alexis capes board of education: *Our Big Home* Linda Glaser, 2011-08-01 Young children usually think of their home as the structure in which they live. In *Our Big Home*, the author and illustrator present a much larger vision of home as the planet Earth. Linda Glaser's beautiful poem is

a wonderful way to gently lead children toward the all-important understanding of caring for our environment. In her lyrical, child-oriented style, she presents the idea that our big home is shared not only with all people but with all plants and animals as well. She shows that we share the air, the water, the soil, and other elements that affect and sustain all of us who live on Earth. Elisa Kleven's vibrant art enhances the concept as she takes young readers to an African plain, a Caribbean island, a South American mountain, and around the world to see people and animals reveling in the beauty and abundance of our shared home.

Following a lengthy history of Tanna from European contact, the author discusses in detail original creation myths and how Tanna people revived them in response to changes brought by missionaries and foreign governments. alexis capes board of education: The Hard Sell Evan Hughes, 2022-01-18 The inside story of a band of entrepreneurial upstarts who made millions selling painkillers—until their scheme unraveled, putting them at the center of a landmark criminal trial. • SOON TO BE THE MAJOR MOTION PICTURE PAIN HUSTLERS STARRING EMILY BLUNT AND CHRIS EVANS Unfolds with the velocity and verve of a Scorsese film...A tour de force.—Patrick Radden Keefe, New York Times bestselling author of *Empire of Pain* and *Say Nothing* John Kapoor had already amassed a small fortune in pharmaceuticals when he founded Insys Therapeutics. It was the early 2000s, a boom time for painkillers, and he developed a novel formulation of fentanyl, the most potent opioid on the market. Kapoor, a brilliant immigrant scientist with relentless business instincts, was eager to make the most of his innovation. He gathered around him an ambitious group of young lieutenants. His head of sales—an unstable and unmanageable leader, but a genius of persuasion—built a team willing to pull every lever to close a sale, going so far as to recruit an exotic dancer ready to scrape her way up. They zeroed in on the eccentric and suspect doctors receptive to their methods. Employees at headquarters did their part by deceiving insurance companies. The drug was a niche product, approved only for cancer patients in dire condition, but the company's leadership pushed it more widely, and together they turned Insys into a Wall Street sensation. But several insiders reached their breaking point and blew the whistle. They sparked a sprawling investigation that would lead to a dramatic courtroom battle, breaking new ground in the government's fight to hold the drug industry accountable in the spread of addictive opioids. In *The Hard Sell*, National Magazine Award-finalist Evan Hughes lays bare the pharma playbook. He draws on unprecedented access to insiders of the Insys saga, from top executives to foot soldiers, from the patients and staff of far-flung clinics to the Boston investigators who treated the case as a drug-trafficking conspiracy, flipping cooperators and closing in on the key players. With colorful characters and true suspense, *The Hard Sell* offers a bracing look not just at Insys, but at how opioids are sold at the point they first enter the national bloodstream—in the doctor's office.

alexis capes board of education: Video Games Around the World Mark J. P. Wolf,

2015-05-01 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. alexis capes board of education: Assessing Mental Health and Psychosocial Needs and Resources World Health Organization, 2013 Mental health and psychosocial support (MHPSS) is a term used to describe a wide range of actions that address social, psychological and psychiatric problems that are either pre-existing or emergency-induced. These actions are carried out in highly different contexts by organizations and people with different professional backgrounds, in different sectors and with different types of resources. All these different actors--and their donors--need practical assessments leading to recommendations that can be used immediately to improve people's mental health and well-being. Although a range of assessment tools exist, what has been missing is an overall approach that clarifies when to use which tool for what purpose. This document offers an

approach to assessment that should help you review information that is already available and only collect new data that will be of practical use, depending on your capacity and the phase of the humanitarian crisis. This document is rooted in two policy documents, the IASC Reference Group's (2010) Mental Health and Psychosocial Support in Humanitarian Emergencies: What Should Humanitarian Health Actors Know? and the Sphere Handbook's Standard on Mental Health (Sphere Project, 2011). It is written primarily for public health actors. As the social determinants of mental health and psychosocial problems occur across sectors, half of the tools in the accompanying toolkit cover MHPSS assessment issues relevant to other sectors as well as the health sector.
