all dulles area muslim society adams: Religious Giving David H. Smith, 2010-04-06 Religious Giving considers the connection between religion and giving within the Abrahamic traditions. Each contributor begins with the assumption that there is something inherently right or natural about the connection. But what exactly is it? To whom should we give, how much should we give, what is the relationship between our giving and our relationship to God? Writing for the introspective donor, congregational leader, or student interested in ways of meeting human needs, the authors focus on the philosophical or theological dimensions of giving. The contributors' goal is not to report on institutional practices, but to provide thoughtful, constructive guidance to the reader -- informed by a critical understanding of the religious traditions under review.

all dulles area muslim society adams: Religious Freedom in America Michael C. LeMay, 2018-01-12 This book provides the answers to controversial questions about religious liberties in the United States and connected issues through balanced, thorough, and nonjudgmental coverage of the issues in a reference format. Finally, how can the precarious separation of church and state be maintained while simultaneously respecting both institutions? This single-volume work provides an introduction that addresses the historical background of religious freedom in America, accurately explains the latest legal developments in religious freedom in the United States, and presents an unbiased account of the probable impact of the new Freedom of Religion laws in the continuing culture war. all dulles area muslim society adams: The Challenge of Modernizing Islam Christine Douglass-Williams, 2019-01-15 The entire foreign policy and much of the domestic policy of the United States and other Western governments is based on the proposition that the vast majority of Muslims are moderate and peaceful, including those who are emigrating in large numbers to Europe and North America. But as Islamist groups and many mosques radicalize peaceful Muslims and appeal to the teachings of the Koran, Hadith, and Sunnah, it is imperative for moderates and reformists to articulate a vision of Islam and an exegesis of Islamic texts that can withstand the challenge of Islamists and the ulema who have declared the sanctity and immutability of the text. Instead, they must reestablish a firm foundation of Islam that is modernized, genuinely peaceful, tolerant, pluralistic, and compatible with secular governance, the freedom of speech, human rights, and equality. The Challenge of Modernizing Islam is the first major effort to provide that foundation.

Veteran journalist Christine Douglass-Williams interviews foremost moderate and reformist Muslims in the Western world. She asks them tough questions about how they deal with problematic Koran passages, how they intend to get their message across to the Muslim world, and more. Their answers are revelatory, even in the ways in which they disagree with one another.

Douglass-Williams has captured the Islamic Reformist movement in its full intellectual ferment, laying bare the tensions and triumphs of the Reformers. In the book's second half, she adds a crucial series of searingly honest and illuminating reflections on the challenges the reformers face, the chances they have of succeeding, and the implications of their struggle for the future of the Western world and of all free people. Illuminating, engaging, and thought-provoking, *The Challenge of Modernizing Islam* is an essential text for understanding the future of the United States and the West, and the implications of Muslim moderates' struggle for the free world.

In *Memoirs of an Ordinary Guy*, Daniel asserts that we are all capable of being extraordinary and redefines what it means to be just another ordinary person. He is living proof that extraordinary is there for all of us. It doesn't mean rich or famous. It doesn't mean better. To Daniel, "extraordinary" means grateful, honest, happy, loving, fearless, and faithful. Doing extraordinary things is not what makes us extraordinary. Being extraordinary is having an extraordinary perspective on our lives and the things that happen to us. Daniel's narrative will inspire everyone to view their lives differently, remind us of the stories that we all share, and spark a renewed curiosity about a world that's anything but ordinary.

all dulles area muslim society adams: *Islamophobia and Racism in America* Erik Love, 2017-05-23 Choice Top Book of 2017 Confronting and combating Islamophobia in America. Islamophobia has long been a part of the problem of racism in the United States, and it has only gotten worse in the wake of shocking terror attacks, the ongoing refugee crisis, and calls from public figures like Donald Trump for drastic action. As a result, the number of hate crimes committed against Middle Eastern Americans of all origins and religions have increased, and civil rights advocates struggle to confront this striking reality. In *Islamophobia and Racism in America*, Erik Love draws on in-depth interviews with Middle Eastern American advocates. He shows that, rather than using a well-worn civil rights strategy to advance reforms to protect a community affected by racism, many advocates are choosing to bolster universal civil liberties in the United States more generally, believing that these universal protections are reliable and strong enough to deal with social prejudice. In reality, Love reveals, civil rights protections are surprisingly weak, and do not offer enough avenues for justice, change, and community reassurance in the wake of hate crimes, discrimination, and social exclusion. A unique and timely study, *Islamophobia and Racism in America* wrestles with the disturbing implications of these findings for the persistence of racism—including Islamophobia—in the twenty-first century. As America becomes a "majority-minority" nation, this strategic shift in American civil rights advocacy signifies challenges in the decades ahead, making Love's findings essential for anyone interested in the future of universal civil rights in the United States.

all dulles area muslim society adams: *Sacred Journeys* Michael J. Kurtz PhD, 2018-01-09 Spiritual needs are as ancient as humankind. Just as ancient is the impulse and the imperative to respond to those in distress. The need for healing is universal. So is the empowerment that love for others, for ourselves, and for God can bring. The great Abrahamic faiths of Judaism, Christianity, and Islam have profound lessons rooted in deep spiritual understanding for those who suffer and for

those who seek to bring a healing touch. *Sacred Journeys: Ecumenical Perspectives on Spiritual Care* draws from these faith traditions to provide a hopeful collection of inspirational essays on spiritual caregiving, with essayists who were themselves led by the spirit to offer spiritual care in parishes, in hospitals, at schools, on the streets, and in locales near and far. They show us that with Gods help, rigorous training, and the willingness to learn from our struggles and doubts, it is possible to be a force for healing and good in this world. Regardless of our background or calling, we can be inspired to take a leap of faith in reaching out to others. We are all called to take the risk of listening to the pain and fear of others, to risk the opening of our hearts, and to be ambassadors of Gods love to a hurting world. This path is not easy, but there is a joy and a sense of peace that radiates from the experiences of those who have walked the path before us.

all dulles area muslim society adams: 'Til Faith Do Us Part Naomi Schaefer Riley, 2013-03-04 In the last decade, 45% of all marriages in the U.S. were between people of different faiths. The rapidly growing number of mixed-faith families has become a source of hope, encouraging openness and tolerance among religious communities that historically have been insular and suspicious of other faiths. Yet as Naomi Schaefer Riley demonstrates in *'Til Faith Do Us Part*, what is good for society as a whole often proves difficult for individual families: interfaith couples, Riley shows, are less happy than others and certain combinations of religions are more likely to lead to divorce. Drawing on in-depth interviews with married and once-married couples, clergy, counselors, sociologists, and others, Riley shows that many people enter into interfaith marriages without much consideration of the fundamental spiritual, doctrinal, and practical issues that divide them. Couples tend to marry in their twenties and thirties, a time when religion diminishes in importance, only to return to faith as they grow older and raise children, suffer the loss of a parent, or experience other major life challenges. Riley suggests that a devotion to diversity as well as to a romantic ideal blinds many interfaith couples to potential future problems. Even when they recognize deeply held differences, couples believe that love conquers all. As a result, they fail to ask the necessary questions about how they will reconcile their divergent worldviews-about raising children, celebrating holidays, interacting with extended families, and more. An obsession with tolerance at all costs, Riley argues, has made discussing the problems of interfaith marriage taboo. *'Til Faith Do*

Us Part is a fascinating exploration of the promise and peril of interfaith marriage today. It will be required reading not only for interfaith couples or anyone considering interfaith marriage, but for all those interested in learning more about this significant, yet understudied phenomenon and the impact it is having on America.

David Gregory, 2016-09-13 Join former NBC newsman and Meet the Press moderator David Gregory as he probes various religious traditions to better understand his own faith and answer life's most important questions: who do we want to be and what do we believe? While David was covering the White House, he had the unusual experience of being asked by President George W. Bush How's your faith? David's answer was just emerging. Raised by a Catholic mother and a Jewish dad, he had a strong sense of Jewish cultural and ethnic identity, but no real belief-until his marriage to a Protestant woman of strong faith inspired him to explore his spirituality for himself and his growing family. He's gone deep into Bible study and asked tough questions of America's most thoughtful religious leaders, including evangelical preacher Joel Osteen and Cardinal Timothy Dolan, the Catholic Archbishop of New York. all dulles area muslim society adams: Objective Troy Scott Shane, 2016-09-13 Objective Troy tells the gripping and unsettling story of Anwar al-Awlaki, the once-celebrated American imam who called for moderation after 9/11, a man who ultimately directed his outsized talents to the mass murder of his fellow citizens. It follows Barack Obama's campaign against the excesses of the Bush counterterrorism programs and his eventual embrace of the targeted killing of suspected militants. And it recounts how the president directed the mammoth machinery of spy agencies to hunt Awlaki down in a frantic, multi-million-dollar pursuit that would end with the death of Awlaki by a bizarre, robotic technology that is changing warfare—the drone. Scott Shane, who has covered terrorism for The New York Times over the last decade, weaves the clash between president and terrorist into both a riveting narrative and a deeply human account of the defining conflict of our era. Awlaki, who directed a plot that almost derailed Obama's presidency, and then taunted him from his desert hideouts, will go down in history as the first United States citizen deliberately hunted and assassinated by his own government without trial. But his eloquent calls to jihad, amplified by YouTube, continue to lure young Westerners into terrorism—resulting in tragedies from the Boston marathon bombing to the murder of cartoonists at a Paris weekly. Awlaki's life and death show how profoundly America has been changed by the threat of terrorism and by our own fears. Illuminating and provocative, and based on years of in depth reporting, Objective Troy is a brilliant reckoning with the moral challenge of terrorism and a masterful chronicle of our times.

all dulles area muslim society adams: Branding Humanity Amal Hassan Fadlalla, 2018-11-20 The Save Darfur movement gained an international following, garnering widespread international attention to this remote Sudanese territory. Celebrities and other notable public figures participated in human rights campaigns to combat violence in the region. But how do local activists and those throughout the Sudanese diaspora in the United States situate their own notions of rights, nationalism, and identity? Based on interviews with Sudanese social actors, activists, and their allies in the United States, the Sudan, and online, Branding Humanity traces the global story of violence and the remaking of Sudanese identities. Amal Hassan Fadlalla examines how activists contest, reshape, and reclaim the stories of violence emerging from the Sudan and their identities as migrants. Fadlalla charts the clash and friction of the master-narratives and counter-narratives circulated and mobilized by competing social and political actors negotiating social exclusion and inclusion through their own identity politics and predicament of exile. In exploring the varied and individual experiences of Sudanese activists and allies, Branding Humanity helps us see beyond the oft-monolithic international branding of conflict. Fadlalla asks readers to consider how national and transnational debates about violence circulate, shape, and re-territorialize ethnic identities, disrupt meanings of national belonging, and rearticulate notions of solidarity and global affiliations.

Muslims are compelled by their religion to praise the Creator and to care for their community. But what is not widely known is that there are deep and long-standing connections between Islamic teachings and environmentalism. In this groundbreaking book, Ibrahim Abdul-Matin draws on research, scripture, and interviews with Muslim Americans to trace Islam's preoccupation with humankind's collective role as stewards of the Earth. Abdul-Matin points out that the Prophet Muhammad declared "the Earth is a mosque." Using the concept of Deen, which means "path" or "way" in Arabic, Abdul-Matin offers dozens of examples of how Muslims can follow, and already are following, a Green Deen in four areas: "waste, watts (energy), water, and food."

all dulles area muslim society adams: *A Nation of Nations* Tom Gjelten, 2016-10-25 The dramatic and compelling story of the transformation of America during the last fifty years, told through a handful of families in one suburban county in Virginia that has been utterly changed by recent immigration. In the fifty years since the 1965 Immigration and Nationality Act, the foreign-born population of the United States has tripled. Significantly, these immigrants are not coming from Europe, as was the case before 1965, but from all corners of the globe. Today non-European immigration is ninety percent of the total immigration to the US. Americans today are vastly more diverse than ever. They look different, speak different languages, practice different religions, eat different foods, and enjoy different cultures. In 1950, Fairfax County, Virginia, was ninety percent white, ten percent African-American, with a little more than one hundred families who were 'other.' Currently the African-American percentage of the population is about the same, but the Anglo white population is less than fifty percent, and there are families of Asian, African, Middle Eastern, and Latin American origin living all over the county. *A Nation of Nations* follows the lives of a few immigrants to Fairfax County over recent decades as they gradually 'Americanize.' Hailing from Korea, Bolivia, and Libya, these families have stories that illustrate common immigrant themes: friction between minorities, economic competition and entrepreneurship, and racial and cultural stereotyping. It's been half a century since the 1965 Immigration and Nationality Act changed the landscape of America, and no book has assessed the impact or importance of this law as this one does, with its brilliant combination of personal stories and larger demographic and political issues.--Publisher information.

This is the untold story about the silent, yet extremely dangerous threat from the Muslim establishment in America?an alarming exposé of how Muslims have for years been secretly infiltrating American society, government, and culture, pretending to be peace-loving and patriotic, while supporting violent jihad and working to turn America into an Islamic state. In this powder keg of a book, you'll learn: How radical Muslims have penetrated the U.S. military, the FBI, the Homeland Security Department, and even the White House?where subversive Muslims and Arabs have received top-secret clearance. How they've infiltrated the chaplains program in the federal and state prison systems?a top recruiting ground for al-Qaida. How they've successfully run influence operations

against our political system with the help of both Democrats and Republicans, badgering corporate boards into Islamizing the workplace. How we've been utterly duped about what the Quran does and doesn't teach. Sadly, much of anti-Western terrorism is simply Islam in practice, the text of the Quran in action. In a time when religious and political leaders are scrambling to smooth over differences in faith and beliefs, this book gives the terrifying truth about the very real, very deadly agenda of Islam and how it has already infiltrated key American institutions with agents, spies, and subversives.

all dulles area muslim society adams: Passing on the Faith James L. Heft, 2009-08-25 From the beginning, the Abrahamic faiths—Judaism, Christianity, and Islam—have stressed the importance of transmitting religious identity from one generation to the next. Today, that sustaining mission has never been more challenged. Will young people have a faith to guide them? How can faith traditions anchor religious attachments in this secular, skeptical culture? The fruit of a historic gathering of scholars and religious leaders across three faiths and many disciplines, this important book reports on the religious lives of young people in today's world. It's also a unique inventory of creative and thoughtful responses from churches, synagogues, and mosques working to keep religion a significant force in those lives. The essays are grouped thematically. Opening the book, Melchor Sanchez de Toca and Nancy Ammerman explore fundamental issues that have an impact on religion—from the cultural effects of global consumerism and personal technology to pluralism and individualism. In Part Two, leading investigators present three leading studies of religiosity among young people and college students in the United States, illuminating the gap between personal values and organized religion—and the emergence of new, different forms of spirituality and faith. How religious institutions deal with these challenges forms the heart of the book—in portraits of “best practices” developed to revitalize traditional institutions, from a synagogue in New York City and a Muslim youth camp in California to the famed French Catholic community of the late Brother John of Taizé. Finally, Jack Miles and Diane Winston weave the findings into a broader perspective of the future of religious belief, practice, and feeling in a changing world. Filled with real-world wisdom, *Passing the Faith* will be an essential resource for anyone seeking to understand what religions must, and can, do to inspire a vigorous faith in the next generation.

all dulles area muslim society adams: Muslims in a Post-9/11 America Rachel M. Gillum, 2018-07-27 *Muslims in a Post-9/11 America* examines how public fears about Muslims in the United States compare with the reality of American Muslims' attitudes on a range of relevant issues. While most research on Muslim Americans focuses on Arab Muslims, a quarter of the Muslim American population, Rachel Gillum includes perspectives of Muslims from various ethnic and national communities—from African Americans to those of Pakistani, Iranian, or Eastern European descent. Using interviews and one of the largest nationwide surveys of Muslim Americans to date, Gillum examines more than three generations of Muslim American immigrants to assess how segments of the Muslim American community are integrating into the U.S. social fabric, and how they respond to post-9/11 policy changes. Gillum's findings challenge perceptions of Muslims as a homogeneous, isolated, un-American, and potentially violent segment of the U.S. population. Despite these realities, negative political rhetoric around Muslim Americans persists. The findings suggest that the policies designed to keep America safe from terrorist attacks may have eroded one of law enforcement's greatest assets in the fight against violent extremism—a relationship of trust and goodwill between the Muslim American community and the U.S. government. Gillum argues for policies and law enforcement tactics that will bring nuanced understandings of this diverse category of Americans and build trust, rather than alienate Muslim communities.

all dulles area muslim society adams: The Practice of Islam in America Edward E Curtis IV, 2019-09-10 An introduction to the ways in which ordinary Muslim Americans practice their faith. Muslims have always been part of the United States, but very little is known about how Muslim Americans practice their religion. How do they pray? What's it like to go on pilgrimage to Mecca? What rituals accompany the birth of a child, a wedding, or the death of a loved one? What holidays do Muslims celebrate and what charities do they support? How do they learn about the Qur'an? The Practice of Islam in America introduces readers to the way Islam is lived in the United States, offering vivid portraits of Muslim American life passages, ethical actions, religious holidays, prayer, pilgrimage, and other religious activities. It takes readers into homes, religious congregations, schools, workplaces, cemeteries, restaurants—and all the way to Mecca—to understand the diverse religious practices of Muslim Americans. Going beyond a theoretical discussion of what Muslims are supposed to do, this volume focuses on what they actually do. As the volume reveals, their religious practices are shaped by their racial and ethnic identity, their gender and sexual orientation, and their sectarian identity, among other social factors. Readers gain practical information about Islamic religion while also coming to understand how the day-to-day realities of American life shape Muslim American practice.

all dulles area muslim society adams: Christianity, Islam, and the West Robert A. Burns, 2011-12-01 This book has its origins in a comparative religions course Burns has taught at the University of Arizona for the past thirty years. Those who have enrolled in the class have come from diverse religious and cultural backgrounds. Whatever the mix, a shared curiosity about Christianity, Judaism, and Islam has always been present. Since the 9/11 attacks on the World Trade Center and the Pentagon, students-as well as the general public-are especially interested in Islam. Like many Americans, they have little or no knowledge of the Islamic religion. This work touches upon the origins and central teachings of the Islamic religion and discusses the commonalities and differences between Islam and Christianity. Throughout the book, Burns poses and answers the kinds of questions most frequently asked by his students. This approach will be helpful to students in comparative religions courses, as well as other individuals interested in the connections between Christianity and Islam. The purpose of this book is to help alleviate the misinformation surrounding Islam and Christianity and to inspire a dialogue between the two religions. Such communication will, the author hopes, help promote justice and peace throughout the world.

all dulles area muslim society adams: Multicultural America Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U.S. Census data to examine multiculturalism today and tomorrow in America. This distinction is important considering the following NPR report by Eyder Peralta: Based on the first national numbers released by the Census Bureau, the AP reports that minorities account for 90 percent of the total U.S. growth since 2000, due to immigration and higher birth rates for Latinos. According to John Logan, a Brown University sociologist who has analyzed most of the census figures, The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations. Both non-Hispanic whites and blacks are getting older as a group. These groups are tending to fade out, he added. Another demographer, William H. Frey with the Brookings Institution, told The Washington Post that this has been a pivotal decade. We're pivoting from a white-black-dominated American population to one that is multiracial and multicultural. *Multicultural America: A Multimedia Encyclopedia* explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today. Pedagogical elements include an introduction, a thematic reader's guide, a chronology of multicultural milestones, a glossary, a resource guide to key books, journals, and Internet sites, and an appendix of 2010 U.S. Census Data. Finally, the electronic version will be the only reference work on this topic to augment written entries with multimedia for today's students, with 100 videos (with transcripts) from Getty Images and Video Vault, the Agence France Press, and Sky News, as reviewed by the media librarian of the Rutgers University Libraries, working in concert with the title's editors.

all dulles area muslim society adams: We Refuse to Be Enemies Sabeeha Rehman, Walter Ruby, 2021-04-20 For readers of *The Faith Club*, *Sons of Abraham*, and *The Anatomy of Peace*, a call for mutual understanding and lessons for getting there *We Refuse to Be Enemies* is a manifesto by two American citizens, a Muslim woman and Jewish man, concerned with the rise of intolerance and bigotry in our country along with resurgent white nationalism. Neither author is an imam, rabbi, scholar, or community leader, but together they have spent decades doing interfaith work and nurturing cooperation among communities. They have learned that, through face-to-face encounters, people of all backgrounds can come to know the Other as a fellow human being and turn her or him into a trusted friend. In this book, they share their experience and guidance. Growing up in Pakistan before she immigrated to the United States, Sabeeha never met a Jew, and her view was colored by the Israeli-Palestinian conflict. In his youth, Walter never met a Muslim, and his opinion was shaped by Leon Uris's *Exodus*. Yet together they have formed a friendship and collaboration. Tapping their own life stories and entering into dialogue within the book, they explain how they have found commonalities between their respective faiths and discuss shared principles and lessons, how their perceptions of the Other have evolved, and the pushback they faced. They wrestle with the two elephants in the room: the Israeli-Palestinian conflict and polarizing material in their holy texts and history. And they share their vision for reconciliation, offering concrete principles for building an alliance in support of religious freedom and human rights. As members of the two largest minority faith communities in America, we must stand together at a portentous moment in American history. Neither of our communities will be able to prosper in an America characterized by xenophobia and bigotry."—Sabeeha Rehman and Walter Ruby

all dulles area muslim society adams: Islamic Divorce in North America Julie Macfarlane, 2012-04-30 Policy-makers and the public are increasingly attentive to the role of shari'a in the everyday lives of Western Muslims, with negative associations and public fears growing among their non-Muslim neighbors in the United States and Canada. The most common way North American Muslims relate to shari'a is in their observance of Muslim marriage and divorce rituals; recourse to traditional Islamic marriage and, to a lesser extent, divorce is widespread. Julie Macfarlane has conducted hundreds of interviews with Muslim couples, as well as with religious and community leaders and family conflict professionals. Her book describes how Muslim marriage and divorce processes are used in North America, and what they mean to those who embrace them as a part of their religious and cultural identity. The picture that emerges is of an idiosyncratic private ordering system that reflects a wide range of attitudes towards contemporary family values and changes in gender roles. Some women describe pervasive assumptions about restrictions on their role in the family system, as well as pressure to accept these values and to stay married. Others of both genders describe the gradual modernization of Islamic family traditions - and the subsequent emergence of a Western shari'a--but a continuing commitment to the rituals of Muslim marriage and divorce in their private lives. Readers will be challenged to consider how the secular state should respond in order to find a balance between state commitment to universal norms and formal equality, and the protection of religious freedom expressed in private religious and cultural practices.

all dulles area muslim society adams: Muslim Attitudes to Jews and Israel Moshe Ma'oz, 2011-11-02 Manifestations of hatred of Jews and Israel have risen over the last few decades in the Arab and Muslim world. But is such hatred the result of Islamic anti-Semitism? This title explains that while anti-Semitism is the credo of fanatic groups and regimes, such an attitude is not representative of traditional and contemporary Islam.
