Key Changes in Alabama K-1 Instructions 2021:

The 2021 tax year brought several noteworthy adjustments to the Alabama K-1 instructions. These included:

Modified Reporting Requirements for Pass-Through Entities: The Alabama Department of Revenue implemented subtle yet significant modifications to the reporting requirements for pass-through entities (PTEs), particularly regarding the allocation of certain deductions and credits. This required a more nuanced approach to accurately reflecting the PTE's income and deductions on the individual K-1s issued to partners and shareholders.

Clarifications on Qualified Business Income (QBI) Deduction: The 2017 Tax Cuts and Jobs Act introduced the QBI deduction, which significantly affected pass-through entities. The Alabama K-1 instructions 2021 offered further clarifications on how to properly report and claim this deduction, addressing some ambiguities from prior years. This was crucial for many small businesses in Alabama who benefited from this deduction.

Updated Instructions on State and Local Taxes (SALT): The 2017 tax law also imposed limitations on the deductibility of state and local taxes. The Alabama K-1 instructions 2021 incorporated these changes, requiring meticulous tracking and reporting of state and local taxes paid by the PTE to ensure compliance.

The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.
