In Agustini it is not unusual to see your grandmother float above the bed when she sleeps, or to purchase torrential rains at a traveling fair, or to watch your family’s elderly serving woman develop stigmata, then disappear completely, to be canonized as a local saint. But as Delmira becomes a woman, she will set out on a search for her missing father, and must make a choice that could mean leaving her home forever, in a tale filled with both depth and delightful mystery that poses questions about just how real the real world is. “To flee Agustini is to leave not just a town but the viscerally primal dreamscape it represents.”— The New York Times Book Review “Vibrant...Each chapter is an adventure.”—The Boston Globe “We happily share with [Delmira] her life, including the infinitely charming town she inhabits [and] her grandmother’s fantastic imagination.”—The Washington Post Book World

Olivia and Mia Flores are married to the highest level drug traffickers ever to become US informants. They had everything money could buy: luxury cars, huge houses, and expensive jewelry--but they chose to give it all up when they cooperated with the US government. They knew that life was about more than wealth; it was about love, family, and doing what's right. *Cartel Wives* is a love story, a Married to the Mob story, an insider's look into the terrifying but high-flying empire of the new world of drugs, and, finally, the story of a major DEA and FBI operation.

**alejandra castaneda hijos historia:** *They're Cows, We're Pigs* Carmen Boullosa, 2007-12-01 A dark, thought-provoking adventure that “artfully evokes the blood-soaked reality of 17th-century pirates” (Entertainment Weekly). This “wryly humorous, satiric, and often macabre novel” (Library Journal) follows Jean Smeeks, a Flemish thirteen-year-old who signs up as an indentured servant with the French West Indies Company, but instead winds up a slave on the notorious island of Tortuga. Over time, he learns the arts of herbal medicine and surgery—a skill that allows him to join a band of Caribbean pirates. Contrasting Jean’s romantic pull toward the “Brethren of the Coast”—an all-male society pursuing socialist, anti-colonialist ideals—with the brutal reality of their lawless existence, *They’re Cows, We’re Pigs* is a “unique and memorable” novel whose “pirate world leaves you as a good book should: thinking” (The Boston Herald).

**alejandra castaneda hijos historia:** *The Book of Anna* Carmen Boullosa, 2020-04-14 Russia, 1905. Behind the gates of the Karenin Palace, Sergei, son of Anna Karenina, meets Tolstoy in his dreams and finds reminders of his mother everywhere: the almost-living portrait that the Tsar intends to acquire and the opium-infused manuscripts she wrote just before her death, one of which opens a trapdoor to a wild feminist fairytale. Across the city, Clementine, an anarchist seamstress, and Father Gapón, the charismatic leader of the proletariat, tip the country ever closer to revolution.

Boullosa lifts the voices of coachmen, sailors, maids, and seamstresses in this playful, polyphonic, and subversive revision of the Russian revolution, told through the lens of Tolstoy's most beloved work.

**alejandra castaneda hijos historia:** Let's Talk About Your Wall Carmen Boullosa, Alberto Quintero, 2020-10-13 Major writers from Mexico weigh in on U.S. immigration policy, from harrowing migrant journeys to immigrant detention to the life beyond the wall Despite the extensive coverage in the U.S. media of the southern border and Donald Trump's proposed wall, most English speakers have had little access to the multitude of perspectives from Mexico on the ongoing crisis. Celebrated novelist Carmen Boullosa (author of *Texas and Before*) and Alberto Quintero redress this imbalance with this collection of essays—translated into English for the first time—drawing on writing by journalists, novelists, and documentary-makers who are Mexican or based in Mexico. Contributors include the award-winning author Valeria Luiselli, whose *Tell Me How It Ends* is the go-to book on the child migrant crisis, and the novelist Yuri Herrera, author of the highly acclaimed *Signs Preceding the End of the World*. *Let's Talk About Your Wall* uses Trump's wall as a starting point to discuss important questions, including the history of U.S.-Mexican relations, and questions of sovereignty, citizenship, and borders. An essential resource for anyone seeking to form a well-grounded opinion on one of the central issues of our day, *Let's Talk About Your Wall* provides a fierce and compelling counterpoint to the racist bigotry and irrational fear that consumes the debate over immigration, and a powerful symbol of opposition to exclusion and hate.

**alejandra castaneda hijos historia:** Mujer, fotografía e historia Niedermaier, Alejandra, 2024-11-01 Desde su aparición, la fotografía asiste a los procesos históricos por ser una forma de conocimiento y a su vez una categoría de pensamiento que construye y atraviesa el imaginario de una persona, de una sociedad y, en este caso, también de un género. Es así como este libro conforma una especie de palimpsesto de múltiples capas interconectadas, en el que cada elemento aporta un panorama global y un estudio de cómo la fotografía acompañó los procesos de constitución de las naciones latinoamericanas y, al mismo tiempo, cómo fue la amplia y activa participación de la mujer en esa construcción. El término historia comprende los hechos acontecidos pero también su narración. La intención es, por tanto, restituir a las mujeres en la historia del medio, reconocer su participación en la historia política y económica de los países reseñados y dar a conocer sus semblanzas. Cabe destacar las similitudes que se hallaron, en parte por los usos y costumbres que se perfilaron en el empleo del dispositivo fotográfico, pero también porque conformaron biografías tanto individuales, locales y nacionales como latinoamericanas.

**alejandra castaneda hijos historia:** Cleopatra Dismounts Carmen Boullosa, 2007-12-01 An enchanting, audacious retelling of the Cleopatra story from a Mexican novelist who is “a luminous writer” and “a masterful spinner of the fantastic” (*The Miami Herald*). In *Cleopatra Dismounts*, Carmen Boullosa has written a remarkable imaginary life of one of history's most legendary women. Dying in Marc Antony's arms, Cleopatra bewails the end of her political career throughout ancient Egypt, Greece, and the Mediterranean. But is this weak woman the true Cleopatra? Through the intervention of Cleopatra's scribe and informer Diomedes, Boullosa creates two deliriously wild other lives for the young monarch—a girl escaping the intrigues of royal society to disguise herself and take up residence with a band of pirates; and the young queen who is carried across the sea on the back of a magical bull, to live among the Amazons. Magical, multifaceted, and rippling with luminous imagination, *Cleopatra Dismounts* confirms Carmen Boullosa as an important international voice. “Wildly entertaining.” —*The Washington Post* “A highly appealing and poetic interpretation of the Egyptian queen's doomed fate.” —*San Francisco Chronicle* “The Mexican fabulist Carmen Boullosa reinvents Cleopatra as a character for modern feminism to conjure with.” —*The Boston Globe*

**alejandra castaneda hijos historia:** *Narcoland* Anabel Hernández, 2013-09-10 This “investigative magnum opus” offers a jaw-dropping history of Mexican drug cartels as it transports readers to the frontlines of the ‘war on drugs’ in Latin America (Los Angeles Times). “A riveting story . . . [from] an incredibly brave journalist.” —NPR The “war on drugs” has so far cost more than 60,000 lives. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names not just the narcos, but also the politicians, functionaries, judges, and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico’s government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. The product of 5 years’ investigative reporting—and the subject of intense national controversy—*Narcoland* is a publishing and political sensation in Mexico.

**alejandra castaneda hijos historia:** *Five Hundred Years of Lgbtqia+ History in Western Nicaragua* Victoria González-Rivera, 2024 This groundbreaking book reframes five hundred years of western Nicaraguan history by giving gender and sexuality the attention they deserve. Victoria González-Rivera decenters nationalist narratives of triumphant mestizaje and argues that western Nicaragua's LGBTQIA+ history is a profoundly Indigenous one. In this expansive history, González-Rivera documents connections between Indigeneity, local commerce, and femininity (cis and trans), demonstrating the long history of LGBTQIA+ Nicaraguans. She sheds light on historical events, such as Andres Caballero's 1536 burning at the stake for sodomy. González-Rivera discusses how elite efforts after independence to modernize open-air markets led to increased surveillance of LGBTQIA+ working-class individuals. She also examines the 1960s and the Somoza dictatorship, when another wave of persecution emerged, targeting working-class gay men and trans women, leading to a more stringent anti-sodomy law. The centuries prior to the post-1990 political movement for greater LGBTQIA+ rights demonstrate that, far from being marginal, LGBTQIA+ Nicaraguans have been active in every area of society for hundreds of years.

**alejandra castaneda hijos historia:** *A Narco History* Carmen Boullosa, Mike Wallace, 2016-11 The term Mexican Drug War misleads. It implies that the ongoing bloodbath, which has now killed well over 100,000 people, is an internal Mexican affair. But this diverts attention from the U.S. role in creating and sustaining the carnage. It's not just that Americans buy drugs from, and sell weapons to, Mexico's murderous cartels. It's that ever since the U.S. prohibited the use and sale of drugs in the early 1900s, it has pressured Mexico into acting as its border enforcer—with increasingly deadly consequences. Mexico was not a helpless victim. Powerful forces within the country profited hugely from supplying Americans with what their government forbade them. But the policies that spawned the drug war have proved disastrous for both countries. Written by two award-winning authors, one American and the other Mexican, *A Narco History* reviews the interlocking twentieth-century histories that produced this twenty-first century calamity, and proposes how to end it.

Florencia Soria, Joaquín Sticotti, 2021-09-21 Las dictaduras de la segunda mitad del siglo XX coexistieron con procesos de expansión y consolidación de la televisión. Los Estados autoritarios conjugaron de maneras complejas los objetivos de un orden político basado en principios de jerarquía, tradicionalismo y paternalismo autoritario con un modelo de entretenimiento de masas que tensionaba esos valores. La televisión profundizó procesos de globalización, provocando la coexistencia de la suspensión del Estado de derecho con lógicas liberales del ejercicio de la comunicación, a la vez que resultó una oportunidad para promover una imagen positiva de la situación interna de los países ante una audiencia global. Este y otros problemas nos llevan a preguntarnos: ¿Cuál fue el vínculo de la televisión con los proyectos políticos, sociales, culturales y mediáticos [LO1] impulsados por las experiencias autoritarias de enorme violencia estatal del pasado reciente en el Cono Sur? Y, ya en los períodos posautoritarios, ¿cómo colaboró este medio en la construcción de lo memorable para las sociedades y qué tensiones se generaron en torno a sus rasgos distintivos de inmediatez, facilidad de lectura[LO2] , potencial emotivo y consumo masivo y doméstico? A través de catorce capítulos escritos por veinte investigadores de cuatro países, este libro recorre diferentes problemas en el cruce entre televisión y autoritarismos en perspectiva histórica, así como el rol de esta tecnología como vehículo de construcción de sentidos sobre el pasado.

2004-11-26 Every human being is by right a warrior who has achieved his place in the world in a battle of life and death. Look at it this way, at least once, as sperm, we all fight the bullfight for life - a unique contest against millions of other competitors - and we win! Now the battle continues... A warrior knows that there is no guarantee of triumph over death. Even so, he fights his battle, not because he believes he will win, but because of the emotion of the war itself. For him, to give his war is already a victory. And while he fights he rejoices, because, for those who have already died, every second of life is a gift. I love my children because they are deposits of my energy, my wife because she washes my clothes, she cooks and I catch her, my dog because he takes care of the house, my country because I was born here, my god because he's going to save me.... The sorcerers have discovered the most refined form of love, because they love themselves. They have put the power of passion at the service of being, and it gives them the impetus to undertake the only quest that counts: that of oneself.

**alejandra castaneda hijos historia: Citizenship, Migrant Activism and the Politics of**

**Movement** Peter Nyers, Kim Rygiel, 2012-02-13 Migration is an inescapable issue in the public debates and political agendas of Western countries, with refugees and migrants increasingly viewed through the lens of security. This book analyses recent shifts in governing global mobility from the perspective of the politics of citizenship, utilising an interdisciplinary approach that employs politics, sociology, anthropology, and history. Featuring an international group of leading and emerging researchers working on the intersection of migrant politics and citizenship studies, this book investigates how restrictions on mobility are not only generating new forms of inequality and social exclusion, but also new forms of political activism and citizenship identities. The chapters present and discuss the perspectives, experiences, knowledge and voices of migrants and migrant rights activists in order to better understand the specific strategies, tactics, and knowledge that politicized non-citizen migrant groups produce in their encounters with border controls and security technologies. The book focuses the debate of migration, security, and mobility rights onto grassroots politics and social movements, making an important intervention into the fields of migration studies and critical citizenship studies. Citizenship, Migrant Activism and the Politics of Movement will be of interest to students and scholars of migration and security politics, globalisation and citizenship studies.

**alejandra castaneda hijos historia: Theories of Reading** Karin Littau, 2006-12-04 Why do literary theorists see reading as an act of dispassionate textual analysis and meaning production, when historical evidence shows that readers have often read excessively, obsessively, and for sensory stimulation? Posing these and other questions, this is the first major work to bring insights from book history to bear on literary history and theory. In so doing, the book charts a compelling and innovative history of theories of reading. While literary theorists have greatly contributed to our understanding of the text-reader relation, they have rarely taken into account that the relation between a book and a reader is also a relation between two bodies: one made of paper and ink, the other flesh and blood. This is why, Karin Littau argues, we need to look beyond the words on the page, and pay attention to the technical innovations in the physical format of the book. Only then is it possible to understand more fully how media technology has changed our experience of reading, and why media history presents a challenge to our conceptions of what reading is. Each chapter places the reader in specific disciplinary and historical contexts: literature, criticism, philosophy, cultural history, bibliography, film, new media. Overall, the history recounted in this book points to a split between modern literary study which regards reading as a reducibly mental activity, and a tradition reaching back to antiquity which assumed that reading was not only about sense-making but also about sensation. *Theories of Reading: Books, Bodies and Bibliomania* will be essential reading for all students and scholars of literary theory and history as well as of great interest to students of the history of the book and new media.

**alejandra castaneda hijos historia: Trabajo, lenguaje y acción** Freddy Santamaría Velasco, Andrés Felipe López López, César Augusto Guerra Villa, Angélica María Rodríguez Ortiz, Yebrail Castañeda Lozano, Dora Alejandra Ramírez Vallejo, Rodrigo Varela Olaya, Ángel Rodrigo Vélez Bedoya, 2018-04-01 La filosofía de la acción social, expuesta en el pragmatismo lingüístico, da prioridad al lenguaje, pues sin éste no existirían ni la acción social ni el trabajo. Los hechos sociales son creaciones humanas en el uso del lenguaje. Los hablantes se comprometen con el lenguaje y en su uso se obligan a actuar de determinada manera en las instituciones sociales, puesto que es el elemento que crea, a partir de su uso, el hecho social. Los pactos lingüísticos de la colectividad, al crear, de manera intencional, las instituciones sociales, son los que soportan colectivamente las acciones sociales y la institución del trabajo (...) Lo que se ha considerado como trabajo en la sociedad, no es más que una institución, la que, a su vez, como lo expone Searle (1995) no es más que la creación intencional de la colectividad a través del uso del lenguaje. Cada institución social es creada por la conciencia y la intencionalidad colectiva y expresada en términos del lenguaje. (...) Es decir, el trabajo no es visto como un subsistema cuya característica está dada en torno a las necesidades y la conservación de bienes y servicios, sino como una institución, en la cual los sujetos a través de la sociedad han creado dicho fenómeno con el uso del lenguaje y han definido con el lenguaje las funciones de estatus de manera colectiva. Ni siquiera se podría hablar de sistema de bienes y servicios, si a través del uso del lenguaje no se hubiese creado la institución de la economía y definido colectivamente el papel del ser humano en esta. Los capítulos que integran la obra son una muestra de las líneas de investigación que se han consolidado en la última década en este Instituto, como la historia de las instituciones de educación superior, de las organizaciones religiosas o de las actividades económicas, así como de aquellas que se han delineado recientemente, como la historia de las mujeres y el género, la historia urbana, la historia indígena, de las instituciones de salud mental y el estudio de las formas y lugares desde donde se ha escrito la historia. También son reflejo del trabajo de egresados y egresadas del Programa de Maestría y Doctorado en Historia, quienes han contribuido con sus tesis a la generación de conocimiento a partir de nuevas preguntas, fuentes y metodologías, dejando constancia de la relevancia de los posgrados para dar continuidad a la investigación, en la que se suman esfuerzos individuales, de grupos de investigación e institucionales. Deseamos que esta obra sea de utilidad para todas las personas interesadas en conocer las especialidades y particularidades de esta región fronteriza y sus habitantes, los hallazgos, las conclusiones y las interrogantes que se plantean desde la perspectiva histórica.

**alejandra castaneda hijos historia:** *Entre el bronce y el olvido* María Alejandra Aguilar Dornelles, 2024-06-14 Concibiendo al héroe como el eje central de la imaginación moderna, Entre el bronce y el olvido. Heroísmo y afrodescendencia en Colombia, Brasil y Cuba examina textos producidos por soldados, estadistas, poetas, narradores y periodistas de ascendencia africana que

intervinieron en la imaginación heroica latinoamericana. Este estudio explora cómo la utilización estratégica de un lenguaje heroico significó para estos hombres y mujeres la posibilidad de exhibirse como cuerpos modélicos y de ponerse al frente de un contingente humano que los seguía y, en algunos casos, veneraba. Además de proponer una conceptualización de la imaginación heroica como espacio de conflicto y de reivindicación política, explora los textos de Antonio Maceo, Juan José Nieto y María Firmina dos Reis, entre otros, poniéndolos en diálogo con manifestaciones de la cultura visual y monumental para enfatizar la multiplicidad de imágenes que se superponen a modo de palimpsesto inacabado en torno a figuras de heroicidad racializadas.

**alejandra castaneda hijos historia:** *Bullying in Different Contexts* Claire P. Monks, Iain Coyne, 2011-02-03 Bullying has a tendency to be associated with aggression between children in the playground, but bullying and abuse can also be observed in other social settings. Bullying in Different Contexts brings together, for the first time, leading international researchers to discuss these behaviours in a wide range of settings, including preschool, school, the home, residential care, prisons, the workplace and cyberspace. The authors provide background to the different contexts, discuss the impact and types of interpersonal aggression and the characteristics of those involved. A final chapter collates the findings from each context to draw conclusions on the similarities and differences between the behaviours, risk factors for involvement and theoretical approaches to explain bullying. This original volume will further our understanding of bullying and inform preventative and intervention work. The authors seek to show how research from diverse settings may inform our understanding of the bullying phenomenon as a whole.
