african american history month 2023: *A House Built by Slaves* Jonathan W. White, 2022-02-12 Readers of American history and books on Abraham Lincoln will appreciate what Los Angeles Review of Books deems an accessible book that puts a human face — many human faces — on the story of Lincoln's attitudes toward and engagement with African Americans and Publishers Weekly calls a rich and comprehensive account. Widely praised and winner of the 2023 Gilder Lehrman Lincoln Prize, this book illuminates why Lincoln's unprecedented welcoming of African American men and women to the White House transformed the trajectory of race relations in the United States. From his 1862 meetings with Black Christian ministers, Lincoln began inviting African Americans of every background into his home, from ex-slaves from the Deep South to champions of abolitionism such as Frederick Douglass and Sojourner Truth. More than a good-will gesture, the president conferred with his guests about the essential issues of citizenship and voting rights. Drawing from an array of primary sources, White reveals how African Americans used the White House as a national stage to amplify their calls for equality. Even more than 160 years after the signing of the Emancipation Proclamation, Lincoln's inclusion of African Americans remains a necessary example in a country still struggling from racial divisions today.

african american history month 2023: *Fugitive Pedagogy* Jarvis R. Givens, 2021-04-13 A fresh portrayal of one of the architects of the African American intellectual tradition, whose faith in the subversive power of education will inspire teachers and learners today. Black education was a subversive act from its inception. African Americans pursued education through clandestine means,

often in defiance of law and custom, even under threat of violence. They developed what Jarvis Givens calls a tradition of “fugitive pedagogy”—a theory and practice of Black education in America. The enslaved learned to read in spite of widespread prohibitions; newly emancipated people braved the dangers of integrating all-White schools and the hardships of building Black schools. Teachers developed covert instructional strategies, creative responses to the persistence of White opposition. From slavery through the Jim Crow era, Black people passed down this educational heritage. There is perhaps no better exemplar of this heritage than Carter G. Woodson—groundbreaking historian, founder of Black History Month, and legendary educator under Jim Crow. Givens shows that Woodson succeeded because of the world of Black teachers to which he belonged: Woodson’s first teachers were his formerly enslaved uncles; he himself taught for nearly thirty years; and he spent his life partnering with educators to transform the lives of Black students. *Fugitive Pedagogy* chronicles Woodson’s efforts to fight against the “mis-education of the Negro” by helping teachers and students to see themselves and their mission as set apart from an anti-Black world. Teachers, students, families, and communities worked together, using Woodson’s materials and methods as they fought for power in schools and continued the work of fugitive pedagogy. Forged in slavery, embodied by Woodson, this tradition of escape remains essential for teachers and students today.

african american history month 2023: Before Brown, Beyond Boundaries Association for the Study of African-American Life and History, 2004 May 17, 2004 will mark the 50th anniversary of the landmark *Brown v. Board of Education* desegregation decision. This case is considered to be the most important legal case affecting African Americans in the twentieth century and one of the most important Supreme Court decisions in U. S. Constitution history. *Brown v. Board of Education* combines separate cases from Kansas (*Brown et. Al v. Board of Education of Topeka*), South Carolina (*Briggs v. Elliott*), Delaware (*Belton v. Gebhart*), Virginia (*Davis v. County School Board of Prince Edward Country, Virginia*), and the District of Columbia (*Boiling v. Sharpe*). The *Brown* companion cases presented segregation at its worst. Although supposedly guaranteeing African Americans separate but equal education, schools for African Americans were never equal as many were in run-down buildings with overcrowded classrooms. Many schools had no indoor plumbing or heating and there was little money for books and supplies. Bus service was rarely supplied for African American children who often had to walk past better-equipped white schools to attend segregated schools. The NAACP (National Association for the Advancement of Colored People) decided to challenge segregation in schools and took the *Brown* cases to the Supreme Court. After combining the five cases in one large case, the Supreme Court ruled that segregated schools were illegal. This book will serve as a helpful curriculum guide to educators interested in teaching the details of one of the most important legal cases in African American history.

african american history month 2023: *Pushing Cool* Keith Wailoo, 2021-11-02 Spanning a century, *Pushing Cool* reveals how the twin deceptions of health and Black affinity for menthol were crafted—and how the industry's disturbingly powerful narrative has endured to this day. Police put Eric Garner in a fatal chokehold for selling cigarettes on a New York City street corner. George Floyd was killed by police outside a store in Minneapolis known as “the best place to buy menthols.” Black smokers overwhelmingly prefer menthol brands such as Kool, Salem, and Newport. All of this is no coincidence. The disproportionate Black deaths and cries of “I can't breathe” that ring out in our era—because of police violence, COVID-19, or menthol smoking—are intimately connected to a post-1960s history of race and exploitation. In *Pushing Cool*, Keith Wailoo tells the intricate and poignant story of menthol cigarettes for the first time. He pulls back the curtain to reveal the hidden persuaders who shaped menthol buying habits and racial markets across America: the world of tobacco marketers, consultants, psychologists, and social scientists, as well as Black lawmakers and civic groups including the NAACP. Today most Black smokers buy menthols, and calls to prohibit their circulation hinge on a history of the industry's targeted racial marketing. In 2009, when Congress banned flavored cigarettes as criminal enticements to encourage youth smoking, menthol cigarettes were also slated to be banned. Through a detailed study of internal tobacco industry documents, Wailoo exposes why they weren't and how they remain so popular with Black smokers.

african american history month 2023: *Defining Moments in Black History* Dick Gregory, 2018-09-18 NAACP 2017 Image Award Winner With his trademark acerbic wit, incisive humor, and infectious paranoia, one of our foremost comedians and most politically engaged civil rights activists looks back at 100 key events from the complicated history of black America. A friend of luminaries including Dr. Martin Luther King, Jr. and Medgar Evers, and the forebear of today's popular black comics, including Larry Wilmore, W. Kamau Bell, Damon Young, and Trevor Noah, Dick Gregory was a provocative and incisive cultural force for more than fifty years. As an entertainer, he always kept it indisputably real about race issues in America, fearlessly lacing laughter with hard truths. As a leading activist against injustice, he marched at Selma during the Civil Rights movement, organized

student rallies to protest the Vietnam War; sat in at rallies for Native American and feminist rights; fought apartheid in South Africa; and participated in hunger strikes in support of Black Lives Matter. In this collection of thoughtful, provocative essays, Gregory charts the complex and often obscured history of the African American experience. In his unapologetically candid voice, he moves from African ancestry and surviving the Middle Passage to the enjoyment of bacon and everything pig, the headline-making shootings of black men, and the Black Lives Matter movement. A captivating journey through time, *Defining Moments in Black History* explores historical movements such as The Great Migration and the Harlem Renaissance, as well as cultural touchstones such as Sidney Poitier winning the Best Actor Oscar for *Lilies in the Field* and Billie Holiday releasing *Strange Fruit*. An engaging look at black life that offers insightful commentary on the intricate history of the African American people, *Defining Moments in Black History* is an essential, no-holds-bar history lesson that will provoke, enlighten, and entertain.

african american history month 2023: Hidden in the Mix Diane Pecknold, 2013-07-10
Country music's debt to African American music has long been recognized. Black musicians have helped to shape the styles of many of the most important performers in the country canon. The partnership between Lesley Riddle and A. P. Carter produced much of the Carter Family's repertoire; the street musician Tee Tot Payne taught a young Hank Williams Sr.; the guitar playing of Arnold Schultz influenced western Kentuckians, including Bill Monroe and Ike Everly. Yet attention to how these and other African Americans enriched the music played by whites has obscured the achievements of black country-music performers and the enjoyment of black listeners. The contributors to *Hidden in the Mix* examine how country music became white, how that fictive racialization has been maintained, and how African American artists and fans have used country music to elaborate their own identities. They investigate topics as diverse as the role of race in shaping old-time record catalogues, the transracial West of the hick-hopper Cowboy Troy, and the place of U.S. country music in postcolonial debates about race and resistance. Revealing how music mediates both the ideology and the lived experience of race, *Hidden in the Mix* challenges the status of country music as the white man's blues. Contributors. Michael Awkward, Erika Brady, Barbara Ching, Adam Gussow, Patrick Huber, Charles Hughes, Jeffrey A. Keith, Kip Lornell, Diane Pecknold, David Sanjek, Tony Thomas, Jerry Wever

african american history month 2023: From Here to Equality, Second Edition William A. Darity Jr., A. Kirsten Mullen, 2022-07-27 Racism and discrimination have choked economic opportunity for African Americans at nearly every turn. At several historic moments, the trajectory of racial inequality could have been altered dramatically. But neither Reconstruction nor the New Deal nor the civil rights struggle led to an economically just and fair nation. Today, systematic inequality persists in the form of housing discrimination, unequal education, police brutality, mass incarceration, employment discrimination, and massive wealth and opportunity gaps. Economic data indicates that for every dollar the average white household holds in wealth the average black household possesses a mere ten cents. This compelling and sharply argued book addresses economic injustices head-on and make the most comprehensive case to date for economic reparations for U.S. descendants of slavery. Using innovative methods that link monetary values to historical wrongs, William Darity Jr. and A. Kirsten Mullen assess the literal and figurative costs of justice denied in the 155 years since the end of the Civil War and offer a detailed roadmap for an effective reparations program, including a substantial payment to each documented U.S. black descendant of slavery. This new edition features a new foreword addressing the latest developments on the local, state, and federal level and considering current prospects for a comprehensive reparations program.

african american history month 2023: Nubia: Real One L. L. McKinney, 2021-02-23 Can you be a hero...if society doesn't see you as a person? Nubia has always been a little bit...different. As a baby she showcased Amazonian-like strength by pushing over a tree to rescue her neighbor's cat. But despite her having similar abilities, the world has no problem telling her that she's no Wonder Woman. And even if she were, they wouldn't want her. Every time she comes to the rescue, she's reminded of how people see her: as a threat. Her moms do their best to keep her safe, but Nubia can't deny the fire within her, even if she's a little awkward about it sometimes. Even if it means people assume the worst. When Nubia's best friend, Quisha, is threatened by a boy who thinks he owns the town, Nubia will risk it all--her safety, her home, and her crush on that cute kid in English class--to become the hero society tells her she isn't. From the witty and powerful voice behind *A Blade So Black*, and with endearing and expressive art by Robyn Smith, comes a vital story for today about equality, identity, and kicking it with your squad.

Smith, Elizabeth Wein, 2024-01-16 From the acclaimed author of *Flygirl* and the bestselling author of *Code Name Verity* comes the thrilling and inspiring true story of the desegregation of the skies. "This beautiful and brilliant history of not only what it means to be Black and dream of flying but to, against every odd, do so, completely blew me away." —Jacqueline Woodson, National Book Award Winner for *Brown Girl Dreaming* In the years between World War I and World War II, aviation fever was everywhere, including among Black Americans. But what hope did a Black person have of learning to fly in a country constricted by prejudice and Jim Crow laws, where Black aviators like Bessie Coleman had to move to France to earn their wings? *American Wings* follows a group of determined Black Americans: Cornelius Coffey and Johnny Robinson, skilled auto mechanics; Janet Harmon Bragg, a nurse; and Willa Brown, a teacher and social worker. Together, they created a flying club and built their own airfield south of Chicago. As the U.S. hurtled toward World War II, they established a school to train new pilots, teaching both Black and white students together and proving, in a time when the U.S. military was still segregated, that successful integration was possible. Featuring rare historical photographs, *American Wings* brings to light a hidden history of pioneering Black men and women who, with grit and resilience, battled powerful odds for an equal share of the sky.
