aiu financial aid number: *Globalization and Its Discontents* Joseph E. Stiglitz, 2003-04-17 This powerful, unsettling book gives us a rare glimpse behind the closed doors of global financial institutions by the winner of the 2001 Nobel Prize in Economics. When it was first published, this national bestseller quickly became a touchstone in the globalization debate. Renowned economist and Nobel Prize winner Joseph E. Stiglitz had a ringside seat for most of the major economic events of the last decade, including stints as chairman of the Council of Economic Advisers and chief economist at the World Bank. Particularly concerned with the plight of the developing nations, he became increasingly disillusioned as he saw the International Monetary Fund and other major institutions put the interests of Wall Street and the financial community ahead of the poorer nations. Those seeking to understand why globalization has engendered the hostility of protesters in Seattle and Genoa will find the reasons here. While this book includes no simple formula on how to make globalization work, Stiglitz provides a reform agenda that will provoke debate for years to come. Rarely do we get such an insider's analysis of the major institutions of globalization as in this penetrating book. With a new foreword for this paperback edition.

aiu financial aid number: Educational Oases in the Desert Jonathan Sciarcon, 2017-01-01 A history of the French schools that pioneered female education in Ottoman Iraq's Jewish communities. During the late nineteenth and early twentieth centuries, the Alliance Israélite Universelle (AIU), a Paris-based Jewish organization, founded dozens of primary schools throughout the Middle East. Many were the first formal educational institutions for local Jewish children. In addition to providing secular education, the schools attempted to change local customs and [regenerate] or [uplift] communities. *Educational Oases in the Desert* explores the largely forgotten history of the AIU's schools for girls in Ottoman Iraq. Drawing on extensive archival research, Jonathan Sciarcon argues that teachers viewed female education through a gendered lens linked to their understanding of an ideal modern society. As the primary educators of children, women were seen as society's key agents of socialization. The AIU thus concluded that its boys' schools would never succeed in creating polished, westernized men so long as women remained uneducated, leading to the creation of schools for girls. Sciarcon shows how headmistresses acted not just as educators but also as models of modernity, trying to impart new moral and aesthetic norms onto students.

aiu financial aid number: *Dark Ecology* Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

aiu financial aid number: *North African Jewry in the Twentieth Century* Michael M. Laskier, 1997-06-01 Before widescale emigration in the early 1960s, North Africa's Jewish communities were among the largest in the world. Without Jewish emigrants from North Africa, Israel's dynamic growth would simply not have occurred. North African Jews, also called Maghribi, strengthened the new Israeli state through their settlements, often becoming the victims of Arab-Israeli conflicts and terrorist attacks. Their contribution and struggles are, in many ways, akin to the challenges

emigrants from the former Soviet Union are currently encountering in Israel. Today, these North African Jewish communities are a vital force in Israeli society and politics as well as in France and Quebec. In the first major political history of North African Jewry, Michael Laskier paints a compelling picture of three Third World Jewish communities, tracing their exposure to modernization and their relations with the Muslims and the European settlers. Perhaps the most extraordinary feature of this volume is its astonishing array of primary sources. Laskier draws on a wide range of archives in Israel, Europe, and the United States and on personal interviews with former community leaders, Maghribi Zionists, and Jewish outsiders who lived and worked among North Africa's Jews to recreate the experiences and development of these communities. Among the subjects covered: --Jewish conditions before and during colonial penetration by the French and Spanish; --anti-Semitism in North Africa, as promoted both by European settlers and Maghribi nationalists; --the precarious position of Jews amidst the struggle between colonized Muslims and European colonialists; --the impact of pogroms in the 1930s and 1940s and the Vichy/Nazi menace; --internal Jewish communal struggles due to the conflict between the proponents of integration, and of emigration to other lands, and, later, the communal self-liquidation process;—the role of clandestine organizations, such as the Mossad, in organizing for self-defense and illegal immigration;—and, more generally, the history of the North African `aliya and Zionist activity from the beginning of the twentieth century onward. A unique and unprecedented study, Michael Laskier's work will stand as the definitive account of North African Jewry for some time.

aiu financial aid number: Arabic and its Alternatives , 2020-03-02 Arabic and its Alternatives discusses the complicated relationships between language, religion and communal identities in the Middle East in the period following the First World War. This volume takes its starting point in the non-Arabic and non-Muslim communities, tracing their linguistic and literary practices as part of a number of interlinked processes, including that of religious modernization, of new types of communal identity politics and of socio-political engagement with the emerging nation states and their accompanying nationalisms. These twentieth-century developments are firmly rooted in literary and linguistic practices of the Ottoman period, but take new turns under influence of colonization

and decolonization, showing the versatility and resilience as much as the vulnerability of these linguistic and religious minorities in the region. Contributors are Tijmen C. Baarda, Leyla Dakhli, Sasha R. Goldstein-Sabbah, Liora R. Halperin, Robert Isaf, Michiel Leezenberg, Merav Mack, Heleen Murre-van den Berg, Konstantinos Papastathis, Franck Salameh, Cyrus Schayegh, Emmanuel Szurek, Peter Wien.

aiu financial aid number: Jews in Nineteenth-Century Egypt Jacob M. Landau, 2016-04-14
Although nineteenth-century Egyptian Jewry was an active and creative part of society, this work from 1969 is the main comprehensive work devoted to an analysis and appraisal of its activities. The period under review commences with the fall of the Mamluk regime in Egypt, and the incipient modernization of the state, with the resulting increase in Jewish activity. It terminates with the end of World War I and the new era in the history of modern Egypt, an era of extreme nationalism that led to the undermining of the Jewish community.
