witty main characters, this funny and fresh debut explores the power of stage personas and secret spaces, and speaks to the uncanny ways in which friendships transform us.

1304 business center way: *The Social Life of Information* John Seely Brown, Paul Duguid, 2017-02-21 Understand the human place in a digital world. "Should be read by anyone interested in understanding the future," The Times Literary Supplement raved about the original edition of *The Social Life of Information*. We're now living in that future, and one of the seminal books of the Internet Age is more relevant than ever. The future was a place where technology was supposed to empower individuals and obliterate social organizations. Pundits predicted that information technology would spell the end of almost everything—from mass media to bureaucracies, universities, politics, and governments. Clearly, we are not living in that future. *The Social Life of Information* explains why. John Seely Brown and Paul Duguid show us how to look beyond mere information to the social context that creates and gives meaning to it. Arguing elegantly for the important role that human sociability plays, even—perhaps especially—in the digital world, *The Social Life of Information* gives us an optimistic look beyond the simplicities of information and individuals. It shows how a better understanding of the contribution that communities, organizations, and institutions make to learning, working, and innovating can lead to the richest possible use of technology in our work and everyday lives. With a new introduction by David Weinberger and reflections by the authors on developments since the book's first publication, this new edition is essential reading for anyone seeking to understand the human place in a digital world.

1304 business center way: **The Three Rules** Michael Raynor, Mumtaz Ahmed, 2013-05-30 In *The Three Rules*, Michael E Raynor and Mumtaz Ahmed provide the answer to the ultimate business question: how do some companies manage to keep excelling, year after year after year? 'The objective is to deliver the best possible performance and sustain it for as long as possible' In every sector there's an outlier. An exceptional company that faces the same difficulties as competitors, but constantly delivers superior results. What are they doing differently? And what can they teach us? Michael E. Raynor and Mumtaz Ahmed analysed 25,000 companies spanning forty-five years to find the answers. What they discovered were three clear rules that the most exceptional companies follow when faced with the most difficult decisions. With a powerful combination of detailed case studies and rigorous data analysis, reading, learning and applying *The Three Rules* will help your organization become truly exceptional. Michael E. Raynor is a director at Deloitte Services LP, where he explores corporate strategy, innovation, and growth with clients in a variety of industries. He is the coauthor, with Clayton Christensen, of *The Innovator's Solution*, and the author of the bestselling and critically acclaimed *The Strategy Paradox* and *The Innovator's Manifesto*. Mumtaz Ahmed is a principal in Deloitte Consulting LLP and the chief strategy officer of Deloitte LLP, responsible for the U.S. firm's strategy, corporate development, innovation, eminence, and brand.

What, you're not swallowing that one? Okay, fine: He started writing *Whatever* and amused about 15 people that first day. If that many. But he kept at it, for ten years and running. Now 40,000 people drop by on a daily basis to see what he's got to say. About what? Well, about whatever: Politics, writing, family, war, popular culture and cats (especially with bacon on them). Sometimes he's funny. Sometimes he's serious (mostly he's sarcastic). Sometimes people agree with him. Sometimes they send him hate mail, which he grades on originality and sends back. Along the way, Scalzi's become a best-selling, award-winning author, a father, and a geek celebrity. But no matter what, there's always another *Whatever* post to amuse and/or enrage his readers. *Your Hate Mail Will Be Graded* collects some of the best and most popular *Whatever* entries from the first ten years of the blog - a decade of *Whatever*, presented in delightfully random form, just as it should be. * Winner of the 2009 Hugo Award for Best Non-Fiction Book * Introduction by Star Trek actor Wil Wheaton *Old Man's War* Series #1 *Old Man's War* #2 *The Ghost Brigades* #3 *The Last Colony* #4 *Zoe's Tale* #5 *The Human Division* #6 *The End of All Things* Short fiction: "After the Coup" Other Tor Books *The Android's Dream* *Agent to the Stars* *Your Hate Mail Will Be Graded* *Fuzzy Nation* *Redshirts* *Lock In* *The Collapsing Empire* (forthcoming) At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
