aloft bengaluru cessna business park: Kashmiri Life Narratives Rakhshan Rizwan, 2020-04-19 Kashmiri Life Narratives takes as its central focus writings -- memoirs, non-fictional and fictional Bildungsromane -- published circa 2008 by Kashmiris/Indians living in the Valley of Kashmir, India or in the diaspora. It offers a new perspective on these works by analyzing them within the framework of human rights discourse and advocacy. Literature has been an important medium for promoting the rights of marginalized Kashmiri subjects within Indian-occupied Kashmir, successfully putting Kashmir back on the global map and shifting discussion about Kashmir from the political board rooms to the international English-language book market. In discussing human rights

advocacy through literature, this book also effects a radical change of perspective by highlighting positive rights (to enjoy certain things) rather than negative ones (to be spared certain things). Kashmiri life narratives deploy a language of pleasure rather than of physical pain to represent the state of having and losing rights.

aloft bengaluru cessna business park: Killing the Rising Sun Bill O'Reilly, Martin Dugard, 2016-09-13 The powerful and riveting new book in the multimillion-selling Killing series by Bill O'Reilly and Martin Dugard Autumn 1944. World War II is nearly over in Europe but is escalating in the Pacific, where American soldiers face an opponent who will go to any length to avoid defeat. The Japanese army follows the samurai code of Bushido, stipulating that surrender is a form of dishonor. Killing the Rising Sun takes readers to the bloody tropical-island battlefields of Peleliu and Iwo Jima and to the embattled Philippines, where General Douglas MacArthur has made a triumphant return and is plotting a full-scale invasion of Japan. Across the globe in Los Alamos, New Mexico, Dr. J. Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind. In Washington, DC, FDR dies in office and Harry Truman ascends to the presidency, only to face the most important political decision in history: whether to use that weapon. And in Tokyo,

Emperor Hirohito, who is considered a deity by his subjects, refuses to surrender, despite a massive and mounting death toll. Told in the same page-turning style of *Killing Lincoln*, *Killing Kennedy*, *Killing Jesus*, *Killing Patton*, and *Killing Reagan*, this epic saga details the final moments of World War II like never before.

aloft bengaluru cessna business park: *Reinventing the Propeller* Jeremy R. Kinney, 2017-03-24 An international community of specialists reinvented the propeller during the Aeronautical Revolution, a vibrant period of innovation in North America and Europe from World War I to the end of World War II. They experienced both success and failure as they created competing designs that enabled increasingly sophisticated and 'modern' commercial and military aircraft to climb quicker and cruise faster using less power. *Reinventing the Propeller* nimbly moves from the minds of these inventors to their drawing boards, workshops, research and development facilities, and factories, and then shows us how their work performed in the air, both commercially and militarily. *Reinventing the Propeller* documents this story of a forgotten technology to reveal new perspectives on engineering, research and development, design, and the multi-layered social, cultural, financial, commercial, industrial, and military infrastructure of aviation.
