The Mergers & Acquisitions Review, edited by Mark Zerdin of Slaughter and May, seeks to provide a richer understanding of the shape of M&A in the global markets, together with the challenges and opportunities facing market participants. This comes at a time when the international market has seen a boom in dealmaking, with many markets reaching post-crisis peaks and some recording all-time highs. Mega-deals have been at the heart of the expanding market, with companies tapping into cash piles and cheap debt to fund transformational deals. Looking behind the headline figures, however, a number of factors suggest dealmaking may not continue to grow as rapidly as it has done recently. This book examines this topic and more across over 55 jurisdictions, as well as providing more general interest chapters covering the European Union, European Private Equity, M&A Litigation, and Offshore Private Equity. Contributors include: Didier Marti, Bredin Prat; Heinrich Knepper, Hengeler Mueller; Javier Ruiz-Camara Bayo, Uria Menendez.

ainsworth game technology stock: *Tales from the Slot Floor, Volume 1: Casino Slot Managers in Their Own Words* David G. Schwartz, 2018-06-22 Slot machines are the backbone of most casinos. They earn the most money and determine the physical layout of the casino floor. The management of slot machines, which includes overseeing employees, selecting machines, designing the playing space, resolving customer disputes, and conducting analyses to improve operations, is a challenging field whose complexity has grown as the machines themselves have become more sophisticated. To better document the current issues in slot management--and the change the field has seen over the past four decades--the University of Nevada, Las Vegas Center for Gaming Research conducted an oral history project. Those interviewed were at all stages of their careers. Drawn from these interviews, *Tales from the Slot Floor* features slot managers discussing several of the most important issues in today's casino world, including: the optimal layout of a slot floor; the qualities demonstrated by both good and bad managers; what customers want from their visits to the casino; the vendor/casino relationship; appealing to millennials; and what the future holds. In addition, those with long careers share their views on the changes they have seen, and all subjects offer their advice to those embarking on a career in slot management. For those interested in becoming slot managers, or those just curious about how casinos work, *Tales from the Slot Floor* gives you the inside story of slot operations, from those who do it.

ainsworth game technology stock: Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled *Historical Painting Techniques, Materials, and Studio Practice* at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.
