During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Providing an overview of the role of IT in the healthcare sector, *The Digitization of Healthcare* illustrates the potential benefits and challenges for all those involved in delivering care to the patient. The incursion of IT has disrupted the value chain and changed business models for companies working in the health sector, and also raised ethical issues and new paradigms about delivering care. This book illustrates the rise of patient empowerment through the development of patient communities such as PatientLikeMe, and medical collaborate platforms such as DockCheck, thus providing a necessary tool to patients, caregivers and academics alike.

advocate aurora health interview foyer: *The Gender-Sensitive University* Eileen Drew, Siobhán Canavan, 2020-07-09 *The Gender-Sensitive University* explores the prevailing forces that pose obstacles to driving a gender-sensitive university, which include the emergence of far-right movements that seek to subvert advances towards gender equality and managerialism that promotes creeping corporatism. This book demonstrates that awareness of gender equality and gender sensitivity are essential for pulling contemporary academia back from the brink. New forms of leadership are fundamental to reforming our institutions. The concept of a gender-sensitive university requires re-envisioning academia to meet these challenges, as does a different engagement of men and a shift towards fluidity in how gender is formulated and performed. Academia can only be truly gender sensitive if, learning from the past, it can avoid repeating the same mistakes and addressing existing and new biases. The book chapters analyse these challenges and advocate the possibilities to 'fix it forward' in all areas. Representing ten EU countries and multiple disciplines, contributors to this volume highlight the evidence of persistent gender inequalities in academia, while advocating a blueprint for addressing them. The book will be of interest to a global readership of students, academics, researchers, practitioners, academic and political leaders and policymakers who share an interest in what it takes to establish gender-sensitive universities. George, 2008-10-17 The e-mail Danny and Allison read on their new computer in 1996 looks no different from the millions of others received by Web users around the world, with one glaring exception--it was sent by their dads who died during the 1970s. While residing in the afterworld at an amenity-laden paradise called Midway Manor, guitar-strumming Mickey Parks and piano-playing Lloyd Wallace monitor and manipulate the lives of their adult children on earth from the mid-'70s through the 1990s. Tampering with the facility's sophisticated computer, the dads thrust Mickey's daughter Allison and Lloyd's son Danny into a passionate but sometimes stormy relationship—a relationship steeped in Danny's heavy drinking and entangled in the often-zany world of men's adventure magazine publishing. After carefully implementing a plan to send their son and daughter a gift of knowledge that could enrich their lives forever, the dads' brief contact is cut short. They are banished to another destination in the afterworld, but not before they impart indisputable proof of life after death—and unwittingly put Danny's and Allison's earthbound lives on the line.

advocate aurora health interview foyer: *Immoral Memories* Sergei Eisenstein, 2014 Sergei Eisenstein (1898-1948), creator of such masterpieces as Battleship Potemkin, Alexander Nevsky and Ivan the Terrible, was perhaps the greatest of all film directors. He wrote his autobiography in 1946, two years before his death, and it is a work of major importance in the light it sheds on his personality and mercurial genius. Vivid, eccentric and free-ranging, *Immoral Memories* is written in a style reminiscent of the brilliant visual effects of montage and dynamic progression that characterize its author's film-making technique. He recounts his life in Russia from the time of the Revolution, during which he served in the Bolshevik army as a volunteer, his travels in the West and his encounters with a remarkable medley of individuals during his long career. He gives us unique insights, too, into his triumphs and tribulations. His disappointments and despair were exemplified by the banning of the film *Ivan the Terrible, Part II*, which was not released until fifteen years after his death. And he never expected his autobiography to be published in Russia. Yet in answer to his query Has there been life he replied that there had been life lived acutely, joyously, tormentedly, at times even sparkling, unquestionably colourful, and such a life that, I suppose, I would not exchange for another--Publisher's description.

Van Wienen, 2021-02-04 In the years of and around the First World War, American poets, fiction writers, and dramatists came to the forefront of the international movement we call Modernism. At the same time a vast amount of non- and anti-Modernist culture was produced, mostly supporting, but also critical of, the US war effort. *A History of American Literature and Culture of the First World War* explores this fraught cultural moment, teasing out the multiple and intricate relationships between an insurgent Modernism, a still-powerful traditional culture, and a variety of cultural and social forces that interacted with and influenced them. Including genre studies, focused analyses of important wartime movements and groups, and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage, this book presents original essays defining the state of scholarship on the American culture of the First World War.

It includes extended focus on his visits to Chernobyl and the contaminated zone in the late 1980s and 1990s, as well as a summer working with indigenous groups in eastern Siberia. Visiting Belarus more than 25 times since the 1990s, he was banned for seven years before the visa rules were relaxed in 2017. In the case of Ukraine, it chronicles a transition from a total outsider to one of the best-known scholars in Ukrainian studies, commenting on aspects of the coalescence of scholarship and politics, and the increasing role of social media and the Diaspora in the analysis of crucial events such as the Euromaidan uprising and its aftermath in Kyiv. advocate aurora health interview foyer: *Behind the Scenes* Michael Llewellyn-Smith, 2012 *Behind the Scenes* examines planning in the City of Adelaide from 1972 until 1993 within the historical framework of City/State relations from 1836 when the Province of South Australia was founded. During this 21-year period, the City had its own planning and development control legislation separate from the rest of the State. Dr Llewellyn-Smith examines why this situation came about, why it continued for this particular period and why it ceased in 1993 when the separate legislation was repealed and the City became part of the State system under the new Development Act 1993. *Behind the Scenes* includes original interviews with many of the key individuals in the City and State who played influential roles during this period. Dr Llewellyn-Smith himself was the City Planner from 1974 until 1981 and then the Town Clerk/Chief Executive Officer of the Adelaide City Council from 1982 until 1993: this book, then, is both a work of scholarship and an insider's account. With a joint foreword by The Hon. Jay Weatherill MP, Premier of South Australia, and The Rt Hon. the Lord Mayor of Adelaide, Mr Stephen Yarwood.

Book Review Editors' Choice In *The Cactus League* [Emily Nemens] provides her readers with what amounts to a miniature, self-enclosed world that is funny and poignant and lovingly observed. --Charles McGrath, *The New York Times Book Review* An explosive, character-driven odyssey through the world of baseball Jason Goodyear is the star outfielder for the Los Angeles Lions, stationed with the rest of his team in the punishingly hot Arizona desert for their annual spring training. Handsome, famous, and talented, Goodyear is nonetheless coming apart at the seams. And the coaches, writers, wives, girlfriends, petty criminals, and diehard fans following his every move are eager to find out why—as they hide secrets of their own. Humming with the energy of a ballpark before the first pitch, Emily Nemens's *The Cactus League* unravels the tightly connected web of people behind a seemingly linear game. Narrated by a sportscaster, Goodyear's story is interspersed with tales of Michael Taylor, a batting coach trying to stay relevant; Tamara Rowland, a resourceful spring-training paramour, looking for one last catch; Herb Allison, a legendary sports agent grappling with his decline; and a plethora of other richly drawn characters, all striving to be seen as the season approaches. It's a journey that, like the Arizona desert, brims with both possibility and destruction. Anchored by an expert knowledge of baseball's inner workings, Emily Nemens's *The Cactus League* is a propulsive and deeply human debut that captures a strange desert world that is both exciting and unforgiving, where the most crucial games are the ones played off the field.

advocate aurora health interview foyer: Female Pelvic Medicine Kathleen C. Kobashi, Steven D. Wexner, 2021-04-13 This book is designed as a guide for management of advanced clinical scenarios encountered by the contemporary pelvic floor surgeon. It is organized by pelvic floor disorder (PFD) and covers the evaluation and treatment of urinary incontinence, fecal incontinence, and pelvic organ prolapse. Opening chapters in each section cover the fundamentals of proper and comprehensive assessment of patient PFDs, as well as the treatment options that are available for each disorder. The book then focuses on more complex and challenging situations that are becoming more frequently encountered as the number of patients being treated for PFD increases and the length of patient follow-up grows. Each chapter finally includes an expert commentary to address these new scenarios and offers a shifted approach from that required for treatment-naïve patients. *Female Pelvic Medicine: Challenging Cases with Expert Commentary* teaches the reader how to approach the most difficult of clinical situations in a multidisciplinary fashion.

advocate aurora health interview foyer: *Escaping Conviction* Greer Rivers, 2021-02-13 Jason I'm not letting her go after this. I left the love of my life when she needed me most. I thought I was saving the world, but instead I lost everything. Now I need her. My sister is missing and I'm suspect #1. Without Jules as my defense attorney, I would be locked in a cell instead of trying to save my sister. Once I find Ellie, I'm never letting either of them out of my sight. There's no way I'm making that mistake again. Jules He's just like every other client. The man I thought was the love of my life, ghosted me when I needed him most. I'd like to say he was the one that got away. But no. He's the bullet I dodged. Now he needs me. His sister is missing and he's being charged with her kidnapping. He thinks we can mend what he broke. But I can't trust him. There's no way I'm making that mistake again. ♥♥♥♥♥♥♥♥ *Escaping Conviction* is a suspenseful, second chance romance with legal, military, and dark themes. It is the first in the Conviction series of interconnected standalones which have an overarching plot throughout the series, but no cliffhanger for the couple in this book.

****While Escaping Conviction has an HEA, this read is not for the faint of heart. The Conviction series should be read by mature readers only (18+) and contains sexually explicit scenes, along with descriptions of human trafficking, drugs, strong language, and physical and sexual violence. Reader discretion is advised.****

advocate aurora health interview foyer: Our Fathers Andrew O'Hagan, 2007-09-25 From the author of the incredible debut novel, *Be Near Me*. Finalist for the Man Booker Prize, the International IMPAC Dublin Literary Award, and the Whitbread Award. Hugh Bawn was a modern hero, a visionary urban planner, a man of the people who revolutionized Scotland's residential development after the Second World War. But times have changed. Now, as he lies dying in one of his own failed buildings, his grandson Jamie comes home to watch over him. The old man's final months bring Jamie to see what is best and worst in the past that haunts them all, and he sees the fears of his own life unravel in the land that bred him. It is Jamie who tells the story of his family, of three generations of pride and delusion, of nationality and strong drink, of Catholic faith and the end of political idealism. It is a tale of dark hearts and modern houses, of three men in search of Utopia. A poignant and powerful reclamation of the past, *Our Fathers* is a deeply felt, beautifully crafted, utterly unforgettable novel.
