1923 tv series episode guide: A Brief Guide to Ghost Hunting Leo Ruickbie, 2013-08-15 There has been an upsurge in books, television programmes, films and websites exploring the reality or otherwise of the spirit world. Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular. Television and the internet, in particular, have fueled this new level of interest, creating a modern media phenomenon that spans the globe. But while the demand for information is high, good information remains scarce. A Brief Guide to Ghost Hunting leads us through the process of ghost hunting, from initially weighing the first report, to choosing equipment, and investigating and identifying the phenomena, with an analysis of the best places to go looking, methods of contacting the spirit world, how to explain paranormal activity and, crucially, how to survive the encounter. However, it is also a book about ghost hunting itself, drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories. A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views, motivations and experiences. New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK. This is, as far as possible, an objective presentation of ghosts and ghost hunting. It is no wonder that mainstream science largely refuses to deal with the subject: it is too complicated. Without trying to convince you of any viewpoint, this book is intended to help you understand more.

1923 tv series episode guide: Charlie Chaplin's Little Tramp in America, 1947-77 Lisa Stein Haven, 2016-11-09 This book focuses on the re-invigoration of Charlie Chaplin's Little Tramp persona in America from the point at which Chaplin reached the acme of his disfavor in the States, promoted by the media, through his departure from America forever in 1952, and ending with his death in Switzerland in 1977. By considering factions of America as diverse as 8mm film collectors, Beat poets and writers and readers of Chaplin biographies, this cultural study determines conclusively that Chaplin's Little Tramp never died, but in fact experienced a resurgence, which began slowly even before 1950 and was wholly in effect by 1965 and then confirmed by 1972, the year in which Chaplin returned to the United States for the final time, to receive accolades in both New York and Los Angeles, where he received an Oscar for a lifetime of achievement in film.

1923 tv series episode guide: Fabricating Lureland Julia Winckler, 2021-12-06 Through the analysis of surviving archival traces, this book constructs a history of the imagination and memory of the town of Peacehaven. Built as a speculative development atop iconic chalk cliffs on the Sussex Coast and marketed as a garden city by the sea, the estate quickly attracted adverse publicity. Influential voices such as the Bloomsbury group's Virginia and Leonard Woolf, architect and writer Clough Williams-Ellis and the Campaign for the Protection of Rural England soon began to criticise it as a blot on the rolling, pastoral downland. Instead of reading and appraising Peacehaven's story in a polarized way, this book breaks new ground by critically interpreting visual representations and commissioned photographs of the Estate and re-evaluating propositions from its inception, which aspired to secure improved public health and home ownership in direct response to the negative impact of industrialization and WWI. Focusing on the interwar period and tracing mutating agendas, the book investigates contested marketing and construction narratives through *Histoire Croisée* methodology and its intercrossings with memory and the imagination. By combining visual and creative research methods with oral history, multi-layered narratives of place come into focus. The study tracks the visual programme of the developer's in-house magazine, *Peacehaven Post*, alongside previously underexplored blueprints, photographs, postcards and promotional guidebooks, and considers the garden city narrative as a form of social Utopia. Garden city ideals are once again evoked in debates as a potential solution to the ongoing national housing shortage, giving this research additional urgency as new large-scale redevelopment erases many of the few and fast disappearing original landmarks.

1923 tv series episode guide: George Washington on Screen Leigh Ehlers Telotte, 2023-07-17 One of the most moving narratives from the American Revolution is the first presidential administration and the many precedents set by George Washington. While media historians have extensively analyzed screen portrayals of the more sensational events of America in the 1750s to the 1790s, far less attention has been paid to portrayals of the first presidency and the character of George Washington in film, television and other formats. This book addresses that gap by providing the most comprehensive analysis of the character of George Washington on screen. Divided into two parts, the book begins with an analysis of how the Washington character has evolved through time and screen media, from early silent films to modern multimedia products. In Part II, a filmography documents each piece of screen media that features a representation of Washington. It includes silent films, theatrical films, cartoons, television and screen media from the 21st century, such as streaming, video games and multimedia presentations. Arranged alphabetically, each entry includes

format type, production details, crew and cast lists and a brief description of Washington's character in relation to the plot.
