alchemy leveling guide wotlk: The Goblin's Secrets Goblin Sachs, 2019-08-18 In order to succeed in World of Warcraft Classic, you will need a lot of gold. In addition to the thousands of gold you will spend on your spells, mounts, gear, enchantments, and respects, you will also need to consistently purchase large quantities of consumables and utility items to stay competitive in serious raiding/PvP. Without enough gold, you will always be outclassed by players who do have enough. However, accumulating gold is very difficult in World of Warcraft. By the time The Burning Crusade was about to launch, World of Warcraft (WoW) had 8 million active subscribers with likely millions more accounts that were created but stopped subscribing at some point. Out of the millions of players who played the game, there was not a single recorded instance of someone hitting the gold cap (~215,000 gold) on one character. This means it is more common for someone to be a billionaire in America (about 1 out of 600,000) than it is for someone to have 215,000 gold. This is why I have compiled the most comprehensive, optimal, and practical guide on gold making in World of Warcraft Classic. I played the original WoW through Wrath of the Lich King with a Hunter main and Druid alt and have played on 3 different vanilla WoW private servers where I have over 25 level 60 characters and amassed hundreds of thousands of gold among them. My love of the game evolved past raiding and PvPing and I became consumed by the economic PvP (competing against other goblins to earn more gold). With WoW Classic's release, I am happy to finally share everything I have learned about making gold. This book will cover the most optimal and practical strategies for gold making while discarding the less optimal ones that are often repeated in popular guides. This book will also include resources such as a full list of level appropriate mobs to grind while leveling, a full list of the most lucrative twink items in the level 19 and 29 brackets, a full list of the most lucrative BoE limited supply vendors to camp, a step by step action plan for the launch of Classic WoW and much much more.

alchemy leveling guide wotlk: Untimed Andy Gavin, 2013-01-01 Charlie's the kind of boy that no one notices. Hell, his own mother can't remember his name. So when a mysterious clockwork man tries to kill him in modern day Philadelphia, and they tumble through a hole into 1725 London, Charlie realizes even the laws of time don't take him seriously. Still, this isn't all bad. Who needs school when you can learn about history first hand, like from Ben Franklin himself. And there's this girl... Yvaine... another time traveler. All good. Except for the rules: boys only travel into the past and girls only into the future. And the baggage: Yvaine's got a baby boy and more than her share of ex-boyfriends. Still, even if they screw up history - like accidentally let the founding father be killed - they can just time travel and fix it, right? But the future they return to is nothing like Charlie remembers. To set things right, he and his scrappy new girlfriend will have to race across the centuries, battling murderous machines from the future, jealous lovers, reluctant parents, and time itself.
