Now in one deluxe box set, the first four novels in the Crossfire series. The #1 New York Times bestselling author. The #1 worldwide phenomenon. Bared to You He was beautiful and brilliant, jagged and white-hot. I was drawn to him as I'd never been to anything or anyone in my life. I craved his touch like a drug, even knowing it would weaken me. I was flawed and damaged, and he opened those cracks in me so easily... Gideon knew. He had demons of his own. And we would become the mirrors that reflected each other's most private wounds... and desires. The bonds of his love transformed me, even as I prayed that the torment of our pasts didn't tear us apart... Reflected in You Gideon Cross. As beautiful and flawless on the outside as he was damaged and tormented on the inside. He was a bright, scorching flame that singed me with the darkest of pleasures. I couldn't stay away. I didn't want to. He was my addiction... my every desire... mine. My past was as violent as his, and I was just as broken. We'd never work. It was too hard, too painful... except when it was perfect. Those moments when the driving hunger and desperate love were the most exquisite insanity. We were bound by our need. And our passion would take us beyond our limits to the sweetest, sharpest edge of obsession... Entwined with You From the moment I first met Gideon Cross, I recognized something in him that I needed. Something I couldn't resist. I also saw the dangerous and damaged soul inside so much like my own. I was drawn to it. I needed him as surely as I needed my heart to beat. No one knows how much he risked for me. How much I'd been threatened, or just how dark and desperate the shadow of our pasts would become. Entwined by our secrets, we tried to defy the odds. We made our own rules and surrendered completely to the exquisite power of possession... Captivated by You Gideon calls me his angel, but he's the miracle in my life. My gorgeous, wounded warrior, so determined to slay my demons while refusing to face his own. The vows we'd exchanged should have bound us tighter than blood and flesh. Instead they opened old wounds, exposed pain and insecurities, and lured bitter enemies out of the shadows. I felt him slipping from my grasp, my greatest fears becoming my reality, my love tested in ways I wasn't sure I was strong enough to bear. At the brightest time in our lives, the darkness of his past encroached and threatened everything we'd worked so hard for. We faced a terrible choice: the familiar safety of the lives we'd had before each other or the fight for a future that suddenly seemed an impossible and hopeless dream...

alodia gosiengfiao parents business: **Colonial Counterpoint** D. R. M. Irving, 2010-06-03 Named one of BBC History Magazine's Books of the Year in 2010 In this groundbreaking study, D. R. M. Irving reconnects the Philippines to current musicological discourse on the early modern Hispanic world. For some two and a half centuries, the Philippine Islands were firmly interlinked to Latin America and Spain through transoceanic relationships of politics, religion, trade, and culture. The city of Manila, founded in 1571, represented a vital intercultural nexus and a significant conduit for the regional diffusion of Western music. Within its ethnically diverse society, imported and local musics played a crucial role in the establishment of ecclesiastical hierarchies in the Philippines and in propelling the work of Roman Catholic missionaries in neighboring territories. Manila's religious institutions resounded with sumptuous vocal and instrumental performances, while an annual calendar of festivities brought together many musical traditions of the indigenous and immigrant populations in complex forms of artistic interaction and opposition. Multiple styles and genres coexisted according to strict regulations enforced by state and ecclesiastical authorities, and Irving uses the metaphors of European counterpoint and enharmony to critique musical practices within the colonial milieu. He argues that the introduction and institutionalization of counterpoint acted as

a powerful agent of colonialism throughout the Philippine Archipelago, and that contrapuntal structures were reflected in the social and cultural reorganization of Filipino communities under Spanish rule. He also contends that the active appropriation of music and dance by the indigenous population constituted a significant contribution to the process of hispanization. Sustained enharmonic engagement between Filipinos and Spaniards led to the synthesis of hybrid, syncretic genres and the emergence of performance styles that could contest and subvert hegemony. Throwing new light on a virtually unknown area of music history, this book contributes to current understanding of the globalization of music, and repositions the Philippines at the frontiers of research into early modern intercultural exchange.

alodia gosiengfiao parents business: Down from the Hill Cristina Montiel, Susan Evangelista, 2005 Recent times have seen a worldwide human urge to remember and speak about even the most painful moments of authoritarian regimes, using the memory process for both healing and learning. In this first book on the Ateneo de Manila during martial law, we re-live memories of the university from 1972 to 1982, shedding light on what used to be whispered stories of campus subversion and student arrests. The essays in this book deal with the student movement in the late 1960s and early 1970s, and then with actions, conflicts, and unities within the school. Subsequent chapters cover student publications, organizations, and ideological involvements. Other sections of the book highlight the participation of faculty, administration, social development professionals, and the Jesuit community in university activism. The last chapter serves as an epilogue, linking the deepening social involvement of the Ateneo of the 1970s with the political struggles of the early 1980s. The book also contains vignettes from former students, faculty, administrators, professionals and Jesuits who write about their memories of the period. Some relevant documents which are cited in the book and mark the era, but which are often difficult to access, have also been assembled as appendices.

In these vivid and revealing interviews, a collection of filmmakers as diverse as the Coen brothers and Ken Loach, Ang Lee and Kevin Smith, Anthony Minghella and Gary Oldman, Neil Jordan and Mira Nair talk in extraordinary detail and with amazing candor about making their first films. Each chapter focuses on a director's celebrated debut--be it *Angel* or *Blood Simple*, *Clerks* or *Diner*, *Muriel's Wedding* or *Truly, Madly, Deeply*--and tells the inside story: from writing the script to raising the money, from casting the actors to assembling the crew, from shooting to editing, from selling the movie to screening it. Along the way, every aspect of the movie industry is explored: from dealing with agents and moguls for the first time to pitching your movie as a debutante director, from languishing in development hell to confronting test audiences from hell. The questions have been posed by Stephen Lowenstein, a young director with two acclaimed short films to his credit. Remembering the struggle to launch

their careers, the directors have opened up about their first films and themselves to an unprecedented degree. Each chapter is not only a memoir of a particular movie, but also an emotional journey in which the director relives the pain and elation, the comedy and tragedy, of making a first feature. For anyone who wants to direct movies, these tales of triumph and disaster, of sleepless nights and nail-biting days, will be enthralling and terrifying in equal measure. For all other film fans, the interviews provide fascinating and entertaining insights into filmmakers who have become household names.

Almost anyone with a \$40 mobile phone and a nearby cell tower can get online with an ease unimaginable just twenty years ago. An optimistic narrative has proclaimed the mobile phone as the device that will finally close the digital divide. Yet access and effective use are not the same thing, and the digital world does not run on mobile handsets alone. In *After Access*, Jonathan Donner examines the implications of the shift to a more mobile, more available Internet for the global South, particularly as it relates to efforts to promote socioeconomic development and broad-based inclusion in the global information society. Drawing on his own research in South Africa and India, as well as the burgeoning literature from the ICT4D (Internet and Communication Technologies for Development) and mobile communication communities, Donner introduces the "After Access Lens," a conceptual framework for understanding effective use of the Internet by those whose "digital repertoires" contain exclusively mobile devices. Donner argues that both the potentialities and constraints of the shift to a more mobile Internet are important considerations for scholars and practitioners interested in Internet use in the global South.

Elliott, 2013-10-24 Game Studies is a rapidly growing area of contemporary scholarship, yet volumes in the area have tended to focus on more general issues. With *Playing with the Past*, game studies is taken to the next level by offering a specific and detailed analysis of one area of digital game play -- the representation of history. The collection focuses on the ways in which gamers engage with, play with, recreate, subvert, reverse and direct the historical past, and what effect this has on the ways in which we go about constructing the present or imagining a future. What can World War Two strategy games teach us about the reality of this complex and multifaceted period? Do the possibilities of playing with the past change the way we understand history? If we embody a colonialist's perspective to conquer 'primitive' tribes in *Colonization*, does this privilege a distinct way of viewing history as benevolent intervention over imperialist expansion? The fusion of these two fields allows the editors to pose new questions about the ways in which gamers interact with their game worlds. Drawing these threads together, the collection concludes by asking whether digital games - which represent history or historical change - alter the way we, today, understand history itself.

Drawing on ethnographic studies of both patients and nurses involved in telecare, Jeannette Pols demonstrates that instead of resulting in less intensive care for patients, there is instead a staggering rise in the frequency of contact between nursing staff and their patients. Care at a Distance takes the theoretical framework of telecare and provides hard data about these innovative care practices, while producing an accurate portrayal of the pros and cons of telecare.

But rather than simply imitate or borrow from the West, the Japanese reinterpret and transform Western products and practices to suit their culture. This entertaining and enlightening book shows how in the process of domesticating foreign goods and customs, the Japanese have created a culture in which once-exotic practices (such as ballroom dancing) have become familiar, and once-familiar practices (such as public bathing) have become exotic. Written by scholars from anthropology, sociology, and the humanities, the book ranges from analyses of Tokyo Disneyland and the Japanese passion for the Argentinean tango to discussions of Japanese haute couture and the search for an authentic nouvelle cuisine japonaise. These topics are approached from a variety of perspectives, with explorations of the interrelations of culture, ideology, and national identity and analyses of the roles that gender, class, generational, and regional differences play in the patterning of Japanese consumption. The result is a fascinating look at a dynamic society that is at once like and unlike our own.

Within a month, he was receiving letters and emails from teachers, mechanics, sales reps, vicars, schoolchildren and pensioners - all pledging allegiance to his cause. But no one knew what his cause was. Soon he was proclaimed Leader. Increasingly obsessed and possibly power-crazed Danny risked losing his sanity and his loyal girlfriend. But who could deny the attraction of a global following of devoted joiners? A book about dreams, ambition and the responsibility that comes with power, Join Me is the true story of a man who created a cult by accident, and is proof that whilst some men were born to lead, others really haven't got a clue.

Penelope Francks' book offers an alternative account of Japan's modern economic history from the perspective of the consumer. Tracing Japan's economy from the eighteenth century to the present, she shows how history has conditioned what Japanese people consume and compares their experiences with those of Europe and North America. In so doing the author presents a lucid and informed account of everyday life in Japan, exploring what people eat, how they dress, the household goods they acquire, and their preferred shopping and leisure activities. This beautifully illustrated book succeeds in making economic history palatable and entertaining. It will be a treat for students and all those interested in Japanese society and culture.
