**allen lazard postgame interview:** *The Campus Rape Frenzy* KC Johnson, Stuart Taylor, Jr., 2018-05-22 In recent years, politicians led by President Obama and prominent senators and governors have teamed with extremists on campus to portray our nation's institutions of higher learning as awash in a violent crime wave—and to suggest (preposterously) that university leaders, professors, and students are indifferent to female sexual assault victims in their midst. Neither of these claims has any bearing to reality. But they have achieved widespread acceptance, thanks in part to misleading alarums from the Obama administration and biased media coverage led by The New York Times. The frenzy about campus rape has helped stimulate—and has been fanned by—ideologically skewed campus sexual assault policies and lawless commands issued by federal bureaucrats to force the nation's all-too-compliant colleges and universities essentially to presume the guilt of accused students. The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play. This book uses hard facts to set the record straight. It explores, among other things, nearly two dozen of the cases since 2010 in which students who in all likelihood would have or have subsequently been found not guilty in a court of law have, in a lopsided process, been hastily and carelessly branded as sex criminals and expelled or otherwise punished by their colleges, often after being tarred and feathered by their fellow students. And it shows why all students—and, eventually, society as a whole—are harmed when our nation's universities abandon pursuit of truth and seek instead to accommodate the passions of the mob. As detailed in the new Epilogue, some encouraging events have transpired since this book was first published in October 2016. A majority of the judicial rulings in dozens of lawsuits by male students claiming their schools treated them unfairly and discriminated against them based on their gender have rebuked the schools for their handling of these cases. And Education Secretary Betsy DeVos called for fairness to accused students and accusers alike, revoked most of the guilt-presuming Obama-era policies, and began a protracted rule-making process designed to compel procedural fairness and nondiscrimination.

**allen lazard postgame interview:** Kumba Africa Sampson Ejike Odum, 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

**allen lazard postgame interview:** **Yvain** Chretien de Troyes, 1987-09-10 The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Medicine's Michelangelo: The Life & Art of Frank H. Netter, MD, is the first biography of this illustrious figure, who is revered by generations of students of medicine. Netter was the son of working class immigrants who owned a stationery store in the theater district of New York. In his youth, all he ever wanted to do was to paint, but his mother wanted him to do something 'respectable' like being a doctor or an engineer. He finished an internship in medicine and surgery at Bellevue Hospital, but found that there was more demand for his sable brush than for his scalpel, and for the next fifty years devoted himself full time to making medical illustrations. He moved into both the glamorous New York art world and intellectual medical circles. He lived in opulent homes on Long Island and in Palm Beach, lunched at the Society of Illustrators with the likes of Norman Rockwell and Rube Goldberg, and at the great teaching hospitals consulted with hundreds of medical experts, among them Drs. Michael DeBakey, C. Everett Koop, Albert Sabin, and Paul Dudley White. Frank Netter single-handedly documented the great medical advances of the 20th century. Francine Mary Netter captures the character of the man, relying on her remembrances; her father's autobiographical notes, personal correspondence, and private files; publications of his work; public archives; and more than 100 interviews with family members, artists, distinguished practitioners, and scientists. Medicine's Michelangelo reveals the man behind the art.
