A Bustle 30 Best Fiction Books pick! A brilliantly imaginative talent makes her exciting debut with this epic historical military fantasy, inspired by the bloody history of China's twentieth century and filled with treachery and magic, in the tradition of Ken Liu's *Grace of Kings* and N.K. Jemisin's *Inheritance Trilogy*. When Rin aced the Keju—the Empire-wide test to find the most talented youth to learn at the Academies—it was a shock to everyone: to the test officials, who couldn't believe a war orphan from Rooster Province could pass without cheating; to Rin's guardians, who believed they'd finally be able to marry her off and further their criminal enterprise; and to Rin herself, who realized she was finally free of the servitude and despair that had made up her daily existence. That she got into Sineward—the most elite military school in Nikan—was even more surprising. But surprises aren't always good. Because being a dark-skinned peasant girl from the south is not an easy thing at Sineward. Targeted from the outset by rival classmates for her color, poverty, and gender, Rin discovers she possesses a lethal, unearthly power—an aptitude for the nearly-mythical art of shamanism. Exploring the depths of her gift with the help of a seemingly insane teacher and psychoactive substances, Rin learns that gods long thought dead are very much alive—and that mastering control over those powers could mean more than just surviving school. For while the Nikara Empire is at peace, the Federation of Mugen still lurks across a narrow sea. The militarily advanced Federation occupied Nikan for decades after the First Poppy War, and only barely lost the continent in the Second. And while most of the people are complacent to go about their lives, a few are aware that a Third Poppy War is just a spark away . . . Rin's shamanic powers

may be the only way to save her people. But as she finds out more about the god that has chosen her, the vengeful Phoenix, she fears that winning the war may cost her humanity . . . and that it may already be too late.

alicia hannah kim interview: [The Surrendered](#) Chang-rae Lee, 2010-03-09 Read an essay by Chang-rae Lee [here](#). The bestselling, award-winning writer of *Native Speaker*, *Aloft*, and *My Year Abroad* returns with his biggest, most ambitious novel yet: a spellbinding story of how love and war echo through an entire lifetime. With his three critically acclaimed novels, Chang-rae Lee has established himself as one of the most talented writers of contemporary literary fiction. Now, with *The Surrendered*, Lee has created a book that amplifies everything we've seen in his previous works, and reads like nothing else. It is a brilliant, haunting, heartbreaking story about how love and war inalterably change the lives of those they touch. June Han was only a girl when the Korean War left her orphaned; Hector Brennan was a young GI who fled the petty tragedies of his small town to serve his country. When the war ended, their lives collided at a Korean orphanage where they vied for the attentions of Sylvie Tanner, the beautiful yet deeply damaged missionary wife whose elusive love seemed to transform everything. Thirty years later and on the other side of the world, June and Hector are reunited in a plot that will force them to come to terms with the mysterious secrets of their past, and the shocking acts of love and violence that bind them together. As Lee unfurls the stunning story of June, Hector, and Sylvie, he weaves a profound meditation on the nature of heroism and sacrifice, the power of love, and the possibilities for mercy, salvation, and surrendering oneself to another. Combining the complex themes of identity and belonging of *Native Speaker* and *A Gesture Life* with the broad range, energy, and pure storytelling gifts of *Aloft*, Chang-rae Lee has delivered his most ambitious, exciting, and unforgettable work yet. It is a mesmerizing novel, elegantly suspenseful and deeply affecting.

alicia hannah kim interview: [The #MeToo Movement](#) Laurie Collier Hillstrom, 2018-12-01 This volume provides a concise but authoritative overview of the #MeToo Movement and its enormous impact on American society, from the studios of Hollywood to factories, campuses, and offices across the country. The 21st Century Turning Points series is a one-stop resource for understanding the people and events changing America today. The #MeToo Movement is devoted to

the issue that brought sexual harassment out of the shadows of American culture and into the spotlight. Sparked by revelations of decades of sexual harassment by powerful Hollywood executive Harvey Weinstein, the movement quickly uncovered similar abusive behavior by numerous other famous public figures. It also revealed the extent to which sexual harassment has been a persistent problem in many workplace settings across America and the ways in which girls and women are subjected to degrading and discriminatory treatment because of their gender. The book provides a broad perspective on these issues. It discusses late twentieth-century efforts to identify sexual harassment as a longstanding societal problem; explains how the 2016 presidential election brought new attention to this issue; introduces activists who helped to launch the #MeToo Movement; and surveys the impact of the movement on American politics, business, and entertainment.

alicia hannah kim interview: *The Body Is Not an Apology* Sonya Renee Taylor, 2018-02-13
The Body Is Not an Apology The Power of Radical Self-Love Against a global backdrop of war, social upheaval, and personal despair, there is a growing sense of urgency to challenge the systems of oppression that dehumanize bodies and strip us of our shared humanity. Rather than feel helpless in the face of oppression, world-renowned activist, performance poet, and author Sonya Renee Taylor teaches us how to turn to the power of radical self-love in her new book, *The Body Is Not an Apology*. Radical self-love is the guiding framework that transforms the learned self-hatred of our bodies and the prejudices we have about other people's bodies into a vision of compassion, equity, and justice. In a revolutionary departure from the corporate self-help and body-positivity movement, Taylor forges the inextricable bond between radical self-love and social justice. The first step is recognizing that we have all been indoctrinated into a system of body shame that profits off of our self-hatred. When we ask ourselves, Who benefits from our collective shame? we can begin to make the distinction between the messages we are receiving about our bodies or other bodies and the truth. This book moves us beyond our all-too-often hidden lives, where we are easily encouraged to forget that we are whole humans having whole human experiences in our bodies alongside others. Radical self-love encourages us to embark on a personal journey of transformation with thoughtful reflection on the origins of our minds and bodies as a source of strength. In doing this, we not only learn to reject negative messages about ourselves but begin to thwart the very power structures that uphold them. Systems of oppression thrive off of our inability to make peace with bodies and difference. Radical self-love not only dismantles shame and self-loathing in us but has the power to dismantle global systems of injustice-because when we make peace with our bodies, only then do we have the capacity to truly make peace with the bodies of others

alicia hannah kim interview: *Full Body Burden* Kristen Iversen, 2013-06-04 "An intimate and deeply human memoir that shows why we should all be concerned about nuclear safety, and the dangers of ignoring science in the name of national security."—Rebecca Skloot, #1 New York Times bestselling author of *The Immortal Life of Henrietta Lacks* A shocking account of the government's attempt to conceal the effects of the toxic waste released by a secret nuclear weapons plant in

Colorado and a community's vain search for justice—soon to be a feature documentary Kristen Iversen grew up in a small Colorado town close to Rocky Flats, a secret nuclear weapons plant once designated the most contaminated site in America. *Full Body Burden* is the story of a childhood and adolescence in the shadow of the Cold War, in a landscape at once startlingly beautiful and--unknown to those who lived there--tainted with invisible yet deadly particles of plutonium. It's also a book about the destructive power of secrets--both family and government. Her father's hidden liquor bottles, the strange cancers in children in the neighborhood, the truth about what was made at Rocky Flats--best not to inquire too deeply into any of it. But as Iversen grew older, she began to ask questions and discovered some disturbing realities. Based on extensive interviews, FBI and EPA documents, and class-action testimony, this taut, beautifully written book is both captivating and unnerving.

for 79% of the people to whom it is given. Remarkably, Patrick is not just alive a year later but continuing his treatment, and responding well. But this book isn't just the story of Patrick's fight against cancer. In the public eye from the early 1980s, this is the story of a remarkable life and career. Intended as a low budget, straight-to-video production, *Dirty Dancing* became a cult hit and remains one of the most enduring films of the 80s. Ghost cemented Patrick as a hugely bankable star, in a role that has had a considerable cultural impact. Most recently Patrick has returned to the public's adoring arms in TV's *The Beast*. alicia hannah kim interview: Land/Relations Smaro Kamboureli, Larissa Lai, 2023-04-18 Essential reading for those interested in questions of justice and cultural representation, *Land/Relations* speaks to and moves beyond the critical junctures in the study of Canadian literatures today. In the aftermath of the Truth and Reconciliation Commission and following Canada's sesquicentennial, *Land/Relations* presents a collaborative effort at what Smaro Kamboureli and Larissa Lai call "counter-memory," a collective effort to recognise "relationships that have always been"—between peoples, between humanity and other living forms, between us and the land—in an effort to avoid erasure, loss, and trauma. Twenty influential literary critics engage a variety of genres—essay, life writing, testament, polemic, poetry—to explore the ways Canadian cultural production has been shaped by social and historical relations and can be given new and various forms to decolonize the institutions associated with the creation of this country's vision of Canadian literature.

alicia hannah kim interview: The Nine Tracy Townsend, 2017-11-14 In the dark streets of Corma exists a book that writes itself, a book that some would kill for... Black market courier Rowena Downshire is just trying to pay her mother's freedom from debtor's prison when an urgent and unexpected delivery leads her face to face with a creature out of nightmares. Rowena escapes with her life, but the strange book she was ordered to deliver is stolen. The Alchemist knows things few men have lived to tell about, and when Rowena shows up on his doorstep, frightened and empty-handed, he knows better than to turn her away. What he discovers leads him to ask for help from the last man he wants to see—the former mercenary, Anselm Meteron. Across town, Reverend Phillip Chalmers awakes in a cell, bloodied and bruised, facing a creature twice his size. Translating the stolen book may be his only hope for survival; however, he soon realizes the book may be a fabled text written by the Creator Himself, tracking the nine human subjects of His Grand Experiment. In the wrong hands, it could mean the end of humanity. Rowena and her companions become the target of conspirators who seek to use the book for their own ends. But how can this unlikely team be sure who the enemy is when they can barely trust each other? And what will happen when the book reveals a secret no human was meant to know?

alicia hannah kim interview: Outer Banks: Lights Out Alyssa Sheinmel, 2021-11-23 An original YA novel based on the hit Netflix series *Outer Banks*, written by New York Times bestselling author Alyssa Sheinmel, featuring JJ and John B in a brand-new, high-octane adventure—now in paperback It's spring break in the Outer Banks, and the islands are swarming with rich tourists. The last thing JJ and John B want to do is spend their week watching Kooks in action, so they plan a fishing getaway to the notoriously dangerous Frying Pan Shoals—nicknamed "Graveyard of the Atlantic" for good reason. Turns out they aren't the only adventure-seekers at sea. Soon after they set sail, the friends run into the captivating Savannah, who hitches a ride aboard the HMS Pogue when the weather worsens and her boyfriend leaves her stranded. As a violent storm sets in, the three realize the only place to safely ride out the squall is a creepy, abandoned hotel on the shoals' lighthouse platform. Or is it abandoned? It doesn't take long for the three teens to realize they may not be alone. . . . Further complicating the life-or-death adventure is a mounting attraction between JJ and the secretive Savannah—the closer JJ gets to her, the more he realizes he's playing with fire. Even if they get out of the shoals alive, can a Pogue-Kook romance survive the high-stakes shores of

the Outer Banks?

alicia hannah kim interview: *Eight Flavors* Sarah Lohman, 2016-12-06 This unique culinary history of America offers a fascinating look at our past and uses long-forgotten recipes to explain how eight flavors changed how we eat. The United States boasts a culturally and ethnically diverse population which makes for a continually changing culinary landscape. But a young historical gastronomist named Sarah Lohman discovered that American food is united by eight flavors: black pepper, vanilla, curry powder, chili powder, soy sauce, garlic, MSG, and Sriracha. In *Eight Flavors*, Lohman sets out to explore how these influential ingredients made their way to the American table. She begins in the archives, searching through economic, scientific, political, religious, and culinary records. She pores over cookbooks and manuscripts, dating back to the eighteenth century, through modern standards like *How to Cook Everything* by Mark Bittman. Lohman discovers when each of these eight flavors first appear in American kitchens—then she asks why. *Eight Flavors* introduces the explorers, merchants, botanists, farmers, writers, and chefs whose choices came to define the American palate. Lohman takes you on a journey through the past to tell us something about our present, and our future. We meet John Crowninshield a New England merchant who traveled to Sumatra in the 1790s in search of black pepper. And Edmond Albius, a twelve-year-old slave who lived on an island off the coast of Madagascar, who discovered the technique still used to pollinate vanilla orchids today. Weaving together original research, historical recipes, gorgeous illustrations and Lohman's own adventures both in the kitchen and in the field, *Eight Flavors* is a delicious treat—ready to be devoured.

alicia hannah kim interview: *Something That May Shock and Discredit You* Daniel M. Lavery, 2020-02-11 “One of our smartest, most inventive humor writers, Ortberg combines bathos and the devotional into a revelation.” —Jordy Rosenberg, *The New York Times Book Review* From the *New York Times* bestselling author of *Texts From Jane Eyre* and Merry Spinster, writer of *Slate's* “Dear Prudence” column, and cofounder of *The Toast* comes a hilarious and stirring collection of essays and cultural observations spanning pop culture—from the endearingly popular to the staggeringly obscure. Daniel M. Lavery is known for blending genres, forms, and sources to develop fascinating new hybrids—from lyric rants to horror recipes to pornographic scripture. In his most personal work to date, he turns his attention to the essay, offering vigorous and laugh-out-loud funny accounts of both popular and highbrow culture while mixing in meditations on gender transition, family dynamics, and the many meanings of faith. From a thoughtful analysis of the beauty of William Shatner to a sinister reimagining of HGTV's *House Hunters*, and featuring figures as varied as Anne of Green Gables, Columbo, Nora Ephron, Apollo, and the cast of *Mean Girls*, *Something That May Shock and Discredit You* is a hilarious and emotionally exhilarating compendium that combines personal history with cultural history to make you see yourself and those around you entirely anew. It further establishes Lavery as one of the most innovative and engaging voices of his generation—and it may just change the way you think about Lord Byron forever.

alicia hannah kim interview: *Movies Made for Television* Alvin H. Marill, 2010-10-11 Supplementing *Movies Made for Television: 1964-2004*, this new volume contains entries on an additional 400 television films and mini-series produced between 2005 and 2009. Each entry includes extensive production credits (director, writer, producer, composer, director of photography, and editor) and a complete cast and character listing.

alicia hannah kim interview: *For the Love of Men* Liz Plank, 2019-09-10 A nonfiction investigation into masculinity, *For the Love of Men* provides actionable steps for how to be a man in the modern world, while also exploring how being a man in the world has evolved. In 2019, traditional masculinity is both rewarded and sanctioned. Men grow up being told that boys don't cry and dolls are for girls (a newer phenomenon than you might realize—gendered toys came back in vogue as recently as the 80s). They learn they must hide their feelings and anxieties, that their masculinity must constantly be proven. They must be the breadwinners, they must be the romantic pursuers. This hasn't been good for the culture at large: 99% of school shooters are male; men in fraternities are 300% (!) more likely to commit rape; a woman serving in uniform has a higher

likelihood of being assaulted by a fellow soldier than to be killed by enemy fire. In *For the Love of Men*, Liz offers a smart, insightful, and deeply-researched guide for what we're all going to do about toxic masculinity. For both women looking to guide the men in their lives and men who want to do better and just don't know how, *For the Love of Men* will lead the conversation on men's issues in a society where so much is changing, but gender roles have remained strangely stagnant. What are we going to do about men? Liz Plank has the answer. And it has the possibility to change the world for men and women alike.

alicia hannah kim interview: Wild Child Patrick Barkham, 2021-01-04 "Quiet but compelling arguments about the importance of kids getting out more and connecting to nature . . . A book that deserves to flourish." —The Guardian From climbing trees and making dens, to building sandcastles and pond-dipping, many of the activities we associate with a happy childhood take place outdoors. And yet, the reality for many contemporary children is very different. The studies tell us that we are raising a generation who are so alienated from nature that they can't identify the commonest birds or plants, they don't know where their food comes from, they are shuttled between home, school and the shops and spend very little time in green spaces—let alone roaming free. In this timely and personal book, celebrated nature writer Patrick Barkham draws on his own experience as a parent and a forest school volunteer to explore the relationship between children and nature. Unfolding over the course of a year of snowsuits, muddy wellies, and sunhats, *Wild Child* is both an intimate story of children finding their place in the natural world and a celebration of the delight we can all find in even modest patches of green. "Entrancing . . . If ever there was a book to fuel the ecological interest of future generations, this is it." —Isabella Tree, author of *Wilding* "Barkham takes us through a year giving his children an education in wildness. He encourages them that a physical relationship with wildlife is of the utmost importance . . . His memoir reveals the abundance of wildlife that can be explored in our own back gardens." —The Herald

alicia hannah kim interview: Disability Visibility Alice Wong, 2020-06-30 "Disability rights activist Alice Wong brings tough conversations to the forefront of society with this anthology. It sheds light on the experience of life as an individual with disabilities, as told by none other than authors with these life experiences. It's an eye-opening collection that readers will revisit time and time again." —Chicago Tribune One in five people in the United States lives with a disability. Some disabilities are visible, others less apparent—but all are underrepresented in media and popular culture. Activist Alice Wong brings together this urgent, galvanizing collection of contemporary essays by disabled people, just in time for the thirtieth anniversary of the Americans with Disabilities Act, From Harriet McBryde Johnson's account of her debate with Peter Singer over her own personhood to original pieces by authors like Keah Brown and Haben Girma; from blog posts, manifestos, and eulogies to Congressional testimonies, and beyond: this anthology gives a glimpse into the rich complexity of the disabled experience, highlighting the passions, talents, and everyday lives of this community. It invites readers to question their own understandings. It celebrates and documents disability culture in the now. It looks to the future and the past with hope and love.

alicia hannah kim interview: Females Andrea Long Chu, 2019-10-29 One of today's most original thinkers on gender offers a provocative take on the current feminist movement, exploring "desire as the force shaping our identities, the paradoxes of liberation politics, and her own gender transition" (Bookforum). "[Females] is always smart, sometimes sincere, and unpredictable about when it will pinch your arm or clutch its nails around your heart." —Vice Everyone is female, and everyone hates it. *Females* is Andrea Long Chu's genre-defying investigation into sex and lies, desperate artists and reckless politics, the smothering embrace of gender and the punishing force of desire. Drawing inspiration from a forgotten play by Valerie Solanas—the woman who wrote the SCUM Manifesto and shot Andy Warhol—Chu aims her searing wit and surgical intuition at targets ranging from performance art to psychoanalysis, incels to porn. She even has a few barbs reserved for feminists like herself. Each step of the way, she defends the indefensible claim that femaleness is less a biological state and more a fatal existential condition that afflicts the entire human race—men, women, and everyone else. Or maybe she's just projecting. A thrilling new voice who has been

credited with launching the “second wave” of trans studies, Chu shows readers how to write for your life, baring her innermost self with a morbid sense of humor and a mordant kind of hope.

alicia hannah kim interview: Where the Wild Ladies Are Aoko Matsuda, 2020-10-20 In this delightfully uncanny collection of feminist retellings of traditional Japanese folktales (The New York Times Book Review), humans live side by side with spirits who provide a variety of useful services—from truth-telling to babysitting, from protecting castles to fighting crime. A busybody aunt who disapproves of hair removal; a pair of door-to-door saleswomen hawking portable lanterns; a cheerful lover who visits every night to take a luxurious bath; a silent house-caller who babysits and cleans while a single mother is out working. Where the Wild Ladies Are is populated by these and many other spirited women—who also happen to be ghosts. This is a realm in which jealousy, stubbornness, and other excessive “feminine” passions are not to be feared or suppressed, but rather cultivated; and, chances are, a man named Mr. Tei will notice your talents and recruit you, dead or alive (preferably dead), to join his mysterious company. With Where the Wild Ladies Are, Aoko Matsuda takes the rich, millenia-old tradition of Japanese folktales—shapeshifting wives and foxes, magical trees and wells—and wholly reinvents them, presenting a world in which humans are consoled, guided, challenged, and transformed by the only sometimes visible forces that surround them.

alicia hannah kim interview: Call and Response: the Story of Black Lives Matter Veronica Chambers, 2021-08 During 2020, widespread protests rooted in the call-and-response tradition of the Black community gained worldwide attention in the wake of high-profile wrongful deaths of Black people. From the founders to watershed moments, follow the activists and organizers on their journeys and discover the ways that protest has been fundamental to American democracy, eventually making meaningful change.

alicia hannah kim interview: You Had Me at Pet-Nat Rachel Signer, 2021-10-19 From the publisher of Pipette Magazine, discover a natural wine-soaked memoir about finding your passion—and falling in love. It was Rachel Signer's dream to be that girl: the one smoking hand-rolled cigarettes out the windows of her 19th-century Parisian studio apartment, wearing second-hand Isabel Marant jeans and sipping a glass of Beaujolais redolent of crushed roses with a touch of horse mane. Instead she was an under-appreciated freelance journalist and waitress in New York City, frustrated at always being broke and completely miserable in love. When she tastes her first pétillant-naturel (pét-nat for short), a type of natural wine made with no additives or chemicals, it sets her on a journey of self-discovery, both deeply personal and professional, that leads her to Paris, Italy, Spain, Georgia, and finally deep into the wilds of South Australia and which forces her, in the face of her Wildman, to ask herself the hard question: can she really handle the unconventional life she claims she wants? Have you ever been sidetracked by something that turned into a career path? Did you ever think you were looking for a certain kind of romantic partner, but fell in love with someone wild, passionate and with a completely different life? For Signer, the discovery of natural wine became an introduction to a larger ethos and philosophy that she had long craved: one rooted in egalitarianism, diversity, organics, environmental concerns, and ancient traditions. In You Had Me at Pét-Nat, as Signer begins to truly understand these revolutionary wine producers upending the industry, their deep commitment to making their wine with integrity and with as little intervention as possible, she is smacked with the realization that unless she faces, head-on, her own issues with commitment, she will not be able to live a life that is as freewheeling, unpredictable, and singular as the wine she loves.

alicia hannah kim interview: Where We Belong Emily Giffin, 2012-07-24 Her carefully constructed life thrown into turmoil by the appearance of an eighteen-year-old girl with ties to her past, New York television producer Marian Caldwell is swept up in a maelstrom of personal discovery that changes both of their perceptions about family.

alicia hannah kim interview: Impostor Syndrome Kathy Wang, 2021-05-25 A Good Morning America Buzz Pick * Named A Best Book of Summer by Entertainment Weekly, New York Post, BuzzFeed, TheSkimm, PopSugar, Bustle, HelloGiggles, Ms. Magazine, Oprah Daily, USA Today,

Philadelphia Inquirer, Lit Hub * Named A Most Anticipated Book of 2021 by The Millions, Harper's Bazaar, Marie Claire, Crimereads A sharp and prescient novel about women in the workplace, the power of Big Tech, and the looming threat of foreign espionage from Kathy Wang, "a skilled satirist of the northern California dream" (Harper's Bazaar) In 2006 Julia Lerner is living in Moscow, a recent university graduate in computer science, when she's recruited by Russia's largest intelligence agency. By 2018 she's in Silicon Valley as COO of Tangerine, one of America's most famous technology companies. In between her executive management (make offers to promising startups, crush them and copy their features if they refuse); self promotion (check out her latest op-ed in the WSJ, on Work/Life Balance 2.0); and work in gender equality (transfer the most annoying females from her team), she funnels intelligence back to the motherland. But now Russia's asking for more, and Julia's getting nervous. Alice Lu is a first generation Chinese American whose parents are delighted she's working at Tangerine (such a successful company!). Too bad she's slogging away in the lower echelons, recently dumped, and now sharing her expensive two-bedroom apartment with her cousin Cheri, a perennial "founder's girlfriend". One afternoon, while performing a server check, Alice discovers some unusual activity, and now she's burdened with two powerful but distressing suspicions: Tangerine's privacy settings aren't as rigorous as the company claims they are, and the person abusing this loophole might be Julia Lerner herself. The closer Alice gets to Julia, the more Julia questions her own loyalties. Russia may have placed her in the Valley, but she's the one who built her career; isn't she entitled to protect the lifestyle she's earned? Part page-turning cat-and-mouse chase, part sharp and hilarious satire, Impostor Syndrome is a shrewdly-observed examination of women in tech, Silicon Valley hubris, and the rarely fulfilled but ever-attractive promise of the American Dream.

alicia hannah kim interview: The Japanese Art of the Cocktail Masahiro Urushido, Michael Anstendig, 2021 The first cocktail book from the award-winning mixologist Masahiro Urushido of Katana Kitten in New York City, on the craft of Japanese cocktail making Katana Kitten, one of the world's most prominent and acclaimed Japanese cocktail bars, was opened in 2018 by highly-respected and award-winning mixologist Masahiro Urushido. Just one year later, the bar won 2019 Tales of the Cocktail Spirited Award for Best New American Cocktail Bar. Before Katana Kitten, Urushido honed his craft over several years behind the bar of award-winning eatery Saxon+Parole. In *The Japanese Art of the Cocktail*, Urushido shares his immense knowledge of Japanese cocktails with eighty recipes that best exemplify Japan's contribution to the cocktail scene, both from his own bar and from Japanese mixologists worldwide. Urushido delves into what exactly constitutes the Japanese approach to cocktails, and demystifies the techniques that have been handed down over generations, all captured in stunning photography.

alicia hannah kim interview: Haunted Marion, Ohio Joshua Simpkins, 2011-01-09 Rich in history and steeped in blue-collar values, Marion, Ohio, is much like any midwestern city, aside from its abundance of ghouls and unexplained phenomena. From well-known landmarks like the mysterious Merchant Ball to largely forgotten locales like the Quarry Street Cemetery, Joshua Simpkins of Spookymarion.com takes readers on a delightful journey through Marion's bizarre history and hauntings. Was President Harding's death forecast by the First Lady's squawking finch's feathered form now stuffed and encased in the Harding Home on the eve of the president's ill-fated trip to Alaska? Dare to visit the Mongoloid House or see what goes bump at the empty downtown YMCA. Revisit Marion's urban legends and discover little-known ghouls that deserve to be heard.
