affirmative answer crossword clue: Black Madness : Therí Alyce Pickens, 2019-06-07 In *Black Madness :: Mad Blackness* Therí Alyce Pickens rethinks the relationship between Blackness and disability, unsettling the common theorization that they are mutually constitutive. Pickens shows how Black speculative and science fiction authors such as Octavia Butler, Nalo Hopkinson, and Tananarive Due craft new worlds that reimagine the intersection of Blackness and madness. These creative writer-theorists formulate new parameters for thinking through Blackness and madness. Pickens considers Butler's *Fledgling* as an archive of Black madness that demonstrates how race and ability shape subjectivity while constructing the building blocks for antiracist and anti-ableist futures. She examines how Hopkinson's *Midnight Robber* theorizes mad Blackness and how Due's *African Immortals* series contests dominant definitions of the human. The theorizations of race and disability that emerge from these works, Pickens demonstrates, challenge the paradigms of subjectivity that white supremacy and ableism enforce, thereby pointing to the potential for new forms of radical politics.

affirmative answer crossword clue: The Seekers Daniel J. Boorstin, 1998-12-03 Throughout history, from the time of Socrates to our own modern age, the human race has sought the answers to fundamental questions of life: Who are we? Why are we here? In his previous national bestsellers, *The Discoverers* and *The Creators*, Daniel J. Boorstin first told brilliantly how we discovered the reality of our world, and then he celebrated man's achievements in the arts. He now turns to the great figures in history who sought meaning and purpose in our existence. Boorstin says our Western culture has seen three grand epics of Seeking. First there was the heroic way of prophets and philosophers--men like Moses or Job or Socrates, Plato, and Aristotle, as well as those in the communities of the early church universities and the Protestant Reformation--seeking salvation or truth from the god above or the reason within each of us. Then came an age of communal seeking, with people like Thucydides and Thomas More and Machiavelli and Voltaire pursuing civilization and the liberal spirit. Finally, there was an age of the social sciences, when man seemed ruled by the forces of history. Here are the absorbing stories of exceptional men such as Marx, Spengler, and Toynbee, Carlyle and Emerson, and Malraux, Bergson, and Einstein. These great thinkers still have the power to speak to us, not always so much for their answers as for their way of asking the questions that never cease either to intrigue or to obsess us. In this impressive climax to a monumental trilogy, Daniel J. Boorstin once again shows that his ability to present challenging ideas, coupled with sharp portraits of great writers and thinkers, remains unparalleled.

affirmative answer crossword clue: The Curious Incident of the Dog in the Night-Time Mark Haddon, 2009-02-24 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

affirmative answer crossword clue: T.E.Lawrence and the Red Sea Patrol John Johnson Allen, 2015-06-30 Although many books have been written about T E Lawrence and the Arab Revolt, none

before has fully explored the pivotal role of the Royal Navy in the Red Sea at the time. This is the first book to be written about the Navy's role in the success of the Arab Revolt in the creation of the legendary figure of Lawrence of Arabia. Following extensive and detailed research into the activities of the ships of the Red Sea Patrol by the author, a maritime historian and former Merchant Navy officer, it has become evident that, without the work of those ships, the Arab revolt would have failed and T E Lawrence would have remained an obscure officer in the military bureaucracy of Cairo.??Lawrence was very aware of the importance and relevance of the Royal Navy in their operations in the Red Sea and commented on it on many occasions, notably in 1918, saying 'The naval side of the operations, when the time comes to tell of it, will provide a most interesting case of the value of command of the sea..'. Until now, nobody has investigated this angle in any detail. By doing this so comprehensively, this book gives a fresh dimension to the Lawrence of Arabia legend.
