alan spaulding guiding light: *Interpersonal Relationships in Education: From Theory to Practice* David Zandvliet, Perry den Brok, Tim Mainhard, 2014-08-07 This book brings together recent research on interpersonal relationships in education from a variety of perspectives including research from Europe, North America and Australia. The work clearly demonstrates that positive teacher-student relationships can contribute to student learning in classrooms of various types. Productive learning environments are characterized by supportive and warm interactions throughout the class: teacher-student and student-student. Similarly, at the school level, teacher learning thrives when there are positive and mentoring interrelationships among professional colleagues. Work on this book began with a series of formative presentations at the second International Conference on Interpersonal Relationships in Education (ICIRE 2012) held in Vancouver, Canada, an event that included among others, keynote addresses by David Berliner, Andrew Martin and Mieke Brekelmans. Further collaboration and peer review by the editorial team resulted in the collection of original research that this book comprises. The volume (while eclectic) demonstrates how constructive learning environment relationships can be developed and sustained in a variety of settings. Chapter contributions come from a range of fields including educational and social psychology, teacher and school effectiveness research, communication and language studies, and a variety of related fields. Together, they cover the important influence of the relationships of teachers with individual students, relationships among peers, and the relationships between teachers and their professional colleagues.

alan spaulding guiding light: *I'm Just Sayin'!* Kim Zimmer, Laura Morton, 2011-08-02 As the notorious Reva Shayne on the daytime television drama Guiding Light, Kim Zimmer portrayed a vixen, a manic-depressive, an Amish woman, a time traveler, a Civil War belle, a talk show host, a cancer survivor, a loving mother, and a devoted wife. In her more than two decades on the show, she earned eleven Daytime Emmy nominations and four wins, not to mention a legion of loving fans. Now, in this heartfelt memoir, Zimmer delves into her experiences as a daytime diva. Packed with on- and off-set photographs and behind-the-scenes information, blatantly honest and wildly indiscreet, *I'm Just Sayin'* tells all in an insightful journey through the parallel lives of Reva Shayne and Kim Zimmer—and the true stories behind the longest-running drama in television and radio history.

alan spaulding guiding light: *The Grateful Dead Reader* David Dodd, Diana Spaulding, 2000-08-24 Arranged in chronological order, these pieces add up to nothing less than a full-scale history of the greatest tour band in the history of rock. From Tom Wolfe's account of the Dead's first performance as the Grateful Dead (at an Acid Test in 1965), to Ralph Gleason's 1967 interview with the 24-year-old Jerry Garcia, to Mary Eisenhart's obituary of the beloved leader of the band, these selections include not only outstanding writing on the band itself, but also superb pieces on music and pop culture generally. Fans will be fascinated by the poetry, fiction, drawings, and rare and revealing photographs featured in the book, as well as the anthology's many interviews and profiles, interpretations of lyrics, and concert and record reviews. Still, The Grateful Dead was more than a

band--it was a cultural phenomenon. For three decades it remained on one unending tour, followed everywhere by a small army of nomadic fans. This phenomenon is both analyzed and celebrated here, in such pieces as Ed McClanahan's groundbreaking article in *Playboy* in 1972, fan-magazine editor Blair Jackson's 1990 essay on the seriousness of the drug situation at Dead concerts, and Steve Silberman's insightful essays on the music and its fans.

alan spaulding guiding light: *Approaches to Class Analysis* Erik Olin Wright, 2005-07-01 Few themes have been as central to sociology as 'class' and yet class remains a perpetually contested idea. Sociologists disagree not only on how best to define the concept of class but on its general role in social theory and indeed on its continued relevance to the sociological analysis of contemporary society. Some people believe that classes have largely dissolved in contemporary societies; others believe class remains one of the fundamental forms of social inequality and social power. Some see class as a narrow economic phenomenon whilst others adopt an expansive conception that includes cultural dimensions as well as economic conditions. This 2005 book explores the theoretical foundations of six major perspectives of class with each chapter written by an expert in the field. It concludes with a conceptual map of these alternative approaches by posing the question: 'If class is the answer, what is the question?'

alan spaulding guiding light: *Crime, Shame and Reintegration* John Braithwaite, 1989-03-23 *Crime, Shame and Reintegration* is a contribution to general criminological theory. Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime. Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be an extraordinarily powerful, efficient and just form of social control. Braithwaite identifies the social conditions for such successful shaming. If his theory is right, radically different criminal justice policies are needed - a shift away from punitive social control toward greater emphasis on moralizing social control. This book will be of interest not only to criminologists and sociologists, but to those in law, public administration and politics who are concerned with social policy and social issues.

alan spaulding guiding light: *Cornerstones of Attachment Research* Robbie Duschinsky, 2020 This is an open access title available under the terms of a [CC BY-NC-ND 4.0 International] licence. It is free to read at Oxford Clinical Psychology Online and offered as a free PDF download from OUP and selected open access locations. Attachment theory is among the most popular theories of human socioemotional development, with a global research community and widespread interest from clinicians, child welfare professionals, educationalists and parents. It has been considered one of the most generative contemporary ideas about family life in modern society. It is one of the last of the grand theories of human development that still retains an active research tradition. Attachment theory and research speak to fundamental questions about human emotions, relationships and development. They do so in terms that feel experience-near, with a remarkable combination of intuitive ideas and counter-intuitive assessments and conclusions. Over time, attachment theory seems to have become more, rather than less, appealing and popular, in part perhaps due to alignment with current concern with the lifetime implications of early brain development. Cornerstones of Attachment Research re-examines the work of key laboratories that have contributed to the study of attachment. In doing so, the book traces the development in a single scientific paradigm through parallel but separate lines of inquiry. Chapters address the work of Bowlby, Ainsworth, Main and Hesse, Sroufe and Egeland, and Shaver and Mikulincer. Cornerstones of Attachment Research utilises attention to these five research groups as a lens on wider themes and challenges faced by attachment research over the decades. The chapters draw on a complete analysis of published scholarly and popular works by each research group, as well as much unpublished material.

alan spaulding guiding light: Proxies Dylan Mulvin, 2021-08-17 How those with the power to design technology, in the very moment of design, are allowed to imagine who is included--and who is excluded--in the future. Our world is built on an array of standards we are compelled to share. In Proxies, Dylan Mulvin examines how we arrive at those standards, asking, To whom and to what do we delegate the power to stand in for the world? Mulvin shows how those with the power to design technology, in the very moment of design, are allowed to imagine who is included--and who is excluded--in the future. For designers of technology, some bits of the world end up standing in for other bits, standards with which they build and calibrate. These proxies carry specific values, even as they disappear from view. Mulvin explores the ways technologies, standards, and infrastructures inescapably reflect the cultural milieus of their bureaucratic homes. Drawing on archival research, he investigates some of the basic building-blocks of our shared infrastructures. He tells the history of technology through the labor and communal practices of, among others, the people who clean kilograms to make the metric system run, the women who pose as test images, and the actors who embody disease and disability for medical students. Each case maps the ways standards and infrastructure rely on prototypical ideas of whiteness, able-bodiedness, and purity to control and contain the messiness of reality. Standards and infrastructures, Mulvin argues, shape and distort the possibilities of representation, the meaning of difference, and the levers of change and social justice.

alan spaulding guiding light: Guiding Light: Jonathan's Story Julia London, 2007-09-18 From New York Times bestselling author Julia London comes the passionate, suspenseful novel based on Guiding Light, the 2007 Emmy Award-winning daytime drama. When his true love Tammy Winslow died saving his life, Jonathan Randall had only one reason left for existing: his baby daughter Sarah. But Sarah's great-grandfather, powerful millionaire Alan Spaulding, was obsessed with bringing her up himself. Faking his death, Jonathan fled Springfield, leaving only his mother Reva Shayne aware he and Sarah were still alive. After being on the run for months, Jonathan comes to the sleepy town of Tourmaline, California, with no intention of staying. But ten-month-old Sarah

seems strangely happy here, and Jonathan himself feels an inexplicable pull toward the town. It's almost as if Tammy's ghost were whispering to him that he should stay for a while. But life is hard for a bad boy trying to turn good, until a local young woman comes into his life. Aubrey Cross isn't quite sure what attracts her to this stranger in Tourmaline. Perhaps it's his dark good looks; perhaps it's because she too has always felt as if she doesn't belong in Tourmaline, even though her father is the popular town sheriff. Aubrey alone knows that this pillar of the community is in reality a sadistic abuser. And, of course, with a past like Jonathan's, it's no surprise that life doesn't stay peaceful in Tourmaline for long. Sheriff Zeke Cross is sure there are some secrets buried, and he's not going to rest until he uncovers them. Can Reva protect Jonathan and Sarah before they're discovered by the dangerous Alan Spaulding? Featuring some of Guiding Light's favorite characters, Jonathan's Story is the passionate tale of how Jonathan may have finally found a second chance for true love...but who knows better than Jonathan how quickly everything you love can be ripped away from you?

alan spaulding guiding light: *The Formations of Modernity* Bram Gieben, Stuart Hall, 1993-01-04 *Formations of Modernity* is a major introductory textbook offering an account of the important historical processes, institutions and ideas that have shaped the development of modern societies. This challenging and innovative book 'maps' the evolution of those distinctive forms of political, economic, social and cultural life which characterize modern societies, from their origins in early modern Europe to the nineteenth century. It examines the roots of modern knowledge and the birth of the social sciences in the Enlightenment, and analyses the impact on the emerging identity of 'the West' of its encounters through exploration, trade, conquest and colonization, with 'other civilizations'. Designed as an introduction to modern societies and modern sociological analyses, this book is of value to students on a wide variety of social science courses in universities and colleges and also to readers with no prior knowledge of sociology. Selected readings from a broad range of classical writers (Weber, Durkheim, Marx, Freud, Adam Smith, Montesquieu, Hobbes, Locke, Rousseau) and contemporary thinkers (Michael Mann, E.P. Thompson, Edward Said) are integrated in each chapter, together with student questions and exercises.
