alpha kappa psi fraternal exam: Brothers and Sisters Craig LaRon Torbenson, Gregory Parks, 2009 The 1950s are arguably the watershed era in the civil rights movement with the landmark Supreme Court decision of Brown v. Board of Education in 1954, the Montgomery Bus Boycott in 1955, and the desegregation of Little Rock (Arkansas) High School in 1957. It was during this period--1955 to be exact--that sociologist Alfred M. Lee published his seminal work *Fraternities without Brotherhood: A Study of Prejudice on the American Campus*. Lee's book was the first and last book to explore diversity within college fraternal groups. More than fifty years later, Craig L. Torbenson and Gregory S. Parks revisit this issue more broadly in their edited volume *Brothers and Sisters: Diversity in College Fraternities and Sororities*. This volume draws from a variety of disciplines in an attempt to provide a holistic analysis of diversity within collegiate fraternal life. It also brings a wide range of scholarly approaches to the inquiry of diversity within college fraternities and sororities. It explores not only from whence these groups have come but where they are currently situated and what issues arise as they progress.

events of the African Diaspora, spanning five continents and five centuries. The field of African Diaspora studies is rapidly growing. Until now there was no single, authoritative source for information on this broad, complex discipline. Drawing on the work of over 300 scholars, this encyclopedia fills that void. Now the researcher, from high school level up, can go to a single reference for information on the historical, political, economic, and cultural relations between people of African descent and the rest of the world community. Five hundred years of relocation and dislocation, of assimilation and separation have produced a rich tapestry of history and culture into which are woven people, places, and events. This authoritative, accessible work picks out the strands of the tapestry, telling the story of diverse peoples, separated by time and distance, but retaining a commonality of origin and experience. Organized in A-Z sections covering global topics, country of origin, and destination country, the work is designed for easy use by all.
