

af7 historia de mexico 1

af7 Historia de México 1: A Deep Dive into the First Semester

Author: While a specific author isn't readily available for a hypothetical textbook like "af7 Historia de México 1," we can assume the author (or author team) possesses significant expertise in Mexican history. Their qualifications would likely include a PhD in history, specializing in Mexican studies, along with extensive research experience and a proven track record of academic publications in peer-reviewed journals. A strong understanding of historiographical debates within the field and the ability to present complex information in an accessible manner for undergraduate students are also essential.

Publisher: Assuming "af7 Historia de México 1" is a textbook, the publisher would likely be a reputable academic press specializing in educational materials for higher education, such as Pearson Educación, McGraw-Hill Educación, or Cengage Learning. These publishers have a long-standing history of producing high-quality, rigorously reviewed textbooks, ensuring accuracy and adherence to academic standards. Their credibility in the context of 'af7 Historia de México 1' stems from their established process of peer review, editorial oversight, and commitment to factual accuracy in educational materials.

Editor: The editor would likely be a professional with significant experience in the field of Mexican history and textbook publishing. They would have a strong understanding of the curriculum requirements for introductory Mexican history courses and would play a crucial role in ensuring the pedagogical effectiveness of "af7 Historia de México 1." This includes overseeing the accuracy of the content, managing the author's revisions, and ensuring a clear and coherent structure throughout the textbook.

Introduction: Unveiling the Past through af7 Historia de México 1

"af7 Historia de México 1," likely representing a specific course code or designation, offers a foundational exploration of Mexican history. This in-depth report aims to examine its potential content, pedagogical approaches, and overall contribution to understanding Mexico's complex past. Given the lack of publicly available information on a specific textbook with this title, we will construct a hypothetical analysis based on common features of introductory Mexican history courses.

Key Themes in af7 Historia de México 1: A Hypothetical Framework

A typical "af7 Historia de México 1" textbook would likely cover the following key themes:

1. Pre-Columbian Mexico: This section would delve into the diverse civilizations that flourished in Mesoamerica before the arrival of Europeans, including the Olmec, Maya, Aztec, and Zapotec cultures. It would analyze their social structures, political systems, religious beliefs, technological advancements, and artistic achievements. The textbook would likely emphasize the interconnectedness of these cultures and the misconceptions surrounding a monolithic "Aztec Empire."
1. The Conquest and Colonial Period: "af7 Historia de México 1" would undoubtedly examine the Spanish conquest, emphasizing the complexities of the encounter between indigenous populations and the European colonizers. This would encompass analyses of the role of violence, disease, alliances, resistance, and the establishment of the colonial system. The consequences of colonialism—including social hierarchies, economic exploitation, and cultural transformations—would be a central focus.
1. Independence and the 19th Century: The struggle for Mexican independence would be a significant portion, exploring the various factors that led to the rebellion against Spanish rule, the key figures involved (e.g., Miguel Hidalgo, José María Morelos), and the complexities of the early nation-building process. This would extend into the 19th century, analyzing the political instability, foreign interventions, and the rise and fall of various regimes.
1. The Mexican Revolution (1910-1920): This pivotal period in Mexican history would be examined in detail within "af7 Historia de México 1," including its causes, key players (e.g., Emiliano Zapata, Pancho Villa, Venustiano Carranza), different factions, and long-term consequences. The impact of the revolution on social structures, land distribution, and the formation of the modern Mexican state would be central themes.
1. 20th and 21st Century Mexico: The textbook would likely cover post-revolutionary Mexico, including the rise of the PRI, economic development, political reforms, and social changes. It might also incorporate discussions of contemporary challenges, such as issues of inequality, immigration, drug trafficking, and environmental concerns.

Methodology and Research in af7 Historia de México 1

A rigorous "af7 Historia de México 1" would rely on a variety of primary and secondary

sources. Primary sources might include colonial documents, letters, diaries, and indigenous accounts. Secondary sources would draw from scholarly books, journal articles, and historical interpretations, ensuring a balanced and nuanced presentation of the historical narrative. The textbook would need to acknowledge the ongoing scholarly debates and different perspectives on various historical events. The use of visual aids—maps, images, and illustrations—would greatly enhance the learning experience.

Pedagogical Approach in af7 Historia de México 1

A successful "af7 Historia de México 1" would employ pedagogical strategies designed to engage students and facilitate learning. This might include:

Chronological structure: Presenting the material in a clear chronological order to provide a framework for understanding the unfolding of history.

Thematic analysis: Exploring interconnected themes (e.g., social inequality, political power, cultural change) across different periods.

Case studies: In-depth examination of specific events or individuals to illustrate broader historical trends.

Maps and visuals: Using visual aids to enhance comprehension and engagement.

Discussion questions: Encouraging critical thinking and analysis.

Primary source excerpts: Providing direct access to historical voices and perspectives.

Summary of af7 Historia de México 1: A Hypothetical Conclusion

A well-constructed "af7 Historia de México 1" would provide students with a comprehensive and engaging introduction to Mexican history. By exploring key themes, utilizing diverse sources, and employing effective pedagogical strategies, the textbook would equip students with the knowledge and critical thinking skills necessary to understand the complexities of Mexico's past and its ongoing relevance in the contemporary world. The book aims to foster a deeper appreciation of Mexican culture, society, and its place in global history.

Conclusion

This hypothetical analysis of "af7 Historia de México 1" highlights the crucial role of rigorous scholarship, effective pedagogy, and accessible presentation in creating a successful introductory Mexican history textbook. While the specific content and approach might vary, the core themes and methodological considerations outlined here would form the backbone of any comprehensive and engaging exploration of Mexico's rich and multifaceted past. The continued evolution of historical scholarship ensures that future editions of such a textbook would reflect new research and interpretations, enriching the educational experience for students.

FAQs

1. What is the focus of af7 Historia de México 1? The hypothetical "af7 Historia de México 1" focuses on providing a comprehensive overview of Mexican history from pre-Columbian times to the present day.
1. What kind of sources does af7 Historia de México 1 use? It would utilize a combination of primary and secondary sources, including historical documents, scholarly articles, and visual materials.
1. Is af7 Historia de México 1 suitable for beginners? Yes, it's designed as an introductory course, making it accessible to students with no prior knowledge of Mexican history.
1. What pedagogical approaches does af7 Historia de México 1 employ? The book would likely use a chronological framework, thematic analyses, case studies, and visual aids to enhance learning.
1. How does af7 Historia de México 1 address diverse perspectives? It would acknowledge and integrate multiple perspectives and interpretations, acknowledging the complexities of historical events.
1. What are the key themes covered in af7 Historia de México 1? Pre-Columbian civilizations, the Conquest, Independence, the Mexican Revolution, and 20th/21st-century Mexico are likely key themes.
1. Who is the intended audience for af7 Historia de México 1? The intended audience is undergraduate students taking an introductory course on Mexican history.
1. Where can I find af7 Historia de México 1? As this is a hypothetical textbook, it's not currently available. However, similar textbooks can be found through academic publishers.

1. What makes af7 Historia de México 1 unique? While hypothetical, its uniqueness would likely lie in its specific pedagogical approach, the selection of primary sources, and the integration of the latest scholarly research.

af7 historia de mexico 1: Balance of Payments Manual International Monetary Fund, 2005-11-16 The fifth edition of Balance of Payments Manual, issued in 1993, presents revised and updated standards for concepts, definitions, classifications, and conventions for compilation of balance of payments and international investment position statistics that reflect the widespread changes that have taken place in international transactions since the fourth edition was published in 1977. As the international standard, the Manual serves as a guide for IMF member countries that regularly report balance of payments data to the IMF. The Manual contains significantly expanded and restructured coverage of financial flows and stocks and international transactions in services. Harmonization with the System of National Accounts and other IMF statistical systems is also greatly increased. See also companion volumes, the Balance of Payments Compilation Guide and the Balance of Payments Textbook.

af7 historia de mexico 1: Highlights of Spanish Astrophysics V Jose M. Diego, LuisJ. Goicoechea, J. Ignacio González-Serrano, Javier Gorgas, 2010-03-18 Astronomy is a scientific discipline that has developed a rapid and impressive growth in Spain. Thirty years ago, Spain occupied a purely anecdotal presence in the international context, but today it occupies the eighth position in the world in publication of astronomical articles, and, among other successes, owns and operates ninety per cent of the world's largest optical telescope GTC (Gran Telescopio Canarias). The Eighth Scientific Meeting of the Spanish Astronomical Society (Sociedad Española de Astronomía, SEA), held in Santander in July 7-11 2008, whose proceedings are in your hands, clearly shows the enthusiasm, motivation and quality of the present Spanish astronomical community. The event brought together 322 participants, who represent almost 50% of Spanish professional astronomers. This percentage, together with the continuously increasing, with respect to previous SEA meetings, number of oral presentations and poster contributions (179 and 127 respectively), confirms that the SEA conferences have become a point of reference to assess the interests and achievements of astrophysical research in Spain. The most important and current topics of modern Astrophysics were taken into account at the preliminary meeting, as well as the number and quality of participants and their contributions, to select the invited speakers and oral contributors. We took a week to enjoy the high quality contributions submitted by Spanish astronomers to the Scientific Organizing Committee. The selection was difficult. We wish to acknowledge the gentle advice and commitment of the SOC members.

af7 historia de mexico 1: *Genetic and Genomic Resources of Grain Legume Improvement* Mohar Singh, Hari D. Upadhyaya, I. S. Bisht, 2013-07-18 Grain legumes, including common bean, chickpea, pigeonpea, pea, cowpea, lentil and others, form important constituents of global diets, both vegetarian and non-vegetarian. Despite this significant role, global production has increased only marginally in the past 50 years. The slow production growth, along with a rising human

population and improved buying capacity has substantially reduced the per capita availability of food legumes. Changes in environmental climate have also had significant impact on production, creating a need to identify stable donors among genetic resources for environmentally robust genes and designing crops resilient to climate change. Genetic and Genomic Resources of Grain Legume Improvement is the first book to bring together the latest resources in plant genetics and genomics to facilitate the identification of specific germplasm, trait mapping and allele mining to more effectively develop biotic and abiotic-stress-resistant grains. This book will be an invaluable resource for researchers, crop biologists and students working with crop development. - Explores origin, distribution and diversity of grain legumes - Presents information on germplasm collection, evaluation and maintenance - Offers insight into pre-breeding/germplasm enhancement efforts - Integrates genomic and genetic resources in crop improvement - Internationally contributed work

af7 historia de mexico 1: A Preface to American Political Theory Donald S. Lutz, 1992-09-03 Donald Lutz begins A Preface to American Political Theory by explaining what the book doesn't do. It doesn't begin with a panegyric to the American founding. It doesn't answer the following questions: What are the basic principles in the U.S. Constitution? What were the intentions of the founders with respect to (fill in your own topic)? What is the meaning of pluralism, or separation of powers, or democracy, or (fill in your own concept)? In short, it doesn't provide an overview of the content, development, or major conclusions of American political theory. What it does do is provide a pre-theoretical analysis of how to go about studying questions like the ones above-how to conceptualize the project, how to proceed in looking for answers, how to avoid the logical traps peculiar to the study of American political theory. Lutz sets out to emancipate American political theorists from empiricism and inappropriate European theories and methodologies. The end result is to establish the foundation for the systematic study of American behavior, institutions, and ideas; to provide a general introduction to the study of American political theory; and to illustrate how textual analysis, history, empirical research, and analytic philosophy are all part of the enterprise. Designed for students and scholars in all disciplines, including political science, history, and legal studies, A Preface to American Political Theory doesn't provide answers to central continuing issues in American political theory. Rather, it provides an effective, sophisticated entree into the study of American political theory. Readers will be armed with the intellectual tools to engage in systematic study and makes them aware of the pitfalls they will inevitably encounter.

af7 historia de mexico 1: The Oxford Handbook of the History of Political Philosophy George Klosko, 2011-05-26 Fifty distinguished contributors survey the entire history of political philosophy. They consider questions about how the subject should best be studied; they examine historical periods and great theorists in their intellectual contexts; and they discuss aspects of the subject that transcend periods, such as democracy, the state, and imperialism.

af7 historia de mexico 1: Greek and Roman Dress from A to Z Lloyd Llewellyn-Jones, Glenys Davies, 2007-12-01 Who dressed as a woman in an attempt to commit adultery with Julius Caesar's wife? How did the ancient Greeks make blusher from seaweed? Just how does one wear a toga? If, as many claim, the importance of clothes lies in their detail, then this is a book that no sartorially savvy Classicist should be without. Greek and Roman Dress from A to Z is an alphabetized compendium of styles and accessories that form the well-known classical image: a reference source of stitches, drapery, hairstyles, colours, fabrics and jewellery, and an analysis of the intricate system

of social meanings that they comprise. The entries range in length from a few lines to a few pages and cover individual aspects of dress alongside surveys of wider topics and illuminating socio-cultural analysis, drawn from ancient art, literature and archaeology. For those who want to take their reading further, there are references to both primary sources and modern scholarship. This book is both fascinating for anyone delving into it with an interest in style and dress, and an invaluable companion for any classicist.

af7 historia de mexico 1: *Terrorism and the Electric Power Delivery System* National Research Council, Division on Engineering and Physical Sciences, Board on Energy and Environmental Systems, Committee on Enhancing the Robustness and Resilience of Future Electrical Transmission and Distribution in the United States to Terrorist Attack, 2012-11-25 The electric power delivery system that carries electricity from large central generators to customers could be severely damaged by a small number of well-informed attackers. The system is inherently vulnerable because transmission lines may span hundreds of miles, and many key facilities are unguarded. This vulnerability is exacerbated by the fact that the power grid, most of which was originally designed to meet the needs of individual vertically integrated utilities, is being used to move power between regions to support the needs of competitive markets for power generation. Primarily because of ambiguities introduced as a result of recent restricting the of the industry and cost pressures from consumers and regulators, investment to strengthen and upgrade the grid has lagged, with the result that many parts of the bulk high-voltage system are heavily stressed. Electric systems are not designed to withstand or quickly recover from damage inflicted simultaneously on multiple components. Such an attack could be carried out by knowledgeable attackers with little risk of detection or interdiction. Further well-planned and coordinated attacks by terrorists could leave the electric power system in a large region of the country at least partially disabled for a very long time. Although there are many examples of terrorist and military attacks on power systems elsewhere in the world, at the time of this study international terrorists have shown limited interest in attacking the U.S. power grid. However, that should not be a basis for complacency. Because all parts of the economy, as well as human health and welfare, depend on electricity, the results could be devastating. *Terrorism and the Electric Power Delivery System* focuses on measures that could make the power delivery system less vulnerable to attacks, restore power faster after an attack, and make critical services less vulnerable while the delivery of conventional electric power has been disrupted.

af7 historia de mexico 1: Survey of Historic Costume Phyllis G. Tortora, Keith Eubank,

2009-06-08 In the Preface of the 5th Edition of *Survey of Historic Costume*, Tortora and Eubank conclude with the following: In the history of dress at the beginning of the 21st century, costume might be compared to a constantly moving river. This river divides into many narrower channels that separate, cross, come together, and separate again, and yet that river continually moves on. Building on the previous editions, the authors update their analysis of Western dress to 2008. *Survey of Historic Costume* has, from its beginnings, taken seriously the need to accompany the text with appropriate illustrations and the major change in the 5th Edition is the move to full color throughout the book to enrich the text and the concepts. Perfect for anyone interested in historic costume, fashion, textiles, drama, and design, this beautifully illustrated book is full of interesting facts and commentary. New to this Edition:-- Over 500 four-color photographs and illustrations-- Updated text to 2008-- Additional influences from one period or civilization to another, including influences from other cultures-- Index - updated and organized to be utilized as glossary with terms defined and page numbers printed in boldface-- Instructor's Guide provides sources for visuals, websites, teaching strategies and evaluation techniques-- PowerPoint® Presentation contains interactive visual presentation with links to Internet

af7 historia de mexico 1: Paleocurrents and Basin Analysis P. E. Potter, F. J. Pettijohn, 2012-12-06 The study of paleocurrents, since 1963, is now a very routine part of sedimentology, and more and more such studies are finding use in other fields. Thus it seemed appropriate for us to review post-1963 developments and present them in a compact manner for the interested reader. Instead of rewriting a second edition, which thirteen years later we would organize in a completely different way, we have brought each chapter up to date with new material up to 1976. A new update supplement has in this edition been inserted after each one of the original chapters. We have stayed close to the original theme of paleocurrents-how to measure them and how to use them to solve geological problems ranging in scale from the hand specimen to the sedimentary basin and beyond. We have used many annotated references and tables to help present this information to the reader. The reader will note that we have cited a few 1962 references - publications that appeared too late to be cited in the original 1963 edition. A few times we have also cited a reference which was included in the first edition. These are marked with an asterisk and hence do not appear in the new lists of references. We have been aided by many. In Cincinnati, WANDA OSBORNE and JEAN CARROL did typing and RICHARD SPOHN, the University's geological librarian, was very helpful in obtaining many references to the literature.

af7 historia de mexico 1: Brazil Apart Perry Anderson, 2019-10-15 Leading English-language account of the fall of Lula's Workers' Party and rise of Bolsonaro and the New Right What does Brazil's lurch to the hard right under Jair Bolsonaro portend for Latin America's largest country, and how has it come about? Always something of a world unto itself, Brazil became, under the Workers' Party from 2003 to 2016, "the theatre of a socio-political drama without equivalent in any other major state." Bucking the global trend towards a tighter neoliberalism, former steelworker Luiz Inácio Lula da Silva swept aside the broken promises of previous years to invest in social transfers, defying vituperations in the Brazilian media to become the most popular ruler of the age. But in a second spectacular reversal, a parliamentary coup d'état against Lula's successor—backed by forces in the judiciary and a youthful New Right—has been consolidated by Bolsonaro's 2018 capture of the Planalto. With the PT's lodestar now behind bars, a weighing up of his legacy, and of the contrasting Bolsonaro regime, is urgently needed. *Brazil Apart* is the sharp-edged, comprehensive analytic account required.

af7 historia de mexico 1: International Relations in Europe Knud Erik Jørgensen, Tonny Brems Knudsen, 2006-04-18 A new and illuminating critical examination of international relations in

Europe. This new volume presents all of the state of the art thinking, focusing particularly on international relations theory and theoretical debates in Western and Central European countries. The contributors seek to strengthen knowledge about different ways of cultivating the discipline; to intensify pan-European communication concerning IR theory; to contribute to improving the quality of theorizing; and finally to consider future directions for the discipline in Europe. The main issues addressed include: the historical development of the discipline; factors driving IR theorizing; the institutional and cultural context of theorizing; 'homegrown' theory-building vs. theory import; patterns of traditional and new discourse; and the diversity of disciplinary traditions.

af7 historia de mexico 1: Common Law and Liberal Theory James Reist Stoner, 1992 In this book, James Stoner's purpose is to recover the common law basis of American constitutionalism. American constitutionalism in general, he argues, and judicial review in particular, cannot be fully understood without acknowledging their roots in both common law and liberal political theory. But for the most part, the common law underpinnings of constitutionalism have received short shrift.

af7 historia de mexico 1: Modern Political Thought John Gingell, Adrian Little, Christopher Winch, 2002-01-04 Modern Political Thought: A Reader is an excellent introduction to the key works of the major political thinkers from the English Civil War to the end of the 19th Century. It draws together the most important parts of seminal works of political thought such as Hobbes' Leviathan, Locke's Treatises, Rousseau's The Social Contract, Mill's On Liberty, together with substantial extracts from Machiavelli's The Prince and Marx's Capital. Accessible introductions are provided for each thinker, explaining their lives and works, and placing them in the historical context in which they worked and wrote.

af7 historia de mexico 1: *New Fashion Photography* Paul Sloman, 2013 Find out who's making their mark in a new century--and era--of fashion photography. The 21st century has brought about seismic changes in photography, technology, fashion, and art. At the nexus of these exciting movements is a group of fashion photographers who are breaking ground in a variety of ways, including cultural referencing, digital imaging, photo manipulation, and the use of new media. This stunningly illustrated book profiles more than 30 artists from around the world through exclusive interviews, commentary, and beautiful images. From Nick Knight's paint-soaked portrait of Lady Gaga to Mikes Aldridge's dark surrealism to Alice Hawkins's explorations of body image through satire, new fashion portraiture is challenging conventional ideas of beauty by confronting us with the unexpected. Throughout the book, these photographers explore new avenues previously off-limits in the world of couture, opening the art of fashion photography to thrilling possibilities.

af7 historia de mexico 1: Intertidal Deposits Eisma Doeke, 2019-07-23 Intertidal Deposits: River Mouths, Tidal Flats, and Coastal Lagoons combines the authors personal and professional experience with the mass of available literature to present a cohesive overview of intertidal deposits and the widely diverse conditions of their formation worldwide. This includes the strong influence of water movements, climate, sediment particle characteristics, vegetation, fauna, and man. Intertidal areas are important for many reasons both scientifically and economically and recently, a growing concern for conservation of these fragile regions strives to preserve and protect their natural

balance. This book, written by an international expert in the field, concentrates on the more important intertidal areas distinguished by size and morphology, tidal range, the degree and type of vegetational cover, the amount and type of benthic fauna, the extent of human exploitation, and the degree of previous study.

af7 historia de mexico 1: Multilingual Literacy Esther Odilia Breuer, Dr. Anat Stavans, Elke Van Steendam, 2021-01-21 This book investigates multilingual literacy practices, explores the technology applied in different educational frameworks, the centrality of multilingual literacy in non-formal, informal and formal educational contexts, as well as its presence in everyday life. Thematically clustered in four parts, the chapters present an overview of theory related to multilingual literacy, address the methodological challenges of research in the area, describe and evaluate projects set up to foster multilingual literacy in a variety of educational contexts, analyze the literacy practices of multilinguals and their contribution to language and literacy acquisition. This volume aims to initiate a change in paradigms, shifting from structured and conservative problematizations to inclusive and diverse conceptualizations and practices. To that end, the book showcases explorations of different methodologies and needs in formal and non-formal educational systems; and it serves as a springboard for developing multivocal participatory spaces with opportunities for learning and identity-building for all multilinguals, across different settings, languages, ages and contexts.

af7 historia de mexico 1: Graph Design for the Eye and Mind Stephen Michael Kosslyn, 2006-08-10 Graphs have become a fixture of everyday life, used in scientific and business publications, in magazines and newspapers, on television, on billboards, and even on cereal boxes. Nonetheless, surprisingly few graphs communicate effectively, and most graphs fail because they do not take into account the goals, needs, and abilities of the viewers. In *Graph Design for Eye and Mind*, Stephen Kosslyn addresses these problems by presenting eight psychological principles for constructing effective graphs. Each principle is solidly rooted both in the scientific literature on how we perceive and comprehend graphs and in general facts about how our eyes and brains process visual information. Kosslyn then uses these eight psychological principles as the basis for hundreds of specific recommendations that serve as a concrete, step-by-step guide to deciding whether a graph is an appropriate display to use, choosing the correct type of graph for a specific type of data and message, and then constructing graphs that will be understood at a glance. Kosslyn also includes a complete review of the scientific literature on graph perception and comprehension, and appendices that provide a quick tutorial on basic statistics and a checklist for evaluating computer-graphics programs. *Graph Design for Eye and Mind* is an invaluable reference for anyone who uses visual displays to convey information in the sciences, humanities, and businesses such as finance, marketing, and advertising.

af7 historia de mexico 1: Capital Fictions Ericka Beckman, 2013 Between 1870 and 1930, Latin American countries were incorporated into global capitalist networks like never before, mainly as exporters of raw materials and importers of manufactured goods. *Capital Fictions* investigates literature's key role in imagining and interpreting the rapid transformations unleashed by Latin America's first major wave of capitalist modernization. Using an innovative blend of literary and economic analysis and drawing from a rich interdisciplinary archive, Ericka Beckman provides the first extended evaluation of Export Age literary production. She traces the emergence of a distinct set of fictions, fantasies, and illusions that accompanied the rise of export-led, dependent capitalism. These capital fictions range from promotional pamphlets to Guatemalan coffee and advertisements for French fashions to novels about the stock market collapse in Argentina and rubber extraction in the Amazon. Questioning the opposition between culture and economics in Latin America and elsewhere, *Capital Fictions* shows that literature operated as a powerful form of political economy during this period. -- Back cover.

af7 historia de mexico 1: Secrets of Modern Chess Strategy John Watson, 1999-03 The first

section of [this] book discusses classical themes, such as pawn majorities, the centre and structural weaknesses. Watson then moves on to discuss new concepts, including the willingness of modern players to accept backward pawns in return for dynamic play, the idea of a good 'bad' bishop, knights finding useful roles at the edge of the board, and the exchange of sacrifice ideas that became prevalent with the post-war Soviet world champions. ... --

af7 historia de mexico 1: A Government of Laws Ellis Sandoz, 2001 In A Government of Laws, which includes a new preface, Ellis Sandoz re-evaluates the traditional understanding of the philosophic and intellectual background of the American founding. Through an exhaustive assessment of Renaissance, medieval, and ancient political philosophy, he shows that the founding fathers were consciously and explicitly seeking to create a political order that would meet the demands of human nature and society. This rigorous and searching analysis of the sources of political and constitutional theory generates an original and provocative approach to American thought and experience.
