Only 15 years ago, you could count the number of Web sites in the world with five or six digits; today there are between 15 and 30 billion active Web sites and millions more being added every day. Creating a Web site can be a great way to market a new product, promote your business plan, promote yourself, or simply share a few details about your life with the world. You will learn how blogging has made Web site creation easier than ever and how sites like Squidoo, Facebook, and MySpace allow you more freedom to build traffic and draw more attention to what you are advertising at any given time. You will learn how to use common software to edit and tweak your Web sites and how to read the basic code that all Web sites are created in. In addition, an entire chapter is devoted to teaching you how to promote your Web site and draw traffic to it, without spending a dime in the process. You will learn why information is the most valuable asset on the market and how you can become an expert in a niche of your choosing, making money to cover any fees associated with your Web site. You will learn where you can find copyright-free images to use on your Web sites and how to get free copy that will draw traffic and entertain your visitors. affiliate marketing crash course: Traffic Secrets Russell Brunson, 2023-07-25 Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream

customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.
