am870 the answer live: Controlling Women Kathryn Kolbert, Julie F. Kay, 2021-07-13 From two lawyers at the forefront of the reproductive rights movement, this fully updated book shares bold strategies meant to help restore and expand reproductive and sexual rights. Reproductive freedom has never been in more dire straits. *Roe v. Wade* protected abortion rights and *Planned Parenthood v. Casey* unexpectedly preserved them. Yet in the following decades these rights have been gutted by restrictive state legislation, the appointment of hundreds of anti-abortion judges, and violence against abortion providers. Today, the ultra-conservative majority at the Supreme Court has overturned our most fundamental reproductive protections. With *Roe* toppled, abortion is now a criminal offense in nearly one-third of the United States. At least six states have enacted bans on abortion as early as six weeks of pregnancy—before many women are even aware they are pregnant. Today, 89% of U.S. counties do not have a single abortion provider, in part due to escalating violence and intimidation aimed at disrupting services. We should all be free to make these personal and private decisions that affect our lives and wellbeing without government interference or bias, but we can no longer depend on *Roe v. Wade* and the federal courts to preserve our liberties. Legal titans Kathryn Kolbert and Julie F. Kay share the story of one of the most divisive issues in American politics through behind-the-scenes personal narratives of stunning losses, hard-earned victories, and moving accounts of women and health care providers at the heart of nearly five decades of legal battles. Kolbert and Kay propose audacious new strategies inspired by medical advances, state-level protections, human rights models, and activists across the globe whose courage and determination are making a difference. No more banging our heads against the Court's marble walls. It is time for a new direction.

am870 the answer live: Defeating Jihad Sebastian Gorka, 2016-04-11 Now a New York Times bestseller! America is at war. The fight against global jihad has cost 7,000 American lives and almost \$2 trillion, and yet, most Americans do not understand what is at stake. The public lacks knowledge and safety because two presidents and their administrations neglected the most basic strategic question: who is the enemy? Presidents Bush and Obama both named the global jihadi movement—a movement with an intent to destroy the West—"violent extremism." Their tidy term was an attempt to maintain peace with the Muslim community. But when they failed to appropriately name the enemy, they failed to fully understand Islamic extremism. This failure is why the U.S. has been in Afghanistan for sixteen years with no end in sight. But this war is eminently winnable if we remove our ideological blinders, accurately name our enemy, and draw up a strategy to defeat the ideas that inspire terrorism. So says Dr. Sebastian Gorka, one of the most experienced and sought-after authorities on counterterrorism. Dr. Gorka has been one of the intelligence community's go-to experts on counterterrorism since 9/11. He's been called to brief Congress and the Marine Corps and was asked to analyze the Patriot's Day Boston Marathon Bombing for the US government. Dr. Gorka's report for the trial of Dzhokhar Jahar Tsarnaev was widely circulated in counterterrorism circles and the media because it accurately painted a picture, not of a teenager on the cover of *Rolling Stone*, but of a terrorist. Dr. Gorka is respected by peers because he understands our enemy is not terror or violent extremism. Our enemy is the global jihadi movement, a modern totalitarian ideology rooted in the doctrines and martial history of Islam whose goals are to build an empire, suppress "false Muslims," and engage in guerilla warfare against infidels. Taking his cue from the formerly top-secret analyses that shaped the U.S. response to the communist threat, Dr. Gorka has produced a compelling profile of the jihadi movement—its mind and motivation—and a plan to defeat it.

am870 the answer live: *The MAGA Doctrine* Charlie Kirk, 2020-03-03 NEW YORK TIMES BESTSELLER. The movement that brought Donald Trump to the White House has better ideas than the old right or the new left. It's time that the rest of America started listening. The Tea Party began as a protest for patriots who feared Big Government. President Trump has become a hero for patriots who are against Big Everything. Fed up with Silicon Valley, the media, liberal higher education, the military-industrial complex, Twitter mobs, swamp monsters, Big Pharma, out-of-control prosecutors, and gun-grabbing fascists, ordinary Americans miss the days when America cared about rule of the people, by the people, and for the people. Remember when you didn't feel bombarded on all sides by coastal billionaires and their government stooges? The MAGA Doctrine urges an overdue restoration of self-rule by a populace long taken for granted by its rulers. Turning Point USA founder and social media superstar Charlie Kirk explains once and for all why a New York real estate magnate found an audience among young conservatives all over the country. Trump and his allies are working to protect all the small things that both parties dismissed: local businesses, families, churches, and the rights of the individual. Kirk explains why it took a reality TV superstar to see past the sclerotic and power-hungry institutions, from the United Nations and Google to Harvard and Viacom, working to crush real America. The Trump Doctrine is all about giving you a say in the future of America and a hand in making it happen. As the mainstream media keep churning out lies about the "real reasons" behind the new conservative agenda, Charlie Kirk's *The MAGA Doctrine* is a powerful reminder of the true narrative of freedom and greatness that swept Donald Trump to the presidency.

am870 the answer live: The Happiest Life Hugh Hewitt, 2014-01-07 What's the secret to a life of happiness? In this delightful book brimming with humorous and poignant passages, radio personality Hugh Hewitt provides the answer. The starting place is generosity, he says, and there are seven gifts that are sure to improve the lives of both giver and receiver: encouragement, energy, enthusiasm, good humor, graciousness, gratitude, and patience. Anyone can give these gifts, but Hewitt shows that some people are particularly well placed to offer them: parents, spouses, family members, friends, teachers, coworkers, and fellow church members. Channeling his skills as a broadcaster, journalist, lawyer, and teacher, Hewitt weaves stories about these seven gifts and seven givers with inspiring and motivating observations to help readers become generous in the ways that matter most. *The Happiest Life* is not simply a delight to read, and not merely a glimpse under the hood of a remarkable man. It's a map to what Robert Frost once described as the road less traveled—the road that leads to a life of meaning and gratitude and joy." —Charles J. Chaput, O.F.M. Cap., Archbishop of Philadelphia Reading this book is the next best thing to sitting down for a long conversation with my friend Hugh Hewitt." —Dr. R. Albert Mohler, Jr., president of the Southern Baptist Theological Seminary "Wanna be a happier person? Know anyone else who does? What if this book could actually help with that? am870 the answer live: Happiness Is a Serious Problem Dennis Prager, 2009-10-13 In this unique blend of self-help and moral philosophy, perfect for fans of Gretchen Rubin's *The Happiness Project* or Dan Harris' *10% Happier*, talk-radio host Dennis Prager shows us that happiness isn't just a value—it's a moral obligation. When you ask people about their most cherished values, "happiness" is always at the top of the list. In this enduring happiness manifesto, Prager examines how happiness not only makes us better people, but has an effect on the lives of everyone around us—providing them with a positive environment in which to thrive and be happy themselves. Achieving that happiness won't be easy, though: to Prager, it requires a continuing process of counting your blessings and giving up any expectations that life is supposed to be wonderful. Can we decide to be

satisfied with what we have? he asks. A poor man who can make himself satisfied with his portion will be happier than a wealthy man who does not allow himself to be satisfied. Prager echoes other political commentators in complaining that too many people today see themselves as victims; he submits that the only way to achieve your desires is to take responsibility for your life rather than blaming others. If you're willing to put some thought into achieving a happier outlook, you will find plenty to mull over in *Happiness Is a Serious Problem*.

am870 the answer live: *The Lion's Gate* Steven Pressfield, 2014-06-04 A brilliant look into the psyche of combat. Where he once took us into the Spartan line of battle at Thermopylae, Steven Pressfield now takes us into the sands of the Sinai, the alleys of Old Jerusalem, and into the hearts and souls of soldiers winning a spectacularly improbable victory against daunting odds." —General Stanley McChrystal, U.S. Army, ret.; author of *My Share of the Task* June 5, 1967. The nineteen-year-old state of Israel is surrounded by enemies who want nothing less than her utter extinction. The Soviet-equipped Egyptian Army has massed a thousand tanks on the nation's southern border. Syrian heavy guns are shelling her from the north. To the east, Jordan and Iraq are moving mechanized brigades and fighter squadrons into position to attack. Egypt's President Nasser has declared that the Arab force's objective is "the destruction of Israel." The rest of the world turns a blind eye to the new nation's desperate peril. June 10, 1967. The Arab armies have been routed, ground divisions wiped out, air forces totally destroyed. Israel's citizen-soldiers have seized the Gaza Strip and the Sinai Peninsula from Egypt, the Golan Heights from Syria, East Jerusalem and the West Bank from Jordan. The land under Israeli control has tripled. Her charismatic defense minister, Moshe Dayan, has entered the Lion's Gate of the Old City of Jerusalem to stand with the paratroopers who have liberated Judaism's holiest site—the Western Wall, part of the ruins of Solomon's temple, which has not been in Jewish hands for nineteen hundred years. It is one of the most unlikely and astonishing military victories in history. Drawing on hundreds of hours of interviews with veterans of the war—fighter and helicopter pilots, tank commanders and Recon soldiers, paratroopers, as well as women soldiers, wives, and others—bestselling author Steven Pressfield tells the story of the Six Day War as you've never experienced it before: in the voices of the young men and women who battled not only for their lives but for the survival of a Jewish state,

and for the dreams of their ancestors. By turns inspiring, thrilling, and heartbreaking, *The Lion's Gate* is both a true tale of military courage under fire and a journey into the heart of what it means to fight for one's people.

am870 the answer live: *Still the Best Hope* Dennis Prager, 2012-04-24 Conservative radio host and syndicated columnist Dennis Prager provides a bold, sweeping look at the future of civilization with *Still the Best Hope*, and offers a strong, cogent argument for why basic American values must triumph in a dangerously uncertain world. Humanity stands at a crossroads, and the only alternatives to the "American Trinity" of liberty, natural rights, and the melting-pot ideal of national unity are Islamic totalitarianism, European democratic socialism, capitalist dictatorship, or global chaos if we should fail. America is *Still the Best Hope*, as this eminently sensible, profoundly inspiring volume so powerfully proves.

am870 the answer live: *Netflixed* Gina Keating, 2012-10-11 Netflix has come a long way since 1997, when two Silicon Valley entrepreneurs, Marc Randolph and Reed Hastings, decided to start an online DVD store before most people owned a DVD player. They were surprised and elated when launch-day traffic in April 1998 crashed their server and resulted in 150 sales. Today, Netflix has more than 25 million subscribers and annual revenues above \$3 billion. Yet long-term success-or even survival-is still far from guaranteed. Journalist Gina Keating recounts the absorbing, fast-paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business. First it engaged in a grueling war against video-store behemoth Blockbuster, transforming movie rental forever. Then it jumped into an even bigger battle for online video streaming against Google, Hulu, Amazon, and the big cable companies. Netflix ushered in such innovations as DVD rental by mail, a patented online queue of upcoming rentals, and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals. Yet for all its success, Netflix is still a polarizing company. Hastings is often heralded as a visionary-he was named Business Person of the Year in 2010 by *Fortune*-even as he has been called the nation's worst CEO. Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever. The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet. Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter, Keating makes this tale as absorbing as it is important.

am870 the answer live: *Woke, Inc.* Vivek Ramaswamy, 2021-08-17 AN INSTANT NEW YORK TIMES BESTSELLER! A young entrepreneur makes the case that politics has no place in business, and sets out a new vision for the future of American capitalism. There's a new invisible force at work in our economic and cultural lives. It affects every advertisement we see and every product we buy, from our morning coffee to a new pair of shoes. "Stakeholder capitalism" makes rosy promises of a better, more diverse, environmentally-friendly world, but in reality this ideology championed by America's business and political leaders robs us of our money, our voice, and our identity. Vivek Ramaswamy is a traitor to his class. He's founded multibillion-dollar enterprises, led a biotech company as CEO, he became a hedge fund partner in his 20s, trained as a scientist at Harvard and a lawyer at Yale, and grew up the child of immigrants in a small town in Ohio. Now he takes us behind the scenes into corporate boardrooms and five-star conferences, into Ivy League classrooms and secretive nonprofits, to reveal the defining scam of our century. The modern woke-industrial complex divides us as a people. By mixing morality with consumerism, America's elites prey on our innermost insecurities about who we really are. They sell us cheap social causes and skin-deep identities to satisfy our hunger for a cause and our search for meaning, at a moment when we as Americans lack both. This book not only rips back the curtain on the new corporatist agenda, it offers a better way forward. America's elites may want to sort us into demographic boxes, but we don't have to stay there. *Woke, Inc.* begins as a critique of stakeholder capitalism and ends with an

exploration of what it means to be an American in 2021—a journey that begins with cynicism and ends with hope.

am870 the answer live: The Black Boom Jason L. Riley, 2022-02-07 Economic inequality continues to be one of America's most hotly debated topics. Still, there has been relatively little discussion of the fact that black-white gaps in joblessness, income, poverty and other measures were shrinking before the pandemic. Why was it happening, and why did this phenomenon go unacknowledged by so much media? In *The Black Boom*, Jason L. Riley—acclaimed Wall Street Journal columnist and senior fellow at the Manhattan Institute—digs into the data and concludes that the economic lives of black people improved significantly under policies put into place during the Trump administration. To acknowledge as much is not to endorse the 45th president but to champion policies that achieve a clear moral objective shared by most Americans. Riley argues that before the Covid-19 pandemic of 2020, the economic fortunes of blacks improved under Trump to an extent unseen under Obama and unseen going back several generations. Black unemployment and poverty reached historic lows, and black wages increased faster than white wages. Less inequality is something that everyone wants, but disapproval of Trump's personality and methods too often skewed the media's appraisal of effective policies advocated by his administration. If we're going to make real progress in improving the lives of low-income minorities, says Riley, we must look beyond our partisan differences at what works and keep doing it. Unfortunately, many press outlets were unable or unwilling to do that. Riley notes that political reporters were not unaware of this data. Instead, they chose to ignore or downplay it because it was inconvenient. In their view, Trump, because he was a Republican and because he was Trump, had it in for blacks, and thus his policy preferences would be harmful to minorities. To highlight that significant racial disparities were narrowing on his watch—that the administration's tax and regulatory reforms were mainly boosting the working and middle classes rather than 'the rich'—would have undermined a narrative that the media preferred to advance, regardless of its veracity." As with previous books in our New Threats to Freedom series, *The Black Boom* includes two essays from prominent experts who take issue with the author's perspective. Juan Williams, a veteran journalist, and Wilfred Reilly, a political scientist, contribute thoughtful responses to Riley and show that it is possible to share a deep concern for disadvantaged groups while disagreeing on how best to help them.

am870 the answer live: A Lot Like Me Larry Elder, 2018-05-07 "I hated my father—really, really hated him. I hated working for him and I hated being around him. I hated it when he walked through the front door at home. And we feared him from the moment he pulled up in front of the house in his car." So writes conservative firebrand and popular radio host Larry Elder. For ten years Elder and his father did not talk to each other. When they finally did, the conversation went on for eight hours—eight hours that took Elder on his father's journey from the Jim Crow South, to service in the Marine Corps, to starting a business in Southern California. Elder emerged not just reconciled with his dad, but admiring him, and realizing that he had never fully known him or understood him. Heartfelt, beautifully written, compulsively readable, *A Lot Like Me*—originally published as *Dear Father, Dear Son*—is both a powerfully affecting memoir and a personal, provocative slice of American history.

am870 the answer live: The History of al-Ṭabarī Vol. 39, 2015-07-07 The present volume is a collection of excerpts from al-Ṭabarī's biographical work entitled *The Supplement to the Supplemented* (*Dhayl al-mudhayyal*). In the introduction to his *History*, al-Ṭabarī declared his intention to append to it a biographical work for the reader's convenience. Only a collection of excerpts has survived, however. It was first published as part of the Leiden edition of the *History*

and is now presented as a volume in the Ṭabarī Translation Project. It brings together biographies of Companions, successors, and scholars of subsequent generations; many chapters are devoted to women related to the Prophet who played a role in the transmission of knowledge. The biographies vary in length and style, ranging from a mere identification of a person to long accounts and anecdotes. This volume represents a long tradition characteristic of Muslim culture. Muslim scholars developed biographical literature into a rich and complex genre. It was intended to be an auxiliary branch of religious study, aimed at determining the reliability of chains of transmission through which traditions were handed down. More often than not, however, works in this genre contain valuable historical information of the kind often ignored by the authors of mainstream history books. Even though not a complete work, this volume is thus not merely a supplement to al-Ṭabarī's History but also a source in its own right, often supplying new and rare insights into events and social conditions.

am870 the answer live: Ameritopia Mark R. Levin, 2012-01-17 In his acclaimed #1 New York Times bestseller, Mark R. Levin explores the psychology, motivations, and history of the utopian movement, its architects—the Founding Fathers, and its modern-day disciples—and how the individual and American society are being devoured by it. Levin asks, what is this utopian force that both allures a free people and destroys them? Levin digs deep into the past and draws astoundingly relevant parallels to contemporary America from Plato's Republic, Thomas More's Utopia, Thomas Hobbes's Leviathan, and Karl Marx's Communist Manifesto, as well as from the critical works of John Locke, Charles Montesquieu, Alexis de Tocqueville, and other philosophical pioneers who brilliantly diagnosed the nature of man and government. As Levin meticulously pursues his subject, the reader joins him in an enlightening and compelling journey. And in the end, Levin's message is clear: the American republic is in great peril. The people must now choose between utopianism or liberty. President Ronald Reagan warned, "freedom is never more than one generation away from extinction." Levin agrees, and with *Ameritopia*, delivers another modern political classic, an indispensable guide for America in our time and in the future.

Their lives would never be the same. Sprite and Pepsi became fast friends; they did everything together. The Levin family fell in love with Sprite. But on Hallowe'en night, three weeks after joining the family, their beloved dog collapsed and had to be rushed to the vet. It was the first of many such visits and a long journey for the Levin family, filled with joy and anguish. Sprite's health deteriorated, even as his spirits remained high and his gentle nature continued to inspire the family and the local community. Towards the end of last year, 2006, the Levin family said their last emotional goodbye. Consumed

with grief, Mark turned to family, friends and fans of his radio show for help. Then new hope came when the Levins least expected it...

am870 the answer live: *The Rational Bible: Exodus* Dennis Prager, 2018-04-02 A national bestseller! Why do so many people think the Bible, the most influential book in world history, is outdated? Why do our friends and neighbors – and sometimes we ourselves – dismiss the Bible as irrelevant, irrational, immoral, or all of these things? This explanation of the Book of Exodus, the second book of the Bible, will demonstrate that the Bible is not only powerfully relevant to today's issues, but completely consistent with rational thought. Do you think the Bible permitted the trans-Atlantic slave trade? You won't after reading this book. Do you struggle to love your parents? If you do, you need this book. Do you doubt the existence of God because belief in God is "irrational?" This book will give you reason after reason to rethink your doubts. The title of this commentary is, "The Rational Bible" because its approach is entirely reason-based. The reader is never asked to accept anything on faith alone. As Prager says, "If something I write does not make rational sense, I have not done my job." The Rational Bible is the fruit of Dennis Prager's forty years of teaching the Bible to people of every faith, and no faith. On virtually every page, you will discover how the text relates to the contemporary world and to your life. His goal: to change your mind – and then change your life.

am870 the answer live: *The War for America's Soul* Sebastian Gorka, 2019-10-08 "Take it from someone who has been on the inside, who understands the fight we are currently in, and who knows what must be done to save our country. Dr. Sebastian Gorka's latest book, *The War for America's Soul*, leverages the former White House strategist's expertise, driven by his determination to preserve what made America great in the first place." — MARK LEVIN Our country is at war with itself. On one side are American patriots, dedicated to freedom under the Constitution; on the other side are leftists campaigning not just to win elections, but to radically transform the nation. In this political war for the soul of our country, America's patriots need a strategist with a blueprint for victory. Luckily, we have such a man in Dr. Sebastian Gorka—a former strategist for President Trump and now a nationally syndicated radio host and a fearless culture warrior. In his essential new book, *The War for America's Soul*, Dr. Gorka shows how America's elite—in both parties—betrayed our heartland, sabotaged the American dream, and accepted national decline as inevitable. It took a candidate with remarkable vision, dauntless courage, and unbreakable determination to change the narrative. That man was Donald Trump. A candidate who owed no favors to special interests, Trump articulated a new American nationalism that has been an extraordinary force for economic and political renewal.

am870 the answer live: A Doomed Cat From The Start With 3 Chances To Live: A Manual On When Not To Have Kids Lionel Barrow, 2023-04-14 These are the life and times of Lionel Ricardo Barrow II. If it were up to me, I would have been dead on May 20, 2003. All I broke was my left elbow and right femur. The Lord still kept me alive and I kept writing. There were still things I needed to do and that is how I see it. Then my nephew stood me up and I get into a car accident that was not my fault at 3 AM on October 28, 2018 when I was two exits away from home. I broke my left leg and right ankle. The Lord still kept me alive and then I wrote this memoir. Even still, there is a lot more to the story. I am a doomed cat from the start that should have not been born and this is a manual on when not to have kids.

am870 the answer live: Brainwashed Ben Shapiro, 2010-06-14 Brainwashed is the explosive exposé of the leftist agenda at work in today's colleges, revealed by firebrand Ben Shapiro—syndicated columnist, podcaster, radio show host, and one of today's most exciting conservative voices—who's been on the front lines of the battle for America's young minds. This book proves once and for all that so-called higher education continues to sink lower and lower into the depths of liberal madness as close-minded professors turn their students into socialists, atheists, race-baiters, and sex-crazed narcissists. In this book, author Ben Shapiro asks three critical questions: Why are universities so biased? Why do students take their professors at face value? What can we do to stop it? In addition to outlining practical solutions as part of a multi-pronged strategy to deal with this problem, Brainwashed encourages students to consider the motives of their professors; pay attention to how professors use facts and editorialize during lectures; and ask questions, encourage debate, and think before buying into a professor's mindset. Praise for Brainwashed: Ben Shapiro's writing is smart, informative, and incisive. He is wise beyond his years without losing the refreshing fearlessness of youth. Ann Coulter, bestselling author of High Crimes and Misdemeanors, Slander, and Treason In Brainwashed, Shapiro tells the truth—that universities are forums of left-liberal indoctrination, where dissent is discouraged and penalized, with more restrictions on free speech rather any other part of American society. Parents who are paying for tuition might want to take note, and see what their hard-earned money is paying for. Michael Barone, U.S. News & World Report and co-author of The Almanac of American Politics Welcome to P.C. 101. In this trenchant insider's expose, Ben Shapiro bears witness to the modern American campus freak show. You'll get up close and personal with the Marxist loons, moral relativists, multicultural zealots, and American-haters who are corrupting young minds. Brainwashed reveals the ignominious lows to which higher education has sunk. Get deprogrammed. Buy this book! Michelle Malkin, nationally syndicated columnist and author of Invasion Sharp thinking, tight writing, crazy-but-true stories: Ben Shapiro sees campus brainwashing and raises a national protest. This is a good book to give both freshmen who need warning and voters/alumni who need to take action. Dr. Marvin Olasky, University of Texas professor and editor-in-chief of World magazine A worthy successor to God and Man at Yale and Harvard Hates America in exploring the belly of the academic beast. David Horowitz, founder of Students for Academic Freedom and author of Radical Son and Left Illusions What Animal House did for the toga party, Brainwashed should do for American resistance to campus radicalism. Rusty Humphries, nationally syndicated radio talk show host

am870 the answer live: Experience Matters: (Here's Mine) Ed Hoffman, 2021-09-10 You've heard, Experience is the best teacher - but the saying doesn't end there. We often forget the important conclusion: ...especially when it's someone else's experience. If you're only learning from your own experience, you're wasting years of time doing all the wrong things. When we learn from the experiences of others, we can save those years and make the right decisions when they count. Who has the experience you should learn from? Anyone and everyone, including the author of this book. Over six decades, Ed Hoffman has gained the experience you need to get through life without: - Student debt - Lost sales - Bad investments - Foreclosure - Marital strife - Parenting regrets - Time-draining hobbies - Information confusion ...And other mistakes you'd like to avoid personally and professionally. Written during the COVID-19 pandemic, Experience Matters is full of (brutal)

honesty and humor. From his 800-mile trek to Pelican Bay Prison to do business with one of the LAPD's top 10 most wanted, to hustling his way into a sport and becoming Amateur World Champion, to witnessing the 2008 mortgage meltdown from behind the curtain, Ed's experiences can inspire you to do whatever it takes to reach your goals. Each chapter includes movie dialogue, because films that depict life experiences can be some of our best teachers. Are you ready to get experienced? am870 the answer live: Atheism Kills Barak Lurie, 2018-03 In Atheism Kills, Barak Lurie exposes the horrors of a world without God. Contrary to the mantra we've heard time and time again that religion is responsible for more deaths than anything else, it is in fact the absence of God which has killed--in obscene numbers. Ever since atheism first assumed government control in the French Revolution, it has done nothing but kill. Atheism has killed through its many deputies: progressivism, eugenics, fascism, and communism. Lurie shows that it was the godlessness in each of these ideologies that killed hundreds of millions. But atheism doesn't just kill lives. It kills purpose, free will, beauty, compassion, a sense of the past and future, creativity, and freedom itself. Atheism offers only the horrors of chaos and totalitarianism. The world misplaces its focus on Radical Islam as the greatest threat to civilization. As horrible as it is, it is doing nothing and having no sense of self which are the true enemies. It was our will to fight and sense of mission that overcame fascism and communism. We must have these to keep Radical Islam at bay, too. This is why we must resist the growth of atheism. It was God that gave us our freedom. It was God who gave our sense of purpose that created civilization. Take those away, and there is nothing to fight for. In this way, Lurie shows that the lack of belief in God is our greatest danger. How does he know? Because like a hurricane, godlessness has only known how to destroy everything in its path. It has never created. Like there will always be fires, there will always be enemies that seek to destroy our civilization. But if we don't have fire stations with crew, and protocol in each city to deal with fires, those fires will consume us. Likewise, how we prepare ourselves to deal with horrific ideologies will be what saves us. That preparation can only come with our embrace of the centrality of God.

am870 the answer live: Dear Father, Dear Son Larry Elder, 2012 A man's relationship with his father: every boy, every man lucky enough to have a father in his life has to figure that out. My own father? I thought I knew him- even though he seldom talked about himself. And what I knew I hated - really, really hated. Cold, ill-tempered, thin-skinned, my father always seemed on the brink of erupting. Scared to death of him, I kept telling myself to find the courage to 'stand up to him.' When I was fifteen, I did. We did not speak to each other for ten years. And then we did- for eight hours. 'Dear Father, Dear Son' takes a journey of American history through the eyes of a father- from his dirt-poor Jim Crow Southern childhood, to the segregated Marine Corps of World War II, to a janitor turned California business man. Hard memories. One man discovered a son he never really knew. And the son found a man, a friend, a father who had really been there all along.--p.[4] of dust jacket.

am870 the answer live: Bonhoeffer Eric Metaxas, 2011-08-29 Who better to face the greatest evil of the 20th century than a humble man of faith? As Adolf Hitler and the Nazis seduced a nation, bullied a continent, and attempted to exterminate the Jews of Europe, a small number of dissidents and saboteurs worked to dismantle the Third Reich from the inside. One of these was Dietrich Bonhoeffer, a pastor and author. In this New York Times bestselling biography, Eric Metaxas takes both strands of Bonhoeffer's life--the theologian and the spy--and draws them together to tell a searing story of incredible moral courage in the face of monstrous evil. In Bonhoeffer, Metaxas presents the fullest account of Bonhoeffer's life, including his: heart-wrenching decision to leave the safe haven of America to return to Hitler's Germany involvement in the famous Valkyrie plot and in Operation 7, the effort to smuggle Jews into neutral Switzerland lifelong dedication to sharing the tenets of his faith This edition, revised and with a new introduction from the author, shares the

deeply moving story through previously unavailable documents, including personal letters, detailed journal entries, and firsthand personal accounts to reveal never-before-seen dimensions of Bonhoeffer's life and work. Praise for Bonhoeffer: Metaxas has created a biography of uncommon power--intelligent, moving, well researched, vividly written, and rich in implication for our own lives. Or to put it another way: Buy this book. Read it. Then buy another copy and give it to a person you love. It's that good. --Archbishop Charles Chaput, author, First Things Metaxas tells Bonhoeffer's story with passion and theological sophistication. —Wall Street Journal Metaxas presents Bonhoeffer as a clear-headed, deeply convicted Christian who submitted to no one and nothing except God and his Word. --Christianity Today Metaxas has written a book that adds a new dimension to World War II, a new understanding of how evil can seize the soul of a nation and a man of faith can confront it. --Thomas Fleming, author, The New Dealers' War

am870 the answer live: Why We Fight Sebastian Gorka, 2018-10-09 Sebastian Gorka was [President Trump's] strategist. Dr. Gorka knows Donald Trump and the threats we face. Buy and read Why We Fight to find how we win and what it means to be an American hero. — RUSH LIMBAUGH WAR. It will happen again. We must be ready. Sober words from Dr. Sebastian Gorka, a man who has made the unvarnished truth his specialty. And there's one eternal truth that Americans are in danger of forgetting: the most important weapon in any geopolitical conflict is the will to win. And we must win. In this powerful manifesto, Dr. Gorka explains the basic principles that have guided strategists since Sun Tzu penned The Art of War in the sixth century B.C. To defeat your enemy, you must know him. But that's the last thing liberal elites are interested in. Willful ignorance about our adversary—whether it's Russia, China, or the global jihadi movement—has been crippling. Tearing off America's politically correct blindfold, Dr. Gorka clarifies who our foes are and what makes them tick. An eight-year vacation from geopolitical reality under Obama left our country dangerously weakened. Dr. Gorka addresses the pressing questions we face as we rebuild under President Trump's leadership: - What are the most serious threats to American security? - How are they different from the threats of the past? - What can we do to counter these threats? - How can we achieve the "perfect victory" of vanquishing our enemies without mortal combat? All the money and weapons in the world cannot substitute for the will to fight for our precious country and what she represents. To remind us of what the will to win looks like, Dr. Gorka intersperses the stories of four American heroes—Stephen Decatur, Chesty Puller, "Red" McDaniel, and a warrior who never took

up arms, Whittaker Chambers—men who believed in their country and put everything on the line for her.

am870 the answer live: The Seven Spiritual Weapons Catherine of Bologna, 2011-07-18 St. Catherine of Bologna, much venerated in her own city, has been little known outside of her native region but interest in her is now increasing. The outline of her life is clear and her own work, *The Seven Spiritual Weapons*, tells a good deal about her inner experiences and early years in the cloister. The introduction to this translation situates her life in the history of Ferrara and Bologna and studies how the external history of the community impinged on Catherine's own religious experience and how it was interwoven with her successful struggle against depression.

One of Lansing's founding families keeps a spectral vigil over its homestead, the Turner Dodge House. A witch's vengeful curse follows those who trespass on Seven Gables Road, one of the state's most haunted stretches. Founder of Demented Mitten Tours and local author Jenn Carpenter leads readers to the dark side of the Capital City.

am870 the answer live: Think a Second Time Dennis Prager, 2010-09-14 What are the two great lies of the 20th century? Is there a solution to evil? What matters more, blood or love? Can a good man go to a striptease show? Do you think you have the answers? ...Think a second time. Dennis Prager, theologian and philosopher turned talk-show host, is one of the most brilliant and compelling voices in America today. His extraordinarily popular radio show with the signature sign-off, *Think a second time*, coupled with his own biweekly newsletter, has firmly established him as a fixture in intellectual communities nationwide. In *Think a Second Time*, Prager blends a rigorous and scholarly education with utterly original thinking on current events. From the dangers of idealism to the roots of extremism to his thoughts on God and an afterlife, Prager offers challenging answers to up-to-the-minute questions: Should a single woman have a child? Why don't good homes always produce good children? Is America really racist? Why does the Holocaust not negate the existence of God? Now, with an entirely new section on the precedent-setting Baby Richard custody case and an exploration of the issue of blood versus love, Prager continues to demonstrate his ability to draw clear moral lines in the sands of our very troubled times.
