Glass, 2014-03-07 This book is guaranteed to spark lively debates and critical thinking in any classroom! Two of the most respected voices in education identify 50 myths and lies that threaten America's public schools. Warped opinions about our nations public schools include: they are inferior to private schools; they are among the worst in the world in math and science; teachers should be fired if their students dont score at the national average, and on and on.
