What are you giving them in return? Most workshops don't work. They fail to deliver real results and they fail to keep the audience energetic and engaged. They're stressful to run and painful to attend. Designing and running a brilliant workshop is easier than you think. It's not about flashy showmanship or natural charisma. Instead, it's about following a set of clear, simple rules for structuring and arranging the day. Discover and use key design principles such as: Naturally refresh and maintain the audience's attention and energy by alternating the teaching format (e.g. lecture, small group discussion, hands-on practice) every 20 minutes and making strategic use of good breaks Dramatically improve your educational impact by choosing an exercise which is properly matched to the type of knowledge/skill/wisdom currently being taught Save dozens of hours by beginning your design process with a simple skeleton of Learning Outcomes and timings rather than jumping straight into slides and materials Finish on time, every time, by intentionally designing flexible schedule springs into your session, allowing you to seamlessly adjust to delays and bad luck, and to ensure that everyone learns what they came for without running late The first half of the book covers everything you'll need to know about designing and refining the session itself. With a good design in hand, teaching a brilliant workshop goes from arduous to nearly automatic. The second half of the book shifts from ahead-of-time design to day-of facilitation. Learn the essential facilitation needed to solve unexpected problems and run a smooth, stress-free workshop: Reliable tools and tactics for crowd control, recovering attention, and shifting between tasks (without feeling like

you're fighting against your audience) Clear guidance for picking the best room setup, and also improving a bad room to make the most of it Spotting and problem-solving the six major types of difficult attendees who are being either accidentally or intentionally disruptive (including the most common issue of bringing a hostile expert onto your side) Checklists and reminders of what to bring, what to do, and when to do it, in order to ensure that nothing gets forgotten, overlooked, or lost At no point in the book will we ask you to put on a big smile or project confidence. That's fluffy BS which doesn't work. Instead, we'll give you clear, concrete tools for managing a crowd and seamlessly guiding everyone to an effective outcome. Why we're the right authors to help you succeed Over the last 15 years, we've designed and run a huge number of successful workshops (and a few major flops) covering every type of audience: executives, undergrads, MBAs, disadvantaged youths, busy professionals, and more. We've designed everything from 20-minute teasers to 3-month intensives, in locations ranging from Costa Rica and Qatar to London and Berlin. We've taught for companies like HP and Deloitte and for universities like Oxford and NYU. We've built workshops for every price point, from free upskilling (paid for by the state or employer) through to \$4000-per-seat premium events. We've taught casual sessions, with beer in hand and flip-flop on foot, through to formal, posh affairs with glitzy venues and high-end catering. In every case, no matter where it was located or who it was for, the process outlined in these pages worked. Perhaps most importantly, we can teach you how to do this. We've trained up teachers from scratch who are now billing upwards of \$5000 per day and getting invited back to teach again and again. This stuff isn't complicated. You can learn it!

As business community expert David Spinks shows in The Business of Belonging: How to Make Community your Competitive Advantage, the successful brands of tomorrow will be those that create authentic connection, giving customers a sense of real belonging and unlocking unprecedented scale as a result. In his career of over 10 years in the business of building community, Spinks has learned what a winning community strategy looks like. From the fundamental concepts—including how community drives measurable business value and what the appropriate metrics are—to high-level community design and practical engagement techniques, The Business of Belonging is an epic journey into the world of community building. This book is for decision makers who want to better understand the value and opportunity of community, and for community professionals who want to level up their strategy. Featuring a foreword by Startup Grind and Bevy cofounder Derek Andersen, it will give you a step-by-step model for strategically planning, creating, facilitating, and measuring communities that drive business growth. Attracting and retaining community members who are also loyal customers, brand evangelists, and leaders—that's the goal for today's connected businesses, and this book is the map to getting there.

I started small and lean, but steadily built up my side hustle until I could say good-bye to corporate work. You can do it, too. I'll show you how. What's Inside? If you're looking for a get-rich-quick scheme or the secret to overnight success, you won't find it here. But what you will find are the Big 3 side hustle business models you can take action on right away. I've interviewed hundreds of profitable side hustlers on *The Side Hustle Show* to figure out how their businesses work, how they make money, and most importantly, how you can replicate their success. In this book, you'll meet these real-world side hustlers who built and sustained businesses they care about. They faced the same fears and uncertainties you're wrestling with, but made something happen. Now it's your turn. What are you waiting for? The timing will never be perfect.
