We delve into the station's programming, target audience, challenges in the evolving media landscape, and potential strategies for future success.

Introduction:

AM560 Chicago's Morning Answer, a prominent player in Chicago's conservative talk radio landscape, occupies a unique space in the city's media ecosystem. This examination explores the station's position, analyzing both its triumphs and struggles in attracting and retaining listeners in a fiercely competitive market. We will investigate the challenges presented by evolving media consumption habits, the impact of digital platforms, and the strategies AM560 could employ to enhance its reach and relevance.

Understanding AM560 Chicago's Morning Answer's Target Audience:

AM560 Chicago's Morning Answer primarily targets a conservative-leaning audience in the Chicago metropolitan area. This demographic typically consists of older, affluent individuals who value traditional values and a specific political viewpoint. Understanding this target audience is crucial to assessing the station's programming strategy and its overall success. However, relying solely on this demographic presents a challenge in an increasingly diverse and politically fragmented city.

Challenges Faced by AM560 Chicago's Morning Answer:

Declining Radio Listenership: The overall decline in traditional radio listenership, particularly among younger demographics, presents a significant challenge. AM560 needs to adapt to attract a younger audience while maintaining its core listeners.

Competition from Other Media: The rise of podcasts, streaming services, and online news sources offers listeners a plethora of alternative choices, creating a highly competitive media landscape. AM560 Chicago's Morning Answer must differentiate itself from these competitors.

Maintaining Relevance in a Changing Political Climate: The highly polarized political climate demands adaptability. While catering to a conservative audience is a key strategy, AM560 needs to avoid alienating potential listeners through overly partisan programming. Finding a balance

between engaging its core audience and broadening its appeal is crucial.

Digital Strategy and Technological Adaptation: Effectively utilizing digital platforms such as social media, podcasts, and streaming services is critical for reaching a wider audience. AM560's success hinges on its ability to seamlessly integrate these technologies into its broadcasting strategy. A lack of a strong digital presence could lead to a significant loss of potential listeners.

Maintaining Quality Programming and Talent: Securing and retaining high-quality on-air talent is paramount. The hosts' ability to engage listeners, present compelling discussions, and remain relevant are critical factors determining the station's success.

Opportunities for AM560 Chicago's Morning Answer:

Leveraging the Power of Digital Platforms: Creating a robust online presence through a well-maintained website, active social media accounts, and potentially a podcast spin-off could dramatically expand AM560 Chicago's Morning Answer's reach beyond its traditional radio listeners.

Diversification of Programming: While maintaining its core conservative focus, exploring diverse content formats, including interviews with a broader range of perspectives and incorporating local issues, could attract a wider audience.

Community Engagement: Actively engaging with the community through events, sponsorships, and partnerships can strengthen the station's connection with its listeners and foster a sense of loyalty.

Strategic Partnerships: Collaborations with other media outlets, businesses, or community organizations could create synergistic opportunities for increased exposure and audience engagement.

Data-Driven Programming: Utilizing listener data to inform programming decisions can ensure that AM560 Chicago's Morning Answer remains relevant and responsive to the evolving needs and interests of its audience.

Conclusion:

AM560 Chicago's Morning Answer faces significant challenges in the dynamic media landscape. However, by embracing digital strategies, diversifying programming, engaging with the community, and leveraging data-driven decision-making, the station has the potential to not only survive but thrive. The key to its long-term success lies in its ability to adapt, innovate, and maintain a strong connection with its audience while strategically expanding its reach.

am560 chicagos morning answer: *What Next, Chicago?* Matt Rosenberg, 2021-09-14 Our nation's big cities are broken. Urban progressive government badly undermines those it claims to lift up. Matt Rosenberg lived in Chicago for thirty years, and came back to live there again amidst the turmoil of 2020. *What Next, Chicago?* Notes of a Pissed-Off Native Son exposes the roots of Chicago's violent crime, failing courts and schools, rotten finances, and ongoing Black exodus, and proposes a rescue plan for this emblematic American city. "What has happened to Chicago? That's Matt Rosenberg's question, and mine as well. His loving tribute to our hometown is a moving, sensitive, humane, and trenchant critical assessment. Read it and weep." —Glenn C. Loury, Professor of the Social Sciences at Brown University, and author of *One By One from the Inside Out: Essays and Reviews on Race and Responsibility in America* "Matt Rosenberg writes about the Chicago Way in the Chicago Style of a Mike Royko.... It's a coherent, honest, and balanced tour of the city's perpetual corruption, unsafe streets, gawd-awful schools, ghost neighborhoods, financial legerdemain, and the false Unified Theory of Systemic Racism that cloaks it all. Yet, *What Next, Chicago?* is no helpless, hopeless wail, but a powerful and useful roadmap for a rebirth of a once-great city, based on the voices of Black families and others who don't need academia to know what to do. Must reading for Chicago lovers." —Dennis Byrne, former Chicago Sun-Times editorial board member

am560 chicagos morning answer: *Race Crazy* Charles Love, 2021-11-09 When did America become obsessed with racial differences? After decades of progress healing real-world prejudices and anger, we suddenly live in an America where we're expected to view every single thing through the lens of race. Children are taught the politics of racial resentment and fear in schools. Films, novels, and even comic books are judged by the color of their protagonists—and their adherence to the latest "woke" messaging. Corporate America has universally adopted the slogan "Black Lives Matter" in every piece of marketing, those words serving as a talisman to protect them from Twitter mobs and outraged activists. And the 1619 Project and similar pieces of academic propaganda seek to redefine and undermine the very notion of America as a unified and great nation. Meanwhile, organized BLM advances a radical and dangerous political agenda which, if enacted, would mean the end of the American experiment as we know it. The nation faces a pivotal moment: will we reject the Race Crazies, or let them destroy us?

am560 chicagos morning answer: *Hollowed Out* Jeremy S. Adams, 2021-08-03 Do teachers have a front row seat to America's decline? Jeremy S. Adams, a teacher at both the high school and college levels, thinks so. Adams has spent decades trying to instill wisdom, ambition, and a love of learning in his students. And yet, as he notes, when teachers get together, they often share an arresting conclusion: Something has gone terribly wrong. Something essential is missing in our young people. Their curiosity seems stunted, their reason undeveloped, their values uninformed, their knowledge lacking, and most worrying of all, their humanity diminished. Digital hermits of a sort unfamiliar to an older generation, they have little interest in marriage and family. They largely dismiss—and are shockingly ignorant of—religion. They sneer at patriotism, sympathize with riots and vandalism, and regard American society and civilization as so radically flawed that it must be dismantled. Often friendless and depressed, they eat alone, study alone, and even "socialize" alone. Educators like Adams see a generation slipping away. The problems that have hollowed out our young people have been festering for years. A year of COVID-19 lockdowns and social distancing have magnified them. The result could be a generation—and our nation's future—lost in a miasma of alienation and stupefaction. In his stunning new book, *Hollowed Out*, Jeremy S. Adams reveals why students have rejected the wisdom, culture, and institutions of Western civilization—and what we can do to win them back. Poignant, frightening, and yet inspiring, this is a book for every parent, teacher, and patriot concerned for our young people and our country

am560 chicagos morning answer: The Dumbest Generation Grows Up Mark Bauerlein, 2022-02-01 From Stupefied Youth to Dangerous Adults Back in 2008, Mark Bauerlein was a voice crying in the wilderness. As experts greeted the new generation of “Digital Natives” with extravagant hopes for their high-tech future, he pegged them as the “Dumbest Generation.” Today, their future doesn’t look so bright, and their present is pretty grim. The twenty-somethings who spent their childhoods staring into a screen are lonely and purposeless, unfulfilled at work and at home. Many of them are even suicidal. The Dumbest Generation Grows Up is an urgently needed update on the Millennials, explaining their not-so-quiet desperation and, more important, the threat that their ignorance poses to the rest of us. Lacking skills, knowledge, religion, and a cultural frame of reference, Millennials are anxiously looking for something to fill the void. Their mentors have failed them. Unfortunately, they have turned to politics to plug the hole in their souls. Knowing nothing about history, they are convinced that it is merely a catalogue of oppression, inequality, and hatred. Why, they wonder, has the human race not ended all this injustice before now? And from the depths of their ignorance rises the answer: Because they are the first ones to care! All that is needed is to tear down our inherited civilization and replace it with their utopian aspirations. For a generation unacquainted with the constraints of human nature, anything seems possible. Having diagnosed the malady before most people realized the patient was sick, Mark Bauerlein surveys the psychological and social wreckage and warns that we cannot afford to do this to another generation.

am560 chicagos morning answer: The Elements of Choice Eric J. Johnson, 2021-10-12 A leader in decision-making research reveals how choices are designed—and why it’s so important to understand their inner workings Every time we make a choice, our minds go through an elaborate process most of us never even notice. We’re influenced by subtle aspects of the way the choice is presented that often make the difference between a good decision and a bad one. How do we overcome the common faults in our decision-making and enable better choices in any situation? The answer lies in more conscious and intentional decision design. Going well beyond the familiar concepts of nudges and defaults, The Elements of Choice offers a comprehensive, systematic guide to creating effective choice architectures, the environments in which we make decisions. The designers of decisions need to consider all the elements involved in presenting a choice: how many options to offer, how to present those options, how to account for our natural cognitive shortcuts, and much more. These levers are unappreciated and we’re often unaware of just how much they influence our reasoning every day. Eric J. Johnson is the lead researcher behind some of the most well-known and cited research on decision-making. He draws on his original studies and extensive work in business and public policy and synthesizes the latest research in the field to reveal how the structure of choices affects outcomes. We are all choice architects, for ourselves and for others. Whether you’re helping students choose the right school, helping patients pick the best health insurance plan, or deciding how to invest for your own retirement, this book provides the tools you need to guide anyone to the decision that’s right for them.

am560 chicagos morning answer: Red, White, and Black Robert L. Woodson, Sr., 2021-05-11 In the rush to redefine the place of black Americans in contemporary society, many radical activists and academics have mounted a campaign to destroy traditional American history and replace it with a politicized version that few would recognize. According to the new radical orthodoxy, the United States was founded as a racist nation—and everything that has happened throughout our history must be viewed through the lens of the systemic oppression of black people. Rejecting this false narrative, a collection of the most prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black Americans in all its complexity, diversity of experience, and poignancy. Collectively, they paint a vivid picture of black people living the grand American experience, however bumpy the road may be along the way. But rather than a people apart, blacks are woven into the united whole that makes this nation unique in history. Featuring Essays by: John Sibley Butler Jason D. am560 chicagos morning answer: The Unelected James R. Copland, 2020-09-15 America is highly polarized around elections, but unelected actors make many of the decisions that affect our lives. In this lucid history, James R. Copland explains how unaccountable agents have taken over much of the U.S. government apparatus. Congress has largely abdicated its authority.

"Independent" administrative agencies churn out thousands of new regulations every year. Courts have enabled these rulemakers to expand their powers beyond those authorized by law—and have constrained executive efforts to rein in the bureaucratic behemoth. No ordinary citizen can know what is legal and what is not. There are some 300,000 federal crimes, 98 percent of which were created by administrative action. The proliferation of rules gives enormous discretion to unelected enforcers, and the severity of sanctions can be ruinous to citizens who unwittingly violate a regulation. Outside the bureaucracy, private attorneys regulate our conduct through lawsuits. Most of the legal theories underlying these suits were never voted upon by our elected representatives. A combination of historical accident, decisions by judges and law professors, and self-interested advocacy by litigators has built an onerous and expensive legal regime. Finally, state and local officials may be accountable to their own voters, but some reach further afield, pursuing agendas to dictate the terms of national commerce. These new antifederalists are subjecting the citizens of Wyoming and Mississippi to the whims of the electorates of New York and San Francisco—contrary to the constitutional design. In these ways, the unelected have assumed substantial control of the American republic, upended the rule of law, given the United States the world's costliest legal system, and inverted the Constitution's federalism. Copland caps off his account with ideas for charting a corrective course back to democratic accountability.

am560 chicagos morning answer: The Plot to Change America Mike Gonzalez, 2022-06-14 The Plot to Change America exposes the myths that help identity politics perpetuate itself. This book reveals what has really happened, explains why it is urgent to change course, and offers a strategy to do so. Though we should not fool ourselves into thinking that it will be easy to eliminate identity politics, we should not overthink it, either. Identity politics relies on the creation of groups and then on giving people incentives to adhere to them. If we eliminate group making and the enticements, we can get rid of identity politics. The first myth that this book exposes is that identity politics is a grassroots movement, when from the beginning it has been, and continues to be, an elite project. For too long, we have lived with the fairy tale that America has organically grown into a nation gripped by victimhood and identitarian division; that it is all the result of legitimate demands by minorities for recognition or restitutions for past wrongs. The second myth is that identity politics is a response to the demographic change this country has undergone since immigration laws were radically changed in 1965. Another myth we are told is that to fight these changes is as depraved as it is futile, since by 2040, America will be a minority-majority country, anyway. This book helps to explain that none of these things are necessarily true.

am560 chicagos morning answer: Feeding the Dragon Chris Fenton, 2020-07-28 "Paced like a thriller, with comparable doses of international intrigue and conflict, Chris Fenton's bracingly candid business memoir Feeding the Dragon takes readers deep behind the scenes of Hollywood's shaky foothold in China. Dealing at the highest levels with Chinese government officials and major American brands like Disney, Marvel, and the NBA, the former Olive Garden waiter-turned-entertainment-industry-power-broker disarmed and defied authorities on both sides of

the superpower divide to make billions—and history. Thanks to a brisk, page-turning storytelling style and an evenhanded, insider-level perspective decades in the making, *Feeding the Dragon* manages to be both timeless and timely. Captivating details on Robert Downey Jr., LeBron James, Kurt Cobain, Michael Phelps, and Marvel Universe creative mastermind Kevin Feige (among others) will enthrall average fans and aspiring moguls alike. But the beating narrative heart remains Fenton's down-to-earth recounting of a headline-making journey. Ultimately, the intrepid exec builds a compelling case for the power of "cultural diplomacy": mutually-beneficial, soft power-sharing exchanges as a better way forward than the hardliner battle lines being drawn across Beijing, Washington, and Los Angeles. Teeming with urgent insights about unlikely alliances and dangerous misperceptions, *Feeding the Dragon* is a must-read for anyone interested in the future of the US-China relationship and the bottom-line realities of show business and professional sports today. Even better, it's a supremely entertaining ride for anyone who simply loves a great story.... Chris often told me about projects and plans off-the-record that I wouldn't have reported on anyway, because they all seemed wildly improbable. Every single one came true. And now they're all down on the page." —Jamie Bryan, *Fast Company* contributor

am560 chicagos morning answer: *A Round of Golf with My Father* William Damon, 2021-06-07 Viewing our past through the eyes of maturity can reveal insights that our younger selves could not see. Lessons that eluded us become apparent. Encounters that once felt like misfortunes now become understood as valued parts of who we are. We realize what we've learned and what we have to teach. And we're encouraged to chart a future that is rich with purpose. In *A Round of Golf with My Father*, William Damon introduces us to the "life review." This is a process of looking with clarity and curiosity at the paths we've traveled, examining our pasts in a frank yet positive manner, and using what we've learned to write purposeful next chapters for our lives. For Damon, that process began by uncovering the mysterious life of his father, whom he never met and never gave much thought to. What he discovered surprised him so greatly that he was moved to reassess the events of his own life, including the choices he made, the relationships he forged, and the career he pursued. Early in his life, Damon was led to believe that his father had been killed in World War II. But the man survived and went on to live a second life abroad. He married a French ballerina, started a new family, and forged a significant Foreign Service career. He also was an excellent golfer, a bittersweet revelation for Damon, who wishes that his father had been around to teach him the game. We follow Damon as he struggles to make sense of his father's contradictions and how his father, even though living a world apart, influenced Damon's own development in crucial ways. In his life review, Damon uses what he learned about his father to enhance his own newly emerging self-knowledge. Readers of this book may come away inspired to conduct informal life reviews for themselves. By uncovering and assembling the often overlooked puzzle pieces of their pasts, readers can seek present-day contentment and look with growing optimism to the years ahead.

am560 chicagos morning answer: *Leave No Man Behind* Tony Brooks, Bob Welch,

2021-08-10 A story of courage, perseverance, and patriotism behind the 75th Ranger Regiment's rescue mission following one of the deadliest Special Ops incidents in Afghanistan—a grueling search for twelve Navy SEAL casualties and eight downed Night Stalkers . . . but just one lone survivor On June 28th, 2005, a four-man Navy SEAL reconnaissance team under Operation Red Wings was ambushed in northeastern Afghanistan—as depicted in the book and film *Lone Survivor*. A quick reaction force was dispatched. Turbine 33, carrying eight Navy SEALs and eight members of the 160th Special Operations Aviation Regiment, was struck by a rocket propelled grenade—careening the dual rotor Chinook toward the rugged peak of Sawtalo Sar. The result was the single deadliest incident in Special Operations history at the time. Commanders called on the largest element of US Special Forces, the 75th Ranger Regiment. The rescue mission: Operation Red Wings II. Author Tony Brooks gives a first-hand account of the daring recovery of Turbine 33 and the subsequent search for the remaining compromised Navy SEAL recon team—one of whom was Marcus Luttrell, the lone survivor. The Rangers were up against lack of intel, treacherous terrain, violent weather, and an enemy that was raised to fight. Tony Brooks lived—and many of his fellow Rangers died—by the axiom, “Leave No Man Behind.” He is the first to tell the story other books and films have omitted, one of overcoming overwhelming odds to accomplish a mission: to bring every American soldier home.

am560 chicagos morning answer: #DELETED Allum Bokhari, 2020-09-22 Uncover the hidden systems created by the most powerful tech companies in the world that are determined to stop Donald Trump. Journalist Allum Bokhari has spent four years investigating the tech giants that dominate the Internet: Google, Facebook, YouTube, Twitter. He has discovered a dark plot to seize control of the flow of information, and utilize that power to its full extent—to censor, manipulate, and ultimately sway the outcome of democratic elections. His network of whistleblowers inside Google, Facebook and other companies explain how the tech giants now see themselves as good censors, benevolent commissars controlling the information we receive to protect us from dangerous speech. They reveal secret methods to covertly manipulate online information without us ever being aware of it, explaining how tech companies can use big data to target undecided voters. They lift the lid on a plot four years in the making—a plot to use the power of technology to stop Donald Trump's re-election.

am560 chicagos morning answer: Unlock Congress Michael Golden, 2015 The American people are disgusted with the U.S. Congress. In 2014, public approval of the first branch of government reached a forty-year low. Congress is producing legislation at a historically anemic rate, while many of the nations immediate problems fester. Those are the facts. The fiction? The notion that we cant do anything about it. The U.S. Constitution assigned obligations to our legislative branch calling on our elected representatives to promote the general welfare. Congress is in breach of contract. In *Unlock Congress*, veteran journalist and former political strategist Michael Golden examines the ways in which congressional failure generates a harmful PRODUCT. Rather than affixing blame to individual politicians, Golden diagnoses the causes behind the breakdown. He then identifies the PROBLEM obsolete rules that lead to major defects within the system. Finally, *Unlock Congress* lays out a PLATFORM of solutions designed to reinvigorate both the process and its players.

am560 chicagos morning answer: *Undoctrinate* Bonnie Kerrigan Snyder, 2021-09-14 Are your kids being indoctrinated in school? Unfortunately, it's increasingly likely. From “social justice” to critical race theory, and from advocacy and activism campaigns to planned “action weeks,” teachers and schools nationwide are abandoning neutrality in the classroom, embracing political agendas and partisan aims, and expecting students to get on board. Meanwhile, students with doubts or misgivings decline to voice objections due to fears of lowered grades, impacted college recommendation letters, social ostracism, “cancellation,” public shaming, ridicule, and other formal and informal means of “correcting” them and making them toe the ideological line. Is this what we want for our kids? Will this kind of “education” produce able citizens or independent thinkers capable of self-government? The range of opinion has been narrowing in higher education for some

time; now, heavy-handed thought constriction and chilled speech are choking our secondary, middle, and even elementary schools. The situation is dire—and America urgently needs a response. This book provides the tools we need to confront and remove hidden agendas, to uproot and reject educational biases, and to restore balance and integrity to America's classrooms. It's time to indoctrinate our schools!

am560 chicagos morning answer: Black Eye for America Carol M. Swain, Christopher J. Schorr, 2021-08 In schools and workplaces across the United States, Americans are being indoctrinated with a divisive, anti-American ideology: Critical Race Theory (CRT). Based in cultural Marxism, CRT bullies and demonizes whites while infantilizing and denying agency to blacks, creating a deep racial rift. As Abraham Lincoln famously observed, A house divided against itself cannot stand. CRT aims to divide the American nation against itself and burn down the house. In *Black Eye for America: How Critical Race Theory Is Burning Down the House*, Carol Swain and Christopher Schorr expose the true nature of Critical Race Theory, and they offer concrete solutions for taking back the country's stolen institutions. They describe CRT in theory and practice, accounting for its origins and weaponization within American schools and workplaces; explain how this ideology threatens traditional American values and legal doctrines, including civil rights; and equip everyday Americans with strategies to help them resist and defeat CRT's pernicious influence. Carol Swain (PhD) is an award-winning political scientist and former tenured professor at Princeton and Vanderbilt Universities. She is the author or editor of 10 books, including *Be the People: A Call to Reclaim America's Faith and Promise* and *The New White Nationalism in America: Its Challenge to Integration*. Christopher Schorr holds a PhD in American Government from Georgetown University. His dissertation (*White Nationalism and its Challenge to the American Right*) considers factors that risk mainstreaming white nationalist politics in the United States, including Critical Race Theory.

am560 chicagos morning answer: Charade David Marcus, 2021-10-12 THIS BOOK IS DOUBLE MASKED FOR YOUR SAFETY. The Coronavirus crisis led to the most extreme and widespread suspension of constitutional freedoms in American history, despite being based on myths and lies. From the beginning of the Coronavirus crisis in March of 2020, the media and politicians engaged in myths, half-truths, and even flat-out lies to bring about obedience from the populace. *Charade* tackles these myths one by one, laying bare the brazen power grab by governors, experts, and corporations all seeking to bend the American people to their will. David Marcus combines his reporting on the Coronavirus crisis with a cultural deep dive into how those in power used the emergency to consolidate power and change the very concept of American freedoms. Government, media, advertisers, and scientists all sought to set an agenda to strip Americans of their rights. From church attendance to running a business, right down to how many people can be in a private home, few rights were left wholly unchecked. What's worse is that any challenge to the holy laws of lockdowns were criticized and censored as dangerous and deadly speech. The question that remains is whether Americans will ever allow this to happen again. Now the lies of 2020 can be revealed. No, Americans weren't all in it together. It was not as simple as "trust the science." Donald Trump was not a villain, Andrew Cuomo was not a hero, and lockdowns did vastly more harm than good. As America awakens from the nightmare of the Coronavirus crisis, it must learn lessons from it—but the first step is an honest accounting of all the rank dishonesty.

The movement that brought Donald Trump to the White House has better ideas than the old right or the new left. It's time that the rest of America started listening. The Tea Party began as a protest for patriots who feared Big Government. President Trump has become a hero for patriots who are against Big Everything. Fed up with Silicon Valley, the media, liberal higher education, the military-industrial complex, Twitter mobs, swamp monsters, Big Pharma, out-of-control prosecutors, and gun-grabbing fascists, ordinary Americans miss the days when America cared about rule of the people, by the people, and for the people. Remember when you didn't feel bombarded on all sides by coastal billionaires and their government stooges? The MAGA Doctrine urges an overdue restoration of self-rule by a populace long taken for granted by its rulers. Turning Point USA founder and social media superstar Charlie Kirk explains once and for all why a New York real estate magnate found an audience among young conservatives all over the country. Trump and his allies are working to protect all the small things that both parties dismissed: local businesses, families, churches, and the rights of the individual. Kirk explains why it took a reality TV superstar to see past the sclerotic and power-hungry institutions, from the United Nations and Google to Harvard and Viacom, working to crush real America. The Trump Doctrine is all about giving you a say in the future of America and a hand in making it happen. As the mainstream media keep churning out lies about the "real reasons" behind the new conservative agenda, Charlie Kirk's *The MAGA Doctrine* is a powerful reminder of the true narrative of freedom and greatness that swept Donald Trump to the presidency.

am560 chicagos morning answer: What Do White Americans Owe Black People? Jason D. Hill, 2021-10-12 In this provocative and highly original work, philosophy professor Jason D. Hill explores multiple dimensions of race in America today, but most importantly, a black-white divide which has grown exponentially over the past decade. Central to his thesis, Hill calls on black American leaders (and their white liberal sponsors) to escape from the cycle of blame and finger-pointing, which seeks to identify black failures with white hatred and indifference. This overblown narrative is promulgated by a phalanx of black nihilists who advocate the destruction of America and her institutions in the name of ending "whiteness." Much of the black intelligentsia consists of these false prophets, and it is their poisonous ideology which is taught, uncontradicted, to students of all races. It is they who are responsible for the cultural depression blacks are suffering in today's society. Ultimately, the answer to "what do White Americans owe?" is not about the morality or practicality of reparations, affirmative action, or other redistributionist schemes. Hill rejects the collectivist premise behind the argument, instead couching notions of culpability, justice, and fairness as responsibilities of individuals, not arbitrary racial or ethnic groupings.

am560 chicagos morning answer: Debunking Howard Zinn Mary Grabar, 2019-08-20 Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by

Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males' ill-gotten wealth Why Americans of the "Greatest Generation" were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past—and our future—you need this book.

am560 chicagos morning answer: In Trump's Shadow David M. Drucker, 2021-10-19 Based on extensive reporting, a *Game of Thrones*-like telling of what comes next for the factions and families within the Republican Party as they plot for supremacy in the post-Trump era. With Trump's four years in the White House now in the rearview, an unprecedented period in American political history is concluded. The transition, however, has set off a mad scramble for control of a Republican Party that for so long has reflected the domineering image of one man—and might even still in the years ahead. Who emerges from the warring factions and familial rivalries that proliferated and quietly festered during Trump's presidency could determine the fate of the GOP for a generation, and the first hint of what's to come begins with the 2024 campaign to crown the first Republican nominee, and national party leader, of the post-Trump era. With Trump's exit, a singular era in American political history has ended—and the Republican Party, whose identity had for so long been centered around one man, will be forced to redefine itself for the future. Featuring profiles of everyone from Mike Pence, Mike Pompeo, and Nikki Haley to Marco Rubio, Ted Cruz, and those in the Trump family, *In Trump's Shadow* tells the story of a GOP under—and after—the forty-fifth president, and all of those jousting for influence over the party's direction in the wake of Donald Trump.

am560 chicagos morning answer: The Compleat Gentleman Brad Miner, 2021-05-11 "Here is a welcome reminder that men can be gentlemen without turning into ladies—or louts."—Michelle Malkin Miner writes with wit and charm.—Wall Street Journal *The Gentleman: An Endangered Species?* The catalog of masculine sins grows by the day—mansplaining, manspreading, toxic masculinity—reflecting our confusion over what it means to be a man. Is a man's only choice between the brutish, rutting #MeToo lout and the gelded imitation woman, endlessly sensitive and fun to go shopping with? No. Brad Miner invites you to discover the oldest and best model of manhood—the gentleman. In this tour de force of popular history and gentlemanly persuasion, Miner lays out the thousand-year history of this forgotten ideal and makes a compelling case for its modern revival. Three masculine archetypes emerge here—the warrior, the lover, and the monk—forming the character of "the compleat gentleman." He cultivates a martial spirit in defense of the true and the beautiful. He treats the opposite sex with passionate respect. And he values learning in pursuit of the truth. Miner's gentleman stands out for the combination of discretion, decorum, and nonchalance that the Renaissance called sprezzatura. He belongs to an aristocracy of virtue, not of wealth or birth, following a lofty code of manly conduct, which, far from threatening

democracy, is necessary for its survival.

am560 chicagos morning answer: *It's Time to Let America Work Again* Andrew F. Puzder, 2020-08-04 As we begin the process of reopening our economy, it is critical that we get back to work. The economic shutdown was intended to slow the spread of a lethal virus, not to permanently sacrifice our freedoms—and certainly not to expand government power and “fundamentally transform” America. During the shutdown, we’ve learned what that transformed America would look like, and it is ugly. With millions of people out of work and dependent on government—lacking the dignity of a job, the security of a paycheck, or the opportunity for a better future—depression and despair are creating an “epidemic within the pandemic” of suicides and drug and alcohol addiction. While there are risks, if we follow safety protocols and protect the vulnerable, we can safely reignite our economy as we undo the lockdown, eliminate policies that discourage work and enact policies that encourage hiring and growth. It’s time to reject the transformation to permanent government dependence and return instead to individual freedom and prosperity.

am560 chicagos morning answer: *The Division of Light and Power* Dennis J. Kucinich, 2021-06-08 The Division of Light and Power is the thoroughly documented, true story of one courageous American mayor who fought, and beat, a utility monopoly in an epic battle which involved corporate espionage and sabotage, bank co-conspirators, extortion, political corruption, organized crime, mob-directed assassination attempts, congressional investigations, and media cover-ups. The powers that be tried to buy him, and when he couldn't be bought, they tried to kill him. When that failed, the utility's bank gave him a choice: Privatize the city's electric system or the city would be thrown into default. The mayor said no to extortion, never gave in and saved over a billion dollars in assets for his city and its people. Meet Mayor Dennis Kucinich of Cleveland, (pictured above) who fought to give power to the people. Battling his way up from the streets of the city, he and his family lived in twenty-one different places by the time he was seventeen, including a couple of cars. By the age of thirty-one, as America's youngest big-city mayor, his stand to protect Cleveland's Muny Light against a utility monopoly and its banking partner drew international attention and praise as The outstanding public official in America, an award presented by Bob Hope. This is Mayor Dennis Kucinich's story, but if you want to know why your utility rates are so high, it may be your city's story, too.

They were tasked with attacking Iraq’s vaunted Medina Division of the Republican Guards—by far their most dangerous mission of the war. Near the end of their attacks, Rob was forced to eject from his aircraft and began a five-minute parachute ride down to the troops he and Steve had just finished bombing. Steve, an experienced combat search and rescue pilot and distinguished graduate of the Air Force Fighter Weapons School, immediately sprang into action to save the life of his wingman. After spending three minutes and forty-five seconds circling Sweet, Steve’s A-10 was hit by an enemy surface-to-air missile. *Five Nickels: True Story of the Desert Storm Heroics and Sacrifice of Air Force Captain Steve Phillis*, is a love story. Steve loved his family, fiancée, fellow fighter pilots, country, wingman, and life. Yet he was willing to risk them all to fight—and if necessary, die—for what he believed in. Steve’s story—from Rock Island, Illinois to the Air Force Academy, to his life as an A-10 fighter pilot—is the stuff of heroes. As Steve’s Academy classmate and boxing partner, fellow fighter pilot and “Top Gun” graduate, Jim “Boots” Demarest is uniquely qualified to tell Steve’s story. A gifted storyteller, Boots shares his experience with Steve from the Academy Boxing Team to paint a complete picture of the man who had so much to live for, yet was willing to risk it all to do the right thing. *Five Nickels* is filled with the details of Steve’s life and loves that will capture, enchant, and

pull readers in. His story of combat heroics in the face of incredible danger will captivate and inspire all who read it.

am560 chicagos morning answer: The Plot to Betray America Malcolm Nance, 2019-11-12 ***NEW YORK TIMES BESTSELLER*** An Explosive, Revelatory Assessment of the Greatest Betrayal in American History, Newly Revised and Updated William Barr · Paul Manafort · Michael Cohen · Steve Bannon · Rudy Giuliani · Mitch McConnell · Roger Stone · George Papadopoulos · Jeff Sessions · And More! Impressive... a persuasive whodunit narrative. -Washington Post In The Plot to Betray America, New York Times bestselling author and renowned intelligence expert Malcolm Nance reveals exactly how President Trump and his inner circle conspired, coordinated, communicated, and eventually strategized to commit the greatest acts of treachery in the history of the United States: compromising the presidential oath of office in exchange for power and personal enrichment. Seduced by the promises of riches dangled in front of them by Vladimir Putin, the Trump administration eagerly decided to reap the rewards of the plan to put a Kremlin-friendly crony in the Oval Office. Even after his impeachment, Trump continues to defend Putin and jeopardize American intelligence. And instead of interfering, Trump's powerful Republican allies have done everything they can to facilitate Trump's irreparable damage to national security. Through in-depth research and interviews with intelligence experts and insiders, Nance charts Trump's deep financial ties to Russia through his family's investments-including those of Donald Trump Jr., Ivanka Trump, and Jared Kushner-and exposes the corrupt behavior of Trump's other double-crossing pro-Moscow associates. In doing so, Nance also draws a portrait of a venal and selfish president, one who willingly sells American national security to dictators, strongmen, and the ultra-rich at the expense, and sometimes the lives, of American citizens. In this newly revised and updated edition, The Plot to Betray America ultimately sketches the blueprint of the Trump administration's conspiracy against our country-and shows us how we can still fight to defend democracy, protect our national security, and save the Constitution.

am560 chicagos morning answer: Trumponomics Stephen Moore, Arthur B. Laffer, 2018-10-30 Conservative economists offer a well-informed defense of Trump's approach to trade, taxes, employment, infrastructure, and other economic policies. Donald Trump promised the American people a transformative change in economic policy after eight years of stagnation under Obama. But he didn't adopt a conventional left or right economic agenda. His is a new economic populism that combines some conventional Republican ideas—tax cuts, deregulation, more power to the states—with more traditional Democratic issues such as trade protectionism and infrastructure spending. It also mixes in important populist issues such as immigration reform, pressuring the Europeans to pay for more of their own defense, and keeping America first. Coauthors Stephen Moore and Arthur B. Laffer worked as senior economic advisors to Donald Trump in 2016. They traveled with him, frequently met with his political and economic teams, worked on his speeches, and represented him as surrogates. They are currently members of the Trump Advisory Council and still meet with him regularly. In Trumponomics, they offer an insider's view on how Trump operates in public and behind closed doors, his priorities and passions, and his greatest attributes and liabilities.

am560 chicagos morning answer: Defeating Jihad Sebastian Gorka, 2016-04-11 Now a New York Times bestseller! America is at war. The fight against global jihad has cost 7,000 American lives and almost \$2 trillion, and yet, most Americans do not understand what is at stake. The public lacks knowledge and safety because two presidents and their administrations neglected the most basic strategic question: who is the enemy? Presidents Bush and Obama both named the global jihadi movement—a movement with an intent to destroy the West—"violent extremism." Their tidy term was an attempt to maintain peace with the Muslim community. But when they failed to appropriately name the enemy, they failed to fully understand Islamic extremism. This failure is why the U.S. has been in Afghanistan for sixteen years with no end in sight. But this war is eminently winnable if we remove our ideological blinders, accurately name our enemy, and draw up a strategy to defeat the ideas that inspire terrorism. So says Dr. Sebastian Gorka, one of the most experienced

and sought-after authorities on counterterrorism. Dr. Gorka has been one of the intelligence community's go-to experts on counterterrorism since 9/11. He's been called to brief Congress and the Marine Corps and was asked to analyze the Patriot's Day Boston Marathon Bombing for the US government. Dr. Gorka's report for the trial of Dzhokhar Jahar Tsarnaev was widely circulated in counterterrorism circles and the media because it accurately painted a picture, not of a teenager on the cover of Rolling Stone, but of a terrorist. Dr. Gorka is respected by peers because he understands our enemy is not terror or violent extremism. Our enemy is the global jihadi movement, a modern totalitarian ideology rooted in the doctrines and martial history of Islam whose goals are to build an empire, suppress "false Muslims," and engage in guerilla warfare against infidels. Taking his cue from the formerly top-secret analyses that shaped the U.S. response to the communist threat, Dr. Gorka has produced a compelling profile of the jihadi movement—its mind and motivation—and a plan to defeat it.

am560 chicagos morning answer: The Power of Bad John Tierney, Roy F. Baumeister, 2019-12-31 The most important book at the borderland of psychology and politics that I have ever read.—Martin E. P. Seligman, Zellerbach Family Professor of Psychology at that University of Pennsylvania and author of Learned Optimism Why are we devastated by a word of criticism even when it's mixed with lavish praise? Because our brains are wired to focus on the bad. This negativity effect explains things great and small: why countries blunder into disastrous wars, why couples divorce, why people flub job interviews, how schools fail students, why football coaches stupidly punt on fourth down. All day long, the power of bad governs people's moods, drives marketing campaigns, and dominates news and politics. Eminent social scientist Roy F. Baumeister stumbled

unexpectedly upon this fundamental aspect of human nature. To find out why financial losses mattered more to people than financial gains, Baumeister looked for situations in which good events made a bigger impact than bad ones. But his team couldn't find any. Their research showed that bad is relentlessly stronger than good, and their paper has become one of the most-cited in the scientific literature. Our brain's negativity bias makes evolutionary sense because it kept our ancestors alert to fatal dangers, but it distorts our perspective in today's media environment. The steady barrage of bad news and crisis mongering makes us feel helpless and leaves us needlessly fearful and angry. We ignore our many blessings, preferring to heed—and vote for—the voices telling us the world is going to hell. But once we recognize our negativity bias, the rational brain can overcome the power of bad when it's harmful and employ that power when it's beneficial. In fact, bad breaks and bad feelings create the most powerful incentives to become smarter and stronger. Properly understood, bad can be put to perfectly good use. As noted science journalist John Tierney and Baumeister show in this wide-ranging book, we can adopt proven strategies to avoid the pitfalls that doom relationships, careers, businesses, and nations. Instead of despairing at what's wrong in your life and in the world, you can see how much is going right—and how to make it still better.

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FOREIGN AFFAIRS • "Unlike most retellings of the 2016 election, *The Great Revolt* provides a cohesive, non-wild-eyed argument about where the Republican Party could be headed."—The Atlantic Political experts were wrong about the 2016 election and they continue to blow it, predicting the coming demise of the president without pausing to consider the durability of the winds that swept him into office. Salena Zito and Brad Todd have traveled over 27,000 miles of country roads to interview more than three hundred Trump voters in ten swing counties. What emerges is a portrait of a group of citizens who span job descriptions, income brackets, education levels, and party allegiances, united by their desire to be part of a movement larger than themselves. They want to put pragmatism before ideology and localism before globalism, and demand the respect they deserve from Washington. The 2016 election signaled a realignment in American politics that will outlast any one president. Zito and Todd reframe the discussion of the "Trump voter" to answer the question, What's next?
