allen bradley powerflex 40 manual: *Conquering the Mouth of the Dragon* Estralia L. Russelle, 2001-04-09 We all know individuals who, though seemingly nave about the shrewd ways of the world, ascend to the top of their professions and find peace and satisfaction in their personal lives. Admiring even envying such people, we wonder what makes their lives work. Can it be that they are tapped into an unseen power that guides them from within? *Conquering the Mouth of the Dragon* is an adventurous novel, teeming with suspense, mystery, and intrigue. Based on actual events, the characters are drawn from real people who lived through situations much like those described in the book. Constance McKenna, a feng shui designer for a major corporation in San Francisco, travels to China to attend a seminar. Her odyssey begins the moment she leaves her house on her way to the airport; mysterious and frightening events follow at a rapid pace. Her faith in herself and her belief in the powers that guide her life are tested again and again as she travels through unfamiliar places. The cast of characters in *Conquering the Mouth of the Dragon* is as cryptic as the circumstances surrounding Constance's journey. None is more baffling than Lang DeBjon, for whom Constance alternately feels suspicion and attraction. Reader even those unfamiliar with metaphysics will easily identify with the feelings of fear and determination interspersed with hopelessness. It is a story of triumph over adversity, a story of success.
