1445 education way port charlotte fl 33948: **From Palestine to America** Taher Dajani, 2008 Taher Dajani remembers playing soccer with his neighborhood friends in his idyllic city of Jaffa, Palestine. But on April 24, 1948, when Taher was fourteen, his carefree lifestyle came to an abrupt end. His family, with little money and few possessions, escaped the city by sea in a crowded fishing trawler as Zionist militia encircled Jaffa. Taher's father believed the family was in danger, so overnight they became refugees. The family took refuge in Syria and later in Libya, which enabled them to rebuild their lives. They experienced grief at leaving a place they loved and felt a great sense of loss and displacement, but with perseverance the Dajanis began anew. From Palestine to America describes the family's experiences and their determination. Taher Dajani writes this memoir about his new life after leaving his beloved Jaffa-from his days as a college student in Chicago to his work with the central bank in Libya-and his position with the International Monetary Fund in Washington DC. Even though it has been sixty years since the Dajani family were forced to flee Palestine, they remember their heritage and roots, and Jaffa, Palestine, will forever be in their hearts.

1445 education way port charlotte fl 33948: Becoming Duchess Goldblatt Anonymous, Duchess Goldblatt, 2020 One of the New York Times' 20 Books to Read in 2020 A tonic . . . Splendid . . . A respite . . . A summer cocktail of a book.--Washington Post Unforgettable . . . Behind her brilliantly witty and uplifting message is a remarkable vulnerability and candor that reminds us that we are not alone in our struggles--and that we can, against all odds, get through them.--Lori Gottlieb, New York Times best-selling author of *Maybe You Should Talk to Someone* Part memoir and part joyful romp through the fields of imagination, the story behind a beloved pseudonymous Twitter account reveals how a writer deep in grief rebuilt a life worth living. *Becoming Duchess Goldblatt* is two stories: that of the reclusive real-life writer who created a fictional character out of loneliness and thin air, and that of the magical Duchess Goldblatt herself, a bright light in the darkness of social media. Fans around the world are drawn to Her Grace's voice, her wit, her life-affirming love for all humanity, and the fun and friendship of the community that's sprung up around her. @DuchessGoldblat (81 year-old literary icon, author of *An Axe to Grind*) brought people together in her name: in bookstores, museums, concerts, and coffee shops, and along the way, brought real friends home--foremost among them, Lyle Lovett. The only way to be reliably sure that the hero gets the girl at the end of the story is to be both the hero and the girl yourself. -- Duchess Goldblatt

1445 education way port charlotte fl 33948: Youth Gangs James C. Howell, 1998 The United States has seen rapid proliferation of youth gangs since 1980. During this period, the number of cities with gang problems increased from an estimated 286 jurisdictions with more than 2,000 gangs and nearly 100,000 gang members in 1980 (Miller, 1992) to about 4,800 jurisdictions with more than 31,000 gangs and approximately 846,000 gang members in 1996(Moore and Terrett, in press). An 11-city survey of eighth graders found that 9 percent were currently gang members, and 17 percent said they had belonged to a gang at some point in their lives (Esbensen and Osgood, 1997). Other studies reported comparable percentages and also showed that gang members were responsible for a large proportion of violent offenses. In the Rochester site of the OJJDP-funded Program of Research on the Causes and Correlates of Delinquency, gang members (30 percent of the sample) self-reported committing 68 percent of all violent offenses (Thornberry, 1998). In the Denver site, adolescent gang members (14 percent of the sample) self-reported committing 89 percent of all serious violent offenses (Huizinga, 1997). In another study, supported by OJJDP and several other agencies and organizations, adolescent gang members in Seattle (15 percent of the sample) self-reported involvement in 85 percent of robberies committed by the entire sample (Battin et al., 1998). This Bulletin reviews data and research to consolidate available knowledge on youth gangs that are involved in criminal activity. Following a historical perspective, demographic information is presented. The scope of the problem is assessed, including gang problems in juvenile detention and correctional facilities. Several issues are then addressed by reviewing gang studies to provide a clearer understanding of youth gang problems. An extensive list of references is provided for further review.

1445 education way port charlotte fl 33948: Health Opportunities Through Physical Education Charles B. Corbin, Karen E. McConnell, Guy C. Le Masurier, David E. Corbin, Terri D. Farrar, 2014-05-28 This innovative new textbook, with a full suite of related resources, has been created to support student development and enhancement of healthy behaviors that influence their lifestyle choices and fitness, health, and wellness. A key feature of this curriculum is the complete integration of physical education and health concepts and skills to maximize student interest, learning, and application. This objective was accomplished by combining the expertise of our author teams from two related textbooks--Fitness for Life, Sixth Edition, and Health for Life. This is not just a health textbook with a few physical education concepts thrown in. School systems that want a single textbook to help them address both physical education and health education standards will find that this book provides them a unique and cost-effective option. Health Opportunities Through Physical Education is available in print and digital formats, including an iBooks interactive version for iPads plus other e-book formats that students can use across a variety of platforms. Part I, Fitness for Life, will help students become physically literate individuals who have the knowledge, skills, and confidence to enjoy a lifetime of healthful physical activity. The book will guide students in becoming informed consumers on matters related to lifelong physical activity and fitness, taking responsibility for setting individualized goals, and making their own plans for active living. To accomplish this overarching goal, they learn a variety of self-management skills, including self-assessment. The program is based on established educational theory, which is outlined in the teacher web resources. And they learn all of this through a combination of classroom and physical activity lessons that meet national, state, and local physical activity guidelines and help instill a love for lifetime fitness activities. Part I also enables students to achieve the following goals: · Meet college and career readiness standards by learning and using critical thinking, decision making, and problem-solving skills · Use the Stairway to Lifetime Fitness concept, created by author Chuck Corbin, to encourage higher-order learning (move from dependence to independence) · Perform self-assessments, including all tests in the Fitnessgram battery and the Presidential Youth Fitness Program Part I includes many features that actively engage students by allowing them to: • Assess their own fitness and other health and wellness factors to determine personal needs and assess progress resulting from healthy lifestyle planning. • Use Taking Charge and Self-Management features to learn self-management skills (e.g., goal setting, self-monitoring, self-planning) for

adopting healthy lifestyles. • Learn key concepts and principles, higher-order information, and critical thinking skills that provide the basis for sound decision making and personal planning. • Do reading and writing assignments as well as calculations that foster college and career readiness. • Try out activities that are supported by lesson plans offered in the teacher web resources and that can help students be fit and active throughout their lives. • Take part in real-life activities that show how new information is generated by using the scientific method. • Become aware of and use technology to learn new information about fitness, health, and wellness and learn to discern fact from fiction. • Use the web and the unique web icon feature to connect to relevant and expanded content for essential topics in the student web resource. • Find Academic Connections that relate fitness topics to other parts of the curriculum such as science, language arts, and math. • Use other features such as fitness quotes, consumer corner, Fit Facts, and special exercise features (including exercise and self-assessment videos) that promote higher-order learning. • Focus their study time by following cues from Lesson Objectives and Lesson Vocabulary elements in every chapter. • Use the chapter-ending review questions to test their understanding of the concepts and use critical thinking and project assignments to meet educational standards, including college and career readiness standards. Part II, Health for Life, teaches high school students the fundamentals of health and wellness, how to avoid destructive habits, and how to choose to live healthy lives. This text covers all aspects of healthy living throughout the life span, including preventing disease and seeking care; embracing the healthy lifestyles choices of nutrition and stress management; avoiding destructive habits; building relationships; and creating healthy and safe communities. Part II also has an abundance of features that help students connect with content: • Lesson Objectives, Lesson Vocabulary, Comprehension Check, and Chapter Review help students prepare to dive in to the material, understand it, and retain it. • Connect feature spurs students to analyze various influences on their health and wellness. • Consumer Corner aids students in exploring consumer health issues. • Healthy Communication gets students to use and expand their interpersonal communication skills as they share their views about various health topics. • Skills for Healthy Living and Making Healthy Decisions help students learn and practice self-management so they can make wise choices related to their health and wellness. • Planning for Healthy Living assists students in applying what they've learned as they set goals and establish plans for behavior change. • Self-Assessment offers students the opportunity to evaluate their health habits and monitor improvement in health behaviors. • Find Academic Connections that relate fitness topics to other parts of the curriculum such as science, language arts, and math. • Take It Home and Advocacy in Action prepare students to advocate for health at home and in their communities. • Health Science and Health Technology focus on the roles of science and technology as they relate to health and where science and technology intersect regarding health issues. • Living Well News challenges students to integrate health literacy, math, and language skills to better understand a current health issue.

1445 education way port charlotte fl 33948: Spring Lake Howard B. Pate, Jami Sheppard, 2004 Spring Lake, North Carolina, was incorporated on April 9, 1951, with an estimated population of 2,500; however, the area had been settled by the Scottish long before. Spring Lake was named in 1923 for a spring fed lake, which probably formed when the railroad was built about 1860. The community grew slowly until World War II. At its incorporation, the town selected the post office on Main Street as the center of town. The town limits extended only eight-tenths of a mile from its center, but increased rapidly as nearby Fort Bragg was built up. Today, Spring Lake remains a quaint town of 8,000, with its close ties to nearby Fort Bragg and Pope Air Force Base recognized in the town motto, Unity for Prosperity.
