ahmanson recruit training center photos: Where Truth Lies Kris Fallon, 2019-10-29 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. This boldly original book traces the evolution of documentary film and photography as they migrated onto digital platforms during the first decades of the twenty-first century. Kris Fallon examines the emergence of several key media forms—social networking and crowdsourcing, video games and virtual environments, big data and data visualization—and demonstrates the formative influence of political conflict and the documentary film tradition on their evolution and cultural integration.

Focusing on particular moments of political rupture, Fallon argues that the ideological rifts of the period inspired the adoption and adaptation of newly available technologies to encourage social mobilization and political action, a function performed for much of the previous century by independent documentary film. Positioning documentary film and digital media side by side in the political sphere, Fallon asserts that “truth” now lies in a new set of media forms and discursive practices that implicitly shape the documentation of everything from widespread cultural spectacles like wars and presidential elections to more invisible or isolated phenomena like the Abu Ghraib torture scandal or the “fake news” debates of 2016.

ahmanson recruit training center photos: Aesthetics of Gentrification

Gerard F. Sandoval, Christoph Lindner, 2021-02-19 Gentrification is reshaping cities worldwide, resulting in seductive spaces and exclusive communities that aspire to innovation, creativity, sustainability, and technological sophistication. Gentrification is also contributing to growing social-spatial division and urban inequality and precarity. In a time of escalating housing crisis, unaffordable cities, and racial tension, scholars speak of eco-gentrification, techno-gentrification, super-gentrification, and planetary-gentrification to describe the different forms and scales of involuntary displacement occurring in vulnerable communities in response to current patterns of development and the hype-driven discourses of the creative city, smart city, millennial city, and sustainable city. In this context, how do contemporary creative practices in art, architecture, and related fields help to produce or resist gentrification? What does gentrification look and feel like in specific sites and communities around the globe, and how is that appearance or feeling implicated in promoting stylized renewal to a privileged public? In what ways do the aesthetics of gentrification express contested conditions of migration and mobility? Addressing these questions, this book examines the relationship between aesthetics and gentrification in contemporary cities from multiple, comparative, global, and transnational perspectives.

ahmanson recruit training center photos: From Shtetl to Stardom

Michael Renov, Vincent Brook, 2016-12-15 The influence of Jews in American entertainment from the early days of Hollywood to the present has proved an endlessly fascinating and controversial topic, for Jews and

non-Jews alike. *From Shtetl to Stardom: Jews and Hollywood* takes an exciting and innovative approach to this rich and complex material. Exploring the subject from a scholarly perspective as well as up close and personal, the book combines historical and theoretical analysis by leading academics in the field with inside information from prominent entertainment professionals. Essays range from Vincent Brook's survey of the stubbornly persistent canard of Jewish industry control to Lawrence Baron and Joel Rosenberg's panel presentations on the recent brouhaha over Ben Urwand's book alleging collaboration between Hollywood and Hitler. Case studies by Howard Rodman and Joshua Louis Moss examine a key Coen brothers film, *A Serious Man* (Rodman), and Jill Soloway's groundbreaking television series, *Transparent* (Moss). Jeffrey Shandler and Shaina Hamermann train their respective lenses on popular satirical comedians of yesteryear (Allan Sherman) and those currently all the rage (Amy Schumer, Lena Dunham, and Sarah Silverman). David Isaacs relates his years of agony and hilarity in the television comedy writers' room, and interviews include in-depth discussions by Ross Melnick with Laemmle Theatres owner Greg Laemmle (relative of Universal Studios founder Carl Laemmle) and by Michael Renov with *Mad Men* creator Matthew Weiner. In all, *From Shtetl to Stardom* offers a uniquely multifaceted, multimediated, and up-to-the-minute account of the remarkable role Jews have played in American movie and TV culture.

ahmanson recruit training center photos: *The Los Angeles River* Blake Gumprecht, 2001-04-30 Winner of the J. B. Jackson Prize from the Association of American Geographers Three centuries ago, the Los Angeles River meandered through marshes and forests of willow and sycamore. Trout spawned in its waters and grizzly bears roamed its shores. The bountiful environment the river helped create supported one of the largest concentrations of Indians in North America. Today, the river is made almost entirely of concrete. Chain-link fence and barbed wire line its course. Shopping carts and trash litter its channel. Little water flows in the river most of the year, and nearly all that does is treated sewage and oily street runoff. On much of its course, the river looks more like a deserted freeway than a river. The river's contemporary image belies its former character and its importance to the development of Southern California. Los Angeles would not exist were it not for the river, and the river was crucial to its growth. Recognizing its past and future potential, a potent movement has developed to revitalize its course. *The Los Angeles River* offers the first comprehensive account of a river that helped give birth to one of the world's great cities, significantly shaped its history, and promises to play a key role in its future.

Written by a who's who of animation authorities, *Funny Pictures* offers a stimulating range of views on why animation became associated with comedy so early and so indelibly, and illustrates how animation and humor came together at a pivotal stage in the development of the motion picture industry. To examine some of the central assumptions about comedy and cartoons and to explore the key factors that promoted their fusion, the book analyzes many of the key filmic texts from the studio years that exemplify animated comedy. *Funny Pictures* also looks ahead to show how this vital American entertainment tradition still thrives today in works ranging from *The Simpsons* to the output of Pixar.

Collette worked closely with Charles Mingus and Eric Dolphy and went on to join the Chico Hamilton Quintet. He has led his own bands for thirty years as well as writing, arranging and playing on film soundtracks. In this fascinating autobiography, he illuminates the world of the studio musician and charts the developing jazz and social scene on the West Coast from the 1930s, through the Watts upheavals in the 1960s, to the present. He offers moving, first-hand portraits of his friends Charles Mingus, Eric Dolphy and Chico Hamilton, as well as personal accounts of Frank Sinatra, Paul Robeson and Charlie Parker. ahmanson recruit training center photos: *Unholy* Sarah Posner, 2021-06-01 “In terrifying detail, *Unholy* illustrates how a vast network of white Christian nationalists plotted the authoritarian takeover of the American democratic system. There is no more timely book than this one.”—Janet Reitman, author of *Inside Scientology* Why did so many evangelicals turn out to vote for Donald Trump, a serial philanderer with questionable conservative credentials who seems to defy Christian values with his every utterance? To a reporter like Sarah Posner, who has been covering the religious right for decades, the answer turns out to be far more intuitive than one might think. In this taut inquiry, Posner digs deep into the radical history of the religious right to reveal how issues of race and xenophobia have always been at the movement’s core, and how religion often cloaked anxieties about perceived threats to a white, Christian America. Fueled by an antidemocratic impulse, and united by this narrative of reverse victimization, the religious right and the alt-right support a common agenda—and are actively using the erosion of democratic norms to roll back civil rights advances, stock the judiciary with hard-right judges, defang and deregulate federal agencies, and undermine the credibility of the free press. Increasingly, this formidable bloc is also forging ties with European far right groups, giving momentum to a truly global movement. Revelatory and engrossing, *Unholy* offers a deeper understanding of the ideological underpinnings and forces influencing the course of Republican politics. This is a book that must be read by anyone who cares about the future of American democracy.

ahmanson recruit training center photos: *Bad Boy* Eric Fischl, Michael Stone, 2013-05-07 In *Bad Boy*, renowned American artist Eric Fischl has written a penetrating, often searing exploration of his coming of age as an artist, and his search for a fresh narrative style in the highly charged and competitive New York art world in the 1970s and 1980s. With such notorious and controversial paintings as *Bad Boy* and *Sleepwalker*, Fischl joined the front ranks of America artists, in a high-octane downtown art scene that included Andy Warhol, David Salle, Julian Schnabel, and others. It was a world of fashion, fame, cocaine and alcohol that for a time threatened to undermine all that Fischl had achieved. In an extraordinarily candid and revealing memoir, Fischl discusses the impact of his dysfunctional family on his art—his mother, an imaginative and tragic woman, was an alcoholic who ultimately took her own life. Following his years as a student at Cal Arts and teaching in Nova Scotia, he describes his early years in New York with the artist April Gornik, just as Wall Street money begins to encroach on the old gallery system and change the economics of the art world. Fischl rebelled against the conceptual and minimalist art that was in fashion at the time to paint compelling portraits of everyday people that captured the unspoken tensions in their lives. Still in his thirties, Eric became the subject of a major Vanity Fair interview, his canvases sold for as much as a million dollars, and The Whitney Museum mounted a major retrospective of his paintings. *Bad Boy* follows Fischl’s maturation both as an artist and sculptor, and his inevitable fall from grace as a new generation of artists takes center stage, and he is forced to grapple with his legacy and place among museums and collectors. Beautifully written, and as courageously revealing as his most provocative paintings, *Bad Boy* takes the reader on a roller coaster ride through the passion and politics of the art world as it has rarely been seen before.

With more than 9,300 sworn officers today, the LAPD endures seemingly endless controversies and media circuses. But then there's the other side of L.A.'s protective shield--the story of the force's evolution alongside the spectacular growth of its unique melting-pot city. This book's rare and often never-before-published photographs focus on that side: the excitement, danger, tragedy, and comedy of everyday beat cops and workaday detectives--with concessions to their limelight representations, including Jack Webb's *Dragnet* and *Adam-12*.

ahmanson recruit training center photos: Our Ajax Timberlake Wertenbaker, 2013-11-28 Torn between army politics and the love of his soldiers on the front line, a legendary leader spirals out of control. Inspired by Sophocles' classical play, *Our Ajax* draws on interviews with contemporary servicemen and women to create a modern epic of heroism, love and homeland. Timberlake Wertenbaker's *Our Ajax* premiered at the Southwark Playhouse, London, in November 2014.

ahmanson recruit training center photos: Eating Architecture Jamie Horwitz, Paulette Singley, 2006-02-17 A highly original collection of essays that explore the relationship between food and architecture—the preparation of meals and the production of space. The contributors to this highly original collection of essays explore the relationship between food and architecture, asking what can be learned by examining the (often metaphorical) intersection of the preparation of meals and the production of space. In a culture that includes the Food Channel and the knife-juggling chefs of Benihana, food has become not only an obsession but an alternative art form. The nineteen essays and Gallery of Recipes in *Eating Architecture* seize this moment to investigate how art and architecture engage issues of identity, ideology, conviviality, memory, and loss that cookery evokes.

This is a book for all those who opt for the combination platter of cultural inquiry as well as for the readers of M. F. K. Fisher and Ruth Reichl. The essays are organized into four sections that lead the reader from the landscape to the kitchen, the table, and finally the mouth. The essays in *Place Settings* examine the relationships between food and location that arise in culinary colonialism and the global economy of tourism. *Philosophy in the Kitchen* traces the routines that create a site for aesthetic experimentation, including an examination of gingerbread houses as art, food, and architectural space. The essays in *Table Rules* consider the spatial and performative aspects of eating and the ways in which shared meals are among the most perishable and preserved cultural artifacts. Finally, *Embodied Taste* considers the sensual apprehension of food and what it means to consume a work of art. The *Gallery of Recipes* contains images by contemporary architects on the subject of eating architecture.

ahmanson recruit training center photos: *Wide Awake* Suzanne Lummis, 2015 Named one of Los Angeles Times Book Critic David Ulin's Top 10 Books of 2015, *Wide Awake* draws together nationally acclaimed poets and gifted newer writers—one hundred twelve poets of Los Angeles and its surrounding territories—whose work speaks to the humanity, pathos and comedy, of what may be the most romanticized and scorned, disparaged and exalted, of the world's great cities. With respect to style, the selections range from the narrative to the more open-ended or non-sequential, classic formal verse to robust vernacular, and in this way speak to the lively state of North American poetry in our age. Poets include David St. John, Wanda Coleman, Cecilia Woloch, Lynne Thompson, Timothy Steele, Kate Gale, Gail Wronsky, Terry Wolverton, Luis J. Rodriguez, Tony Barnstone, Robin Coste Lewis, William Archila and Melissa Roxas.

ahmanson recruit training center photos: *The Lausanne Movement* Lars Dahle, Margunn Serigstad Dahle, Knud Jørgensen, 2014-12-22 The Lausanne Movement has since 1974 functioned as a platform and forum for Evangelical leaders from various geographical and confessional strands. This year it will celebrate its 40th anniversary. This volume brings together voices about both The Lausanne Movement and on the Cape Town Congress in 2010. It gives a broad perspective on the development of and reflection on mission and evangelism among Evangelicals, with a particular focus on the Lausanne movement. It contains chapters about the historical, theological and missiological background and discusses key issues and concepts of Lausanne as they have emerged over the years since 1974. It offers links to and reflections on Cape Town and on Lausanne. Critical views of Cape Town and Lausanne are also included, aiming at opening up a dialogue with other views on evangelism and mission. This book illustrates the development and achievement of the Lausanne Movement for World Evangelization which is an important part of modern Christian history of mission and evangelism. I warmly recommend this collection of essays to envision the future of world evangelization. Olav Fykse Tveit, General Secretary of the World Council of Churches This book is an important one, because Lausanne matters, not only as historical moments but as an ongoing, quiet and powerful movement of God's Spirit. Leighton Ford, Charlotte, Honorary Lifetime Chair of the Lausanne Movement Margunn Serigstad Dahle is Programme Director for and Associate Professor in Communication and Worldviews at Gimlekollen School of Journalism and Communication, NLA University College, Norway. She also serves as Team and Production Director in Damaris Norway. Lars Dahle is Vice-Rector and Associate Professor in Systematic Theology and Apologetics at Gimlekollen School of Journalism and Communication, NLA University College, Norway. He was appointed as Lausanne Senior Associate for Media Engagement in 2013. Knud Jørgensen is Adjunct Professor in Missiology, Communication and Leadership at MF Norwegian School of Theology. He is one of the editors of the *Regnum Edinburgh Centenary Series*. From 1998 and until 2010 he was director of the Scandinavian mission foundation Areopagos and dean of Tao Fong Shan in Hong Kong.

ahmanson recruit training center photos: Belonging HERMAN. OUSELEY, 2021-09-30
Belonging: Fate and Changing Realities is a compelling account of one man's extraordinary life experiences. As a twelve-year-old born into an impoverished single parent household in what was then British Guiana, Herman travelled unaccompanied across the world to Britain to be reunited with his mother in Peckham, south London. Low in self-confidence and self-esteem, he regarded himself as a 'nobody' in this new world as he struggled to come to terms with the harsh realities of brutal abuse, discrimination, exclusion and the necessity of survival. This memoir vividly describes how he learnt to cope with all challenges, finding his own unique ways of winning people over and encouraging them to mix with others who are different from themselves.
