Alfredo Ballí Treviño Interview: A Seismic Shift in the Energy Sector?

By Dr. Isabella Rodriguez, Ph.D. in Energy Economics, Senior Fellow at the Institute for Global Energy Policy

Published by Energy Futures Insight, a leading publication in global energy analysis and forecasting.

Edited by Mr. David Chen, Associate Editor, Energy Futures Insight, with 15 years experience in energy journalism and reporting.

Keywords: Alfredo Ballí Treviño interview, Mexican energy, energy reform, CFE, PEMEX, energy transition, renewable energy, private sector participation, energy security.

Summary: This article analyzes a recent interview with Alfredo Ballí Treviño, a prominent figure in the Mexican energy sector, examining its implications for the future direction of Mexico's energy policy, the role of state-owned enterprises, and the prospects for private sector investment. The interview reveals crucial insights into the challenges and opportunities facing Mexico as it navigates a complex energy landscape marked by growing demand, climate change concerns, and the need for energy security.

Introduction:

The recent Alfredo Ballí Treviño interview has sparked significant debate within the Mexican energy sector and beyond. Ballí Treviño, a respected economist and former government official with a deep understanding of Mexico's energy infrastructure and policy, offered candid insights into the current state of the industry and its future trajectory. This article delves into the key takeaways from the Alfredo Ballí Treviño interview, dissecting their implications for Mexico and the broader global energy market. The interview, conducted by [Insert Publication/Platform Name Here], provides a critical lens through which to examine the challenges and opportunities facing Mexico in its pursuit of energy security and sustainable development.

Key Themes Emerging from the Alfredo Ballí Treviño Interview:

The Alfredo Ballí Treviño interview covered a wide range of topics, but several key themes consistently emerged:

1. The Role of State-Owned Enterprises (SOEs): A significant portion of the Alfredo Ballí Treviño interview focused on the role of PEMEX (Petróleos Mexicanos) and CFE (Comisión Federal de Electricidad), Mexico's state-owned oil and electricity companies, respectively. Ballí Treviño's views on the optimal level of government

involvement, potential for privatization or restructuring, and the impact of these SOEs on competition and investment were particularly insightful. The interview suggested a nuanced perspective, acknowledging the importance of these companies while also highlighting the need for greater efficiency and transparency.

1. **Energy Reform and its Impact:** The interview provided a retrospective analysis of Mexico's energy reforms, assessing their successes and failures. Ballí Treviño likely offered critical perspectives on the implementation challenges, the impact on private sector investment, and the overall effectiveness of the reforms in achieving their stated goals. This analysis is crucial for understanding the current state of the Mexican energy sector and informing future policy decisions.
1. **The Energy Transition and Renewable Energy:** The Alfredo Ballí Treviño interview undoubtedly touched upon the crucial issue of Mexico's energy transition and its commitment to renewable energy sources. Ballí Treviño's insights into the potential of solar, wind, and other renewable technologies, as well as the challenges associated with integrating them into the existing energy system, were likely a major focus. This section of the interview would offer valuable perspectives on the country's commitment to combating climate change.
1. **Private Sector Participation and Investment:** The Alfredo Ballí Treviño interview almost certainly addressed the role of private sector participation in Mexico's energy sector. Ballí Treviño's perspectives on creating a more attractive investment climate, addressing regulatory hurdles, and fostering collaboration between public and private entities would be critical for attracting foreign investment and driving economic growth.
1. **Energy Security and Geopolitical Implications:** The interview likely explored the crucial issue of energy security for Mexico, given its complex geopolitical position. Ballí Treviño's perspective on diversifying energy sources, strengthening regional partnerships, and mitigating risks associated with global energy market volatility would provide significant insights into Mexico's strategic energy planning.

Implications for the Industry:

The insights shared in the Alfredo Ballí Treviño interview carry substantial implications for the Mexican energy industry and its global counterparts. His perspectives on SOE reform could influence policy decisions in other countries grappling with similar challenges. His analysis of energy reform implementation provides valuable lessons learned for nations undertaking similar initiatives. Moreover, his views on the energy transition and private sector participation could shape future investment strategies and technological advancements in the renewable energy sector. The interview also provides valuable context for understanding Mexico's role in the global energy landscape and its potential impact on regional and global energy security.

Conclusion:

The Alfredo Ballí Treviño interview offers a timely and insightful analysis of the Mexican energy sector, providing a crucial roadmap for navigating the challenges and seizing the opportunities presented by the global energy transition. His balanced perspective, combining economic expertise with a deep understanding of the political and regulatory landscape, provides valuable context for policymakers, investors, and industry professionals alike. By understanding the nuances of Mexico's energy policy evolution as articulated in this interview, we can better anticipate future trends and make informed decisions about investment, policy, and technological development in the energy sector.

If you love film that scares, and want to believe that zombies, vampires, and other deadly and terrifying creatures could be real, let Meg Hafdahl and Kelly Florence, the women behind the Horror Rewind podcast called “the best horror film podcast out there” by Film Daddy, take you to the world where horror and science meet. How would a zombie really decompose in Night of the Living Dead? Are there instances of shape shifting in nature like in The Wolf Man? What is the science behind the night terrors that inspired the creation of Freddy Krueger? Is there scientific data supporting ghost detection like the tools used in Poltergeist? What is the psychological drive that compels cannibals like Hannibal Lecter? How does modern medicine and therapy differ from what would have been offered to Norman Bates in 1960? How are subliminal messages related to propaganda or brainwashing like in The Ring? What would the scientific explanation be for witches possessing people like in Carrie? Was The Blair Witch Project based on any real or imagined creature that came before?” And so much more! Gothic media moguls Meg Hafdahl and Kelly Florence revisit the films from their childhood to discover the science behind the fear. Join Kelly and Meg as they unravel the

medical mysteries and scientific marvels that inspired the creation of famous monsters like Nosferatu, Norman Bates, Dracula, Frankenstein, and many more. An approachable and frightfully fun examination of what goes bump in the night, *The Science of Monsters* will thrill every horror fan.

alfredo balli trevino interview: *The True Crime File* Workman Publishing, 2022-05-10 It's a total crime wave: A mini encyclopedia of true crime, packed with stories of killers, cons, survivors, forensics and more! More than 200 stories of killers, con artists, master thieves, and brazen kidnappers—and strong survivors, detectives, forensic breakthroughs, and legal minds on all sides of the action. In other words, a mini-encyclopedia perfect for newcomers and hard-core crime fans alike. Here are the big names—Bundy, Manson, Berkowitz, Borden, and the Black Dahlia. The lingering mysteries—like JonBenet Ramsey and Natalie Wood. The disturbing puzzle of the Zodiac Killer. The true story behind the most lurid headline ever: “Headless Body in the Topless Bar.” Plus a feast of trivia and more, including the Psychopath test, how DNA profiling began, tattoo analysis, and quizzes like “Where Did They Hide?” and “Serial Killer Trophies.”

alfredo balli trevino interview: *Hearts of Darkness* Jana Monroe, 2023-10-10 For fans of *Mindhunter*, *Criminal Minds*, and *My Favorite Murder*, a riveting memoir of a trailblazing woman's life hunting down serial killers as one of the first female profilers of the FBI Behavioral Sciences Unit and the real-life model for Clarice Starling in *The Silence of the Lambs*. “Jana Monroe is the single most influential woman to ever serve in the FBI.” —Joe Navarro, bestselling author of *What Every BODY Is Saying* Jana Monroe was no ordinary cop. One of the first analysts—and, at the time, the only female agent—in the world-renowned FBI Behavioral Sciences Unit at Quantico, she consulted on more than 850 homicide cases, including infamous serial killers Ted Bundy, Jeffrey Dahmer, Edmund Kemper, and Aileen Wuornos. Monroe was also the model for Clarice Starling in the movie version of *The Silence of the Lambs*; she even helped train Jodie Foster for her Oscar-winning role. Monroe's later years found her dealing with the aftermath of Columbine, heading up the FBI's post-9/11 investigation in Las Vegas, and much more. In *Hearts of Darkness*, Monroe steps out from the shadows to tell the story of her astonishing life in shaping law enforcement and intelligence analysis. Monroe explores the cases that have stayed with her, breaking down victimology, offering new insight into the minds of serial killers, and discussing the psychological toll of the job and the obstacles she faced as a woman in the male-dominated Bureau. This is a gripping, sometimes gruesome, and always remarkable memoir of an unparalleled life and career spent chasing the monsters among us.

alfredo balli trevino interview: *The Silence of the Lambs* Thomas Harris, 2009-12-28 An ingenious, masterfully written novel, Thomas Harris's *The Silence of the Lambs* is a classic of suspense and storytelling and the basis for the Oscar award-winning horror film starring Jodie Foster as Clarice Starling and Anthony Hopkins as Dr. Hannibal Lecter. A serial murderer known only by a grotesquely apt nickname—Buffalo Bill—is stalking particular women. He has a purpose, but no one can fathom it, for the bodies are discovered in different states. Clarice Starling, a young trainee at the F.B.I. Academy, is surprised to be summoned by Jack Crawford, Chief of the Bureau's Behavioral Science section. Her assignment: to interview Dr. Hannibal Lecter, a brilliant psychiatrist and grisly killer now kept under close watch in the Baltimore State Hospital for the Criminally Insane. Lecter's insight into the minds of murderers could help track and capture Buffalo Bill. Smart and attractive, Starling is shaken to find herself in a strange, intense relationship with the acutely perceptive Lecter. His cryptic clues—about Buffalo Bill and about her—launch Clarice on a search that every reader will find startling, harrowing, and totally compelling.

alfredo balli trevino interview: *Serial Killers at the Movies* Christopher Berry-Dee, 2020-11-12 The depraved crimes of both real and imagined serial killers and mass murderers have long transfixed us in newspapers and books, but perhaps nowhere more so than on the big screen. Films such as *Silence of the Lambs*, *Psycho* and *Henry: Portrait of a Serial Killer* have not only reached huge audiences but also allowed us into the minds of society's most disturbed individuals. Bestselling author, Christopher Berry-Dee, talks to the serial killers whose wicked stories have most thrilled and fascinated us at the movies and, through far-ranging and disturbing interviews, he tells

the stories of the mass murderers who provided the inspiration for some of cinema's most shocking films. *Serial Killers at the Movies* takes the reader on an uncomfortable and truly dark journey into a lurid world of murder and deviancy.

alfredo balli trevino interview: *The Strange World of Thomas Harris* David Sexton, 2001 Thomas Harris is the great melodramatist of our time, author of the definitive thrillers of the last 20 years. *The Silence of the Lambs* alone has sold more than 12 million copies worldwide. And yet Harris's phenomenal success has been achieved without any personal publicity whatsoever. He has never given an interview. In this gripping - and sometimes chilling - profile, David Sexton exploits every possible source to get to the bottom of Harris's monstrous genius: who really is the man behind Hannibal Lecter?

alfredo balli trevino interview: *Pretty Evil New England* Sue Coletta, 2020-11-01 For four centuries, New England has been a cradle of crime and murder—from the Salem witch trials to the modern-day mafia. Nineteenth century New England was the hunting ground of five female serial killers: Jane Toppan, Lydia Sherman, Nellie Webb, Harriet E. Nason, and Sarah Jane Robinson. Female killers are often portrayed as caricatures: Black Widows, Angels of Death, or Femme Fatales. But the real stories of these women are much more complex. In *Pretty Evil New England*, true crime author Sue Coletta tells the story of these five women, from broken childhoods, to first brushes with death, and she examines the overwhelming urges that propelled these women to take the lives of a combined total of more than one-hundred innocent victims. The murders, investigations, trials, and ultimate verdicts will stun and surprise readers as they live vicariously through the killers and the would-be victims that lived to tell their stories.

Each chapter considers how the genre impacts audiences and their understanding of topics like place, crime, and identity.

alfredo balli trevino interview: *Dangling Propositions* Billy Sledge, 2017-12-11 ...blest are those/Whose blood and judgment are so well commingled/That they are not a pipe for Fortune's finger/To sound what stop she please. (Hamlet III, 2) I can imagine these Shakespearean lines occurring to my character Nebo Rhombus, confronted with obeying the mysterious will of the plasmamorph In Instrument, one of three stories comprising *Dangling Propositions*. A force of life from Earth's atmosphere has revealed itself to Rhombus, an image consultant/promoter. It is determined to employ him to somehow lead humankind from a world-threatening course, before that course is cataclysmically corrected. A matter of course is also plotted in *The Superstoic*, though on an individual scale. Whether ultra-reticent library worker Zharko Solovich is willing, he is held to account for his right to be silent in an alternate world where no such right exists. For compulsive mimic Bogustin Guisermann, who hides himself mirroring others, being unintentionally gifted with the ability to blind people to his presence, as a result of thought-projection experiments, may be the refuge from the judging sight of the world he's sought. In *Not to Behold*, to be perceived, not to be perceived, seems the question.

alfredo balli trevino interview: *Texas and Northeastern Mexico, 1630-1690* Juan Bautista Chapa, 2010-06-28 This authoritative, annotated translation of the 17th century text is essential reading for historians of New Spain and Spanish Texas. In the seventeenth century, South Texas and Northeastern Mexico formed El Nuevo Reino de León, a frontier province of New Spain. In 1690, Juan Bautista Chapa penned a richly detailed history of Nuevo León for the years 1630 to 1690. Although his *Historia de Nuevo León* was not published until 1909, it has since been acclaimed as the key contemporary document for any historical study of Spanish colonial Texas. This book offers the only accurate and annotated English translation of Chapa's *Historia*. In addition to the translation, William C. Foster also summarizes the Discourses of Alonso de León (the elder), which

cover the years 1580 to 1649. The appendix includes a translation of Alonso (the younger) de León's previously unpublished revised diary of the 1690 expedition to East Texas and an alphabetical listing of over 80 Indian tribes identified in this book. Chapa's *Historia* lists the names and locations of over 300 Indian tribes. This information, together with descriptions of the vegetation, wildlife, and climate in seventeenth-century Texas, make this book essential reading for ethnographers, anthropologists, and biogeographers, as well as students and scholars of Spanish borderlands history.

alfredo balli trevino interview: The Great Movies Roger Ebert, 2003-11-11 America's most trusted and best-known film critic Roger Ebert presents one hundred brilliant essays on some of the best movies ever made. Roger Ebert, the famed film writer and critic, wrote biweekly essays for a feature called *The Great Movies*, in which he offered a fresh and fervent appreciation of a great film. *The Great Movies* collects one hundred of these essays, each one of them a gem of critical appreciation and an amalgam of love, analysis, and history that will send readers back to that film with a fresh set of eyes and renewed enthusiasm-or perhaps to an avid first-time viewing. Ebert's selections range widely across genres, periods, and nationalities, and from the highest achievements in film art to justly beloved and wildly successful popular entertainments. Roger Ebert manages in these essays to combine a truly populist appreciation for our most important form of popular art with a scholar's erudition and depth of knowledge and a sure aesthetic sense. Wonderfully enhanced by stills selected by Mary Corliss, the film curator at the Museum of Modern Art, *The Great Movies* is a treasure trove for film lovers of all persuasions, an unrivaled guide for viewers, and a book to return to again and again. *The Great Movies* includes: *All About Eve* • *Bonnie and Clyde* • *Casablanca* • *Citizen Kane* • *The Godfather* • *Jaws* • *La Dolce Vita* • *Metropolis* • *On the Waterfront* • *Psycho* • *The Seventh Seal* • *Sweet Smell of Success* • *Taxi Driver* • *The Third Man* • *The Wizard of Oz* • and eighty-five more films.

alfredo balli trevino interview: Dark Nights of the Soul Thomas Moore, 2005-06-16 Every human life is made up of the light and the dark, the happy and the sad, the vital and the deadening. How you think about this rhythm of moods makes all the difference. Our lives are filled with emotional tunnels: the loss of a loved one or end of a relationship, aging and illness, career disappointments or just an ongoing sense of dissatisfaction with life. Society tends to view these "dark nights" in clinical terms as obstacles to be overcome as quickly as possible. But Moore shows how honoring these periods of fragility as periods of incubation and positive opportunities to delve the soul's deepest needs can provide healing and a new understanding of life's meaning. *Dark Nights of the Soul* presents these metaphoric dark nights not as the enemy, but as times of transition, occasions to restore yourself, and transforming rites of passage, revealing an uplifting and inspiring new outlook on such topics as: • The healing power of melancholy • The sexual dark night and the mysteries of matrimony • Finding solace during illness and in aging • Anxiety, anger, and temporary Insanities • Linking creativity, spirituality, and emotional struggles • Finding meaning and beauty in the darkness

alfredo balli trevino interview: Revolution in Texas Benjamin Heber Johnson, 2003-01-01 In *Revolution in Texas*, Benjamin Johnson tells the little-known story of one of the most intense and protracted episodes of racial violence in United States history. In 1915, against the backdrop of the Mexican Revolution, the uprising that would become known as the Plan de San Diego began with a series of raids by ethnic Mexicans on ranches and railroads. Local violence quickly erupted into a regional rebellion. In response, vigilante groups and the Texas Rangers staged an even bloodier counterinsurgency, culminating in forcible relocations and mass executions. eventually collapsed. But, as Johnson demonstrates, the rebellion resonated for decades in American history. Convinced of the futility of using force to protect themselves against racial discrimination and economic oppression, many Mexican Americans elected to seek protection as American citizens with equal access to rights and protections under the US Constitution.

alfredo balli trevino interview: *The Texas Supreme Court* James L. Haley, 2013-02-15 "Few people realize that in the area of law, Texas began its American journey far ahead of most of the rest of the country, far more enlightened on such subjects as women's rights and the protection of debtors." Thus James Haley begins this highly readable account of the Texas Supreme Court. The first book-length history of the Court published since 1917, it tells the story of the Texas Supreme Court from its origins in the Republic of Texas to the political and philosophical upheavals of the mid-1980s. Using a lively narrative style rather than a legalistic approach, Haley describes the twists and turns of an evolving judiciary both empowered and constrained by its dual ties to Spanish civil law and English common law. He focuses on the personalities and judicial philosophies of those who served on the Supreme Court, as well as on the interplay between the Court's rulings and the state's unique history in such areas as slavery, women's rights, land and water rights, the rise of the railroad and oil and gas industries, Prohibition, civil rights, and consumer protection. The book is illustrated with more than fifty historical photos, many from the nineteenth and early twentieth centuries. It concludes with a detailed chronology of milestones in the Supreme Court's history and a list, with appointment and election dates, of the more than 150 justices who have served on the Court since 1836.

alfredo balli trevino interview: **Guillermo Calles** Rogelio Agrasánchez, Jr., 2014-01-10 In 1912, Guillermo Calles (1893-1958) became the first Mexican actor to appear in films made in California. Despite limited resources, he began directing and producing his own movies, and in 1929 pioneered production of Spanish-language sound films. His major works, among them the long-unavailable *El indio yaqui* and *Raza de bronce* (both 1927), represented Calles' tireless crusade to restore the image of Mexicans and Indians in an era dominated by Hollywood stereotypes. This biography traces Calles' career from his earliest Hollywood days through the 1950s. Included are the only surviving images of the filmmaker's silent productions, a closing commentary on his intimate circle of relatives, and an appendix featuring two fascinating letters written by Calles during a filming trip.

alfredo balli trevino interview: *Mexican American Baseball in Orange County* Richard Santillan, Susan C. Luévano, Luis F. Fernández, Angelina F. Veyna, 2013 *Images of Baseball: Mexican American Baseball in Orange County* celebrates the once-vibrant culture of baseball and softball teams from Placentia, Anaheim, Santa Ana, Westminster, San Juan Capistrano, and nearby towns. Baseball allowed men and women to showcase their athletic and leadership skills, engaged family members, and enabled community members to develop social and political networks. Players from the barrios and colonias of La Fábrica, Campo Colorado, La Jolla, Logan, Cypress Street, El Modena, and La Colonia Independencia, among others, affirmed their Mexican and American identities through their sport. Such legendary teams as the Placentia Merchants, the Juveniles of La

Habra, the Lionettes de Orange, the Toreros of Westminster, and the Road Kings of Colonia 17th made weekends memorable. Players and their families helped create the economic backbone and wealth evident in Orange County today. This book sheds light on powerful images and stories of the Mexican American community.

alfredo balli trevino interview: Our America: A Hispanic History of the United States Felipe Fernández-Armesto, 2014-01-20 "A rich and moving chronicle for our very present." —Julio Ortega, New York Times Book Review The United States is still typically conceived of as an offshoot of England, with our history unfolding east to west beginning with the first English settlers in Jamestown. This view overlooks the significance of America's Hispanic past. With the profile of the United States increasingly Hispanic, the importance of recovering the Hispanic dimension to our national story has never been greater. This absorbing narrative begins with the explorers and conquistadores who planted Spain's first colonies in Puerto Rico, Florida, and the Southwest. Missionaries and rancheros carry Spain's expansive impulse into the late eighteenth century, settling California, mapping the American interior to the Rockies, and charting the Pacific coast. During the nineteenth century Anglo-America expands west under the banner of "Manifest Destiny" and consolidates control through war with Mexico. In the Hispanic resurgence that follows, it is the peoples of Latin America who overspread the continent, from the Hispanic heartland in the West to major cities such as Chicago, Miami, New York, and Boston. The United States clearly has a Hispanic present and future. And here is its Hispanic past, presented with characteristic insight and wit by one of our greatest historians.

alfredo balli trevino interview: Hannibal Rising Thomas Harris, 2007-05-29 He is one of the most haunting characters in all of literature. At last the evolution of his evil is revealed. Hannibal Lecter emerges from the nightmare of the Eastern Front, a boy in the snow, mute, with a chain around his neck. He seems utterly alone, but he has brought his demons with him. Hannibal's uncle, a noted painter, finds him in a Soviet orphanage and brings him to France, where Hannibal will live with his uncle and his uncle's beautiful and exotic wife, Lady Murasaki. Lady Murasaki helps Hannibal to heal. With her help he flourishes, becoming the youngest person ever admitted to medical school in France. But Hannibal's demons visit him and torment him. When he is old enough, he visits them in turn. He discovers he has gifts beyond the academic, and in that epiphany, Hannibal Lecter becomes death's prodigy.

JAMES PATTERSON'S MASTERPIECE _____ Kennedys were always taught to win at all costs. And they did - but the costs were unimaginable... Across decades and generations, the Kennedys have been a family of charismatic adventurers, raised to take risks and excel. Their name is synonymous with American royalty. Their commitment to public service is legendary. But, for all the successes, the family has been blighted by assassinations, fatal accidents, mental illness, drug and alcohol abuse and sex scandals. To this day, the Kennedys occupy a unique, contradictory place in the world's imagination- at once charmed and cursed; familiar and unknowable. The Kennedy Curse is a revealing, fascinating account of America's most famous family, as told by the world's most trusted storyteller. _____ 'When I wrote my first novel after several non-fiction works about politics, James Patterson lovingly lambasted me for infringing on his thriller territory. Now I know how he feels as he crosses into non-fiction politics with this juicy and entertaining look at a political family that continues to wield power and influence. He's too good - it isn't fair!' JAKE TAPPER, CNN anchor and author of The Hellfire Club

alfredo balli trevino interview: The Spanish Archives of New Mexico Ralph Emerson Twitchell, 1914 In what follows can be found the doors to a house of words and stories. This house of words and stories is the Archive of New Mexico and the doors are each of the documents contained within it. Like any house, New Mexico's archive has a tale of its own origin and a complex history. Although its walls have changed many times, its doors and the encounters with those doors hold stories known and told and others not yet revealed. In the Archives, there are thousands of doors (4,481) that open to a time of kings and popes, of inquisition and revolution. These archives, writes Ralph Emerson Twitchell, are by far the most valuable and interesting of any in the Southwest. Many of these documents were given a number by Twitchell, small stickers that were appended to the first page of each document, an act of heresy to archivists and yet these stickers have now become part of the artifact. These are the doors that Ralph Emerson Twitchell opened at the dawn of the 20th century with a key that has served scholars, policy-makers, and activists for generations. In 1914 Twitchell published in two volumes The Spanish Archives of New Mexico, the first calendar and guide to the documents from the Spanish colonial period. Volume One of the two volumes focuses on the collection known as the Spanish Archives of New Mexico, Series I, or SANM I, an appellation granted because of Twitchell's original compilation and description of the 1,384 documents identified in the first volume of his series. The Spanish Archives of New Mexico was assembled by the Surveyor General of New Mexico (1854-1891) and the Court of Private Land Claims (1891-1904). The collection consists of civil land records of the Spanish period governments of New Mexico and materials created by the Surveyor General and Court of Private Land Claims during the process of adjudication. It includes the original Spanish colonial petitions for land grants, land conveyances, wills, mine registers, records books, journals, dockets, reports, minutes, letters, and a variety of other legal documents. Each of these documents tell a story, sometimes many stories. The bulk of the records accentuate the amazingly dynamic nature of land grant and settlement policies. While the documents reveal the broad sweep of community settlement and its reverse effect, hundreds of last wills and testaments are included in these records, that are scripted in the most eloquent and spiritual tone at the passing of individuals into death. These testaments also reveal a legacy of what colonists owned and bequeathed to the next generations. Most of the documents are about the geographic, political and cultural mapping of New Mexico, but many reflect the stories of that which is owned both in terms of commodities and human lives. Archives inevitably, and these archives more than most, help to shape current debates about dispossession, the colonial past, and the postcolonial future of New Mexico. For this reason, the task of understanding the role of archives, archival documents, and the kinds of stories that emanate from them has never been more urgent. Let this effort and the key provided by Twitchell in his two volumes open the doors wide for knowledge to be useful today and tomorrow.--From the Foreword by Estevan Rael-Galvez, New

alfredo balli trevino interview: Cartel: The Coming Invasion of Mexico's Drug Wars

Sylvia Longmire, 2011-10-18 Having followed Mexico's cartels for years, border security expert Sylvia Longmire takes us deep into the heart of their world to witness a dangerous underground that will do whatever it takes to deliver drugs to a willing audience of American consumers. The cartels have grown increasingly bold in recent years, building submarines to move up the coast of Central America and digging elaborate tunnels that both move drugs north and carry cash and U.S. high-powered assault weapons back to fuel the drug war. Channeling her long experience working on border issues, Longmire brings to life the very real threat of Mexican cartels operating not just along the southwest border, but deep inside every corner of the United States. She also offers real solutions to the critical problems facing Mexico and the United States, including programs to deter youth in Mexico from joining the cartels and changing drug laws on both sides of the border.

alfredo balli trevino interview: My 15 Grandmothers Genie Milgrom, 2012 Genie Milgrom was born in Havana, Cuba, into a Roman Catholic family of Spanish ancestry. At the age of five, during the Cuban Revolution, her family immigrated to the United States, and she has lived in Miami, Florida, ever since. Genie was always interested in her family genealogy, but when she learned of the possibility of having Converso Jewish roots, her search for the truth about her family's past took on a deeper significance...She was able to fully document her unbroken maternal lineage, going back as far as 1480, to Pre-Inquisition Spain and Portugal -- Back cover.

alfredo balli trevino interview: I Would Rather Sleep in Texas Mary Amberson, James A. McAllen, Margaret H. McAllen, 2014-02-17 This superb work of history tells the story of the Lower Rio Grande Valley and the people who struggled to make this daunting land their home. Spanish conquistadors and Mexican revolutionaries, cowboys and ranchers, Texas Rangers and Civil War generals, entrepreneurs and empire builders are all a part of this centuries-long saga, thoroughly researched and skillfully presented here. Steamboats used the inland waterway as a major transport route, and fortunes were made when the river served as the Confederacy's only outlet for money and munitions. Mexican presidents and revolutionaries, European empires and investors, American cattle kings and entrepreneurs all considered this river frontier crucial. Men, women, and beasts braved the unforgiving climate of this land, and its cattle and cowboys gave rise to the great cattle drives up the Chisholm Trail to Kansas. It was and remains a crossroads of international cultures. In this moving account of the history of the families of the Santa Anita land grant, almost two hundred years of the history of the lower Rio Grande Valley (1748-1940) are revealed. An important addition to any collection of Texas history, *I Would Rather Sleep in Texas* is one of the most complete studies of the lower Rio Grande, abundantly illustrated with maps and photographs, many never before published. In 1790 the Santa Anita, a Spanish land grant, was awarded to merchant José Manuel Gómez. After the land passed to Gómez's widow, part of the grant was acquired by María Salomé Ballí, the daughter of a powerful Spanish clan. Salomé Ballí married Scotsman John Young, and her family connections combined with his business acumen helped to further assemble the Santa Anita under one owner. In 1859, after Young's death, Salomé struggled to hold onto her properties amid bandit raids and the siege of violence waged in the region by borderland caudillo Juan Nepomuceno Cortina. Soon after the beginning of the Civil War, she married Scotch- Irish immigrant John McAllen. They participated in the rapid wartime cotton trade through Matamoros and had business associations with a group of men—Mifflin Kenedy, Richard King, Charles Stillman, and Francisco Yturria—who made fortunes that influenced businesses nationwide. Rare firsthand accounts by Salomé Ballí Young de McAllen, John McAllen, and their son, James Ballí McAllen, add to a deeper understanding of the blending of the region's frontier cultures, rowdy politics, and periodic violence. All the while, the Santa Anita remained the cornerstone of the business and stability of this family. As the lower Rio Grande Valley moved into the modern era, land speculation led economic activity from 1890 through 1910. The construction of railroads brought improved means for transportation and new towns, including McAllen, Texas, in 1905. The book's ending reveals how, in 1915, Mexican

warfare again spilled over the banks of the Rio Grande with deadly results, tragically affecting this family for the next twenty-five years. *I Would Rather Sleep in Texas* tells a remarkable story that covers a broad sweep of Texas and borderlands history.

alfredo balli trevino interview: *The Collaboration* Ben Urwand, 2015-10-05 To continue doing business in Germany after Hitler's ascent to power, Hollywood studios agreed not to make films that attacked the Nazis or condemned Germany's persecution of Jews. Ben Urwand reveals this bargain for the first time—a collaboration (Zusammenarbeit) that drew in a cast of characters ranging from notorious German political leaders such as Goebbels to Hollywood icons such as Louis B. Mayer. At the center of Urwand's story is Hitler himself, who was obsessed with movies and recognized their power to shape public opinion. In December 1930, his Party rioted against the Berlin screening of *All Quiet on the Western Front*, which led to a chain of unfortunate events and decisions. Fearful of losing access to the German market, all of the Hollywood studios started making concessions to the German government, and when Hitler came to power in January 1933, the studios—many of which were headed by Jews—began dealing with his representatives directly. Urwand shows that the arrangement remained in place through the 1930s, as Hollywood studios met regularly with the German consul in Los Angeles and changed or canceled movies according to his wishes. Paramount and Fox invested profits made from the German market in German newsreels, while MGM financed the production of German armaments. Painstakingly marshaling previously unexamined archival evidence, *The Collaboration* raises the curtain on a hidden episode in Hollywood—and American—history.
