aidans trading post: *Clover Garden* Bland Simpson, 2024-09-23 Between North Carolina's coastal plain and the Blue Ridge Mountains lies the Piedmont: some 250 linear miles of rolling, long-settled lands covering almost half of the state. Geologically speaking, piedmont regions are found all over the world, but North Carolina's Piedmont is among the largest in the United States, sitting along an environmental crossroads where northern and southern flora and fauna overlap, offering an incredibly rich natural diversity. Inhabited continuously for thousands of years, the state's rural heartland is today home to an increasingly dense population. Yet most who reside in the region's cities, suburbs, and smaller towns still live within reach of red-clay farmland, oak and hickory forests watered by small creeks, and rocky river valleys. These places—as they have been and as they are now—remain essential to the character of life in the South. Through his long, celebrated writing career, Bland Simpson has earned a reputation as the bard of North Carolina's coasts and sound country. Here, for the first time, he trains his attention on Clover Garden, the Piedmont community where he has lived for some fifty years. With a naturalist's eye, a storyteller's mind, and a poet's soul, Simpson guides readers into a deep engagement with the Piedmont, both as a material place and as an idea. Illustrated with photographs by Ann Cary Simpson, *Clover Garden* invites us to think more broadly about the natural and human history of the piedmont South. This book will be treasured by all who seek to live deeply in the places we call home.

The Thelon is the setting for a compelling Canadian adventure tale -- with all its drama, intrigue, joy and tragedy. For its duration, these visitors can experience the customs and ways of our voyageur ancestors, the hardy men and women who settled the prairies after the arrival of La Vérendrye in 1734. In 1969, the Franco-Manitoban community laid the groundwork for a new winter festival inspired by the historic voyageur era. It also introduced the ambassadors of the endeavour—the Official Voyageurs, based on notable historical figures such as Jean-Baptiste Lagimodière and his wife Marie-Anne Gaboury, the first pioneers of the Red River Settlement and the grandparents of Louis Riel. Thanks to its experienced team and thousands of volunteers, Festival du Voyageur has since its inception provided a space in which to gather and celebrate the history of the voyageurs and the fur trade, by way of the First Nations, the Métis, and the early days of the Red River Settlement. Festivalgoers are invited to visit striking snow sculptures, skate on the Red River, enjoy traditional foods, take part in a host of contests and competitions, learn legends and lore from kitchen party and folk music performances, and mingle at the various trading posts. aidans trading post: *The Last Priest of Jupiter : Book 1 of THE WISDOM OF THE WOLF* Aidan M G Moore, 2013 In truth, I found it hard going. It is not clear whether it is intended to be a book of instruction about the Roman conquest of Britain or an adventure story of a young boy who learns the tricks of the fighting trade from the Romans with the intention of using them against the same Romans back in Ireland. It turns out that this will not be necessary, but that he will have to fight his uncle Niall, who up to this point has been painted as a heroic figure. At the end, the future contact with Christianity is foreseen. As an exposition of military and colonial problems in Britain and Ireland in the 5th century, it is a wonderful piece of erudition. The explanation of the different origins of names and customs shows a mastery of the history and politics of the day. Similarly the story of the foreign cavalry in the Roman army/ The problem is that the reader is expecting an adventure yarn, with frequent setbacks and heroic reversals, culminating in some kind of temporary triumph. The longer the book goes on, the less this aspect is important. Clearly the book needs a map of Britain and Ireland and it would make easier reading if the names of the towns and regions were given in English. There needs to be a decision about which characters are important (what happened Sal Bui?) The notes at the heads of the chapters are a distraction – these should form a 20-page appendix at the end of the book. A true adventure story would not have such openings, because the story would be more important than the explanations. I suggest that you break up long paragraphs and have a consisted way of dealing with things like quotation marks, breaks between paragraphs etc. The difference between the followers of Christ and of Jesus is good; so is the account of the raiding pirates from across the North Sea. There are many other excellent things, but ultimately, I feel the book falls between two stools: Roman history and adventure yarn. An example is Ch 2, the initiation of Dathi which appears to have no further relevance to the story.

aidans trading post: *Early Christianity in Contexts* William Tabbernee, 2014-11-18 This major work draws on current archaeological and textual research to trace the spread of Christianity in the first millennium. William Tabbernee, an internationally renowned scholar of the history of Christianity, has assembled a team of expert historians to survey the diverse forms of early Christianity as it spread across centuries, cultures, and continents. Organized according to geographical areas of the late antique world, this book examines what various regions looked like before and after the introduction of Christianity. How and when was Christianity (or a new form or expression of it) introduced into the region? How were Christian life and thought shaped by the particularities of the local setting? And how did Christianity in turn influence or reshape the local culture? The book's careful attention to local realities adds depth and concreteness to students' understanding of early Christianity, while its broad sweep introduces them to first-millennium precursors of today's variegated, globalized religion. Numerous photographs, sidebars, and maps are included.

aidans trading post: *A History of World Egyptology* Andrew Bednarski, Aidan Dodson, Salima Ikram, 2021-05-27 A History of World Egyptology is a ground-breaking reference work that traces the study of ancient Egypt over the past 150 years. Global in purview, it enlarges our understanding of how and why people have looked, and continue to look, into humankind's distant past through the lens of the enduring allure of ancient Egypt. Written by an international team of scholars, the volume investigates how territories around the world have engaged with, and have been inspired by, ancient Egypt and its study, and how that engagement has evolved over time. Chapters present a specific territory from different perspectives, including institutional and national, while examining a range of transnational links as well. The volume thus touches on multiple strands of scholarship, embracing not only Egyptology, but also social history, the history of science and reception studies. It will appeal to amateurs and professionals with an interest in the histories of Egypt, archaeology and science.

aidans trading post: *The Zanzibar Chest* Aidan Hartley, 2016-12-13 An examination of

colonialism and its consequences. "A sweeping, poetic homage to Africa, a continent made vivid by Hartley's capable, stunning prose" (Publishers Weekly). In his final days, Aidan Hartley's father said to him, "We should have never come here." Those words spoke of a colonial legacy that stretched back through four generations of one British family. From a great-great-grandfather who defended British settlements in nineteenth-century New Zealand, to his father, a colonial officer sent to Africa in the 1920s and who later returned to raise a family there—these were intrepid men who traveled to exotic lands to conquer, build, and bear witness. And there was Aidan, who became a journalist covering Africa in the 1990s, a decade marked by terror and genocide. After encountering the violence in Somalia, Uganda, and Rwanda, Aidan retreated to his family's house in Kenya where he discovered the Zanzibar chest his father left him. Intricately hand-carved, the chest contained the diaries of his father's best friend, Peter Davey, an Englishman who had died under obscure circumstances five decades before. With the papers as his guide, Hartley embarked on a journey not only to unlock the secrets of Davey's life, but his own. "The finest account of a war correspondent's psychic wracking since Michael Herr's *Dispatches*." —Rian Malan, author of *My Traitor's Heart*

Oswald of Northumbria was the first great English monarch, yet today this legendary figure is all but forgotten. In this panoramic portrait of Dark Age Britain, archaeologist and biographer Max Adams returns the king in the North to his rightful place in history.

aidans trading post: Jewels Victoria Finlay, 2007-08-14 Throughout history, precious stones have inspired passions and poetry, quests and curses, sacred writings and unsacred actions. In this scintillating book, journalist Victoria Finlay embarks on her own globe-circling search for the real stories behind some of the gems we prize most. Blending adventure travel, geology, exciting new research, and her own irresistible charm, Finlay has fashioned a treasure hunt for some of the most valuable, glamorous, and mysterious substances on earth. With the same intense curiosity and narrative flair she displayed in her widely-praised book *Color*, Finlay journeys from the underground opal churches of outback Australia to the once pearl-rich rivers of Scotland; from the peridot mines on an Apache reservation in Arizona to the remote ruby mines in the mountains of northern Burma. She risks confronting scorpions to crawl through Cleopatra's long-deserted emerald mines, tries her hand at gem cutting in the dusty Sri Lankan city where Marco Polo bartered for sapphires, and investigates a rumor that fifty years ago most of the world's amber was mined by prisoners in a Soviet gulag. *Jewels* is a unique and often exhilarating voyage through history, across cultures, deep into the earth's mantle, and up to the glittering heights of fame, power, and wealth. From the fabled curse of the Hope Diamond, to the disturbing truths about how pearls are cultured, to the peasants who were once executed for carrying amber to the centuries-old quest by magicians and scientists to make a perfect diamond, *Jewels* tells dazzling stories with a wonderment and brilliance truly worthy

of its subjects.

aidans trading post: Tudor and Stuart Consorts Aidan Norrie, Carolyn Harris, J. L. Laynesmith, Danna R. Messer, Elena Woodacre, 2022-07-20 This book examines the lives and tenures of all the consorts of the Tudor and Stuart monarchs of England between 1485 and 1714, as well as the wives of the two Lords Protector during the Commonwealth. The figures in Tudor and Stuart Consorts are both incredibly familiar—especially the six wives of Henry VIII—and exceedingly unfamiliar, such as George of Denmark, the husband of Queen Anne. These innovative and authoritative biographies recognise the important role consorts played in a period before constitutional monarchy: in addition to correcting popular assumptions that are based on limited historical evidence, the chapters provide a fuller picture of the role of consort that goes beyond discussions of exceptionalism and subversion. This volume and its companions reveal the changing nature of English consortship from the Norman Conquest to today.
