ainsi bas la vida language: Stone Dreams Akram Aylisli, 2022-08-16 Amid ethnic violence, political corruption, and petty professional intrigue, an artist tries to live free of lies. Set during the last years of the Soviet Union, Stone Dreams tells the story of Azerbaijani actor Sadai Sadygly, who lands in a Baku hospital while trying to protect an elderly Armenian man from a gang of young Azerbaijanis. Something of a modern-day Don Quixote, Sadai has long battled the hatred and corruption he observes in contemporary Azerbaijani society. Wandering in and out of consciousness, he revisits his hometown, the ancient village of Aylis, where Christian Armenians and Muslim Azeris once lived peacefully together, and dreams of making a pilgrimage of atonement to Armenia. Stone Dreams is a searing, painful meditation on the ability of art and artists—of individual human beings—to make change in the world.

ainsi bas la vida language: Bourdieu's Secret Admirer in the Caucasus Georgi M. Derluguian, 2005-07-15 Bourdieu's Secret Admirer in the Caucasus is a gripping account of the developmental dynamics involved in the collapse of Soviet socialism. Fusing a narrative of human agency to his critical discussion of structural forces, Georgi M. Derluguian reconstructs from firsthand accounts the life story of Musa Shanib—who from a small town in the Caucasus grew to be a prominent leader in the Chechen revolution. In his examination of Shanib and his keen interest in the sociology of Pierre Bourdieu, Derluguian discerns how and why this dissident intellectual became a nationalist warlord. Exploring globalization, democratization, ethnic identity, and international terrorism, Derluguian contextualizes Shanib's personal trajectory from de-Stalinization through the nationalist rebellions of the 1990s, to the recent rise in Islamic militancy. He masterfully reveals not only how external economic and political forces affect the former Soviet republics but how those forces are in turn shaped by the individuals, institutions, ethnicities, and social networks that make up those societies. Drawing on the work of Charles Tilly, Immanuel Wallerstein, and, of course, Bourdieu, Derluguian's explanation of the recent ethnic wars and terrorist acts in Russia succeeds in illuminating the role of human agency in shaping history.

ainsi bas la vida language: *Ethics and Aesthetics of Translation* Harriet Hulme, 2018-11-19
Ethics and Aesthetics of Translation engages with translation, in both theory and practice, as part of an interrogation of ethical as well as political thought in the work of three bilingual European authors: Bernardo Atxaga, Milan Kundera and Jorge Semprún. In approaching the work of these authors, the book draws upon the approaches to translation offered by Benjamin, Derrida, Ricœur and Deleuze to highlight a broad set of ethical questions, focused upon the limitations of the monolingual and the democratic possibilities of linguistic plurality; upon our innate desire to translate difference into similarity; and upon the ways in which translation responds to the challenges of individual and collective remembrance. Each chapter explores these interlingual but also intercultural, interrelational and interdisciplinary issues, mapping a journey of translation that begins in the impact of translation upon the work of each author, continues into moments of linguistic translation, untranslatability and mistranslation within their texts and ultimately becomes an exploration of social, political and affective (un)translatability. In these journeys, the creative and critical potential of translation emerges as a potent, often violent, but always illuminating, vision of the possibilities of differentiation and connection, generation and memory, in temporal, linguistic, cultural and political terms.

ainsi bas la vida language: Elements of Structural Syntax Lucien Tesnière, 2015-02-11 This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was advocating. ainsi bas la vida language: Infidel Ayaan Hirsi Ali, 2008-04 In this profoundly affecting memoir from the internationally renowned author of *The Caged Virgin*, Ayaan Hirsi Ali tells her astonishing life story, from her traditional Muslim childhood in Somalia, Saudi Arabia, and Kenya, to her intellectual awakening and activism in the Netherlands, and her current life under armed guard in the West. One of today's most admired and controversial political figures, Ayaan Hirsi Ali burst into international headlines following an Islamist's murder of her colleague, Theo van Gogh, with whom she made the movie *Submission*. *Infidel* is the eagerly awaited story of the coming of age of this elegant, distinguished -- and sometimes reviled -- political superstar and champion of free speech. With a gimlet eye and measured, often ironic, voice, Hirsi Ali recounts the evolution of her beliefs, her ironclad will, and her extraordinary resolve to fight injustice done in the name of religion. Raised in a strict Muslim family and extended clan, Hirsi Ali survived civil war, female mutilation, brutal beatings, adolescence as a devout believer during the rise of the Muslim Brotherhood, and life in four troubled, unstable countries largely ruled by despots. In her early twenties, she escaped from a forced marriage and sought asylum in the Netherlands, where she earned a college degree in political science, tried to help her tragically depressed sister adjust to the West, and fought for the rights of Muslim immigrant women and the reform of Islam as a member of Parliament. Even though she is under constant threat -- demonized by reactionary Islamists and politicians, disowned by her father, and expelled from her family and clan -- she refuses to be silenced. Ultimately a celebration of triumph over adversity, Hirsi Ali's story tells how a bright little girl evolved out of dutiful obedience to become an outspoken, pioneering freedom fighter. As Western governments struggle to balance democratic ideals with religious pressures, no story could be timelier or more significant.

In his novel *The Oldest Orphan*, that is precisely what Monänembo does, to devastating effect. Powerful testimony to an unspeakable historical reality, this story is told by an adolescent on death row in a prison in Kigali, the capital of Rwanda. Dispassionately, almost cynically, the teenager Faustin tells his tale, alternating between his days in jail, his adventures wandering the countryside after his parents and most of the people of his village have been massacred, and his escapades as a cheerful hoodlum in the streets of Kigali. Only slowly does the full horror of his parents' death and his own experience return to Faustin. His realization strikes the reader with shattering force, for it carries in its wake the impossible but inescapable questions presented by such a murderous episode of history and such a crippling experience for a child, a people, and a nation.

ainsi bas la vida language: Returning to Reims Didier Eribon, 2019-04-04 There was a question that had come to trouble me a bit earlier, once I had taken the first steps on this return

journey to Reims... Why, when I have had such an intense experience of forms of shame related to class, shame in relation to the milieu in which I grew up, why, when once I had arrived in Paris and started meeting people from such different class backgrounds, I would often find myself lying about my class origins... why had it never occurred to me to take up this problem in a book? Returning to Reims is a breathtaking account of one man's return to the town where he grew up after an absence of thirty years. It is a frank, fearlessly personal story of family, memory, identity and time lost. But it is also a sociologist's view of what it means to grow up working class and then leave that class; of inequality and shifting political allegiances in an increasingly divided nation. A phenomenon in France and a huge bestseller in Germany, Didier Eribon has written the defining memoir of our times.
