1958 trivia questions and answers: Brainiac Ken Jennings, 2006-09-12 NATIONAL BESTSELLER • A witty, charming, and engaging dive into trivia's colorful history, from America's highest-earning game show contestant of all time and host of Jeopardy! "Insightful, informative, and written with a strong dose of humor and humility. . . . I loved this book."—Will Shortz, crossword editor, The New York Times Ken Jennings is trivia's undisputed king—and as he traces his rise from anonymous computer programmer to nerd folk icon, he explores his newly conquered kingdom: the world of trivia itself. Trivia, he has found, is centuries older than his childhood obsession with it. Whisking us from the coffeehouses of seventeenth-century London to the Internet age, Jennings chronicles the ups and downs of the trivia fad: the quiz book explosion of the Jazz Age; the rise, fall, and rise again of TV quiz shows; the nostalgic campus trivia of the 1960s; and the 1980s, when Trivial Pursuit® again made it fashionable to be a know-it-all. Jennings also investigates the shadowy demimonde of today's trivia subculture, guiding us on a tour of trivia across America. He goes head-to-head with the blowhards and diehards of the college quiz-bowl circuit, the slightly soused faithful of the Boston pub trivia scene, and the raucous participants in the annual Q&A marathon in Stevens Point, Wisconsin, "The World's Largest Trivia Contest." And, of course, he takes us behind the scenes of his improbable 75-game run on Jeopardy! But above all, Brainiac is a love letter to the useless fact. (Who knew that there's a crater on Venus named after Laura Ingalls Wilder? Ken Jennings, that's who.) Engaging and erudite, Brainiac is an irresistible celebration of nostalgia, curiosity, and geeky obsession—in a word, trivia.

1958 trivia questions and answers: Ken Jennings's Trivia Almanac Ken Jennings, 2008-01-15 The all-time champion and host of Jeopardy! gives you the chance to test your trivia mettle in this ingeniously organized book of 8,888 questions. For example—February 21: In 1912, on

this day, Teddy Roosevelt coined the political phrase “hat in the ring,” so Ken Jennings fires off a series of “ring” questions. In 1979, who became the first NFL quarterback with four Super Bowl rings? What rings are divided by the Cassini Division? Also on this date, in 1981, the “goth” music scene was born in London, so here’s a quiz on black-clad icons like Darth Vader, Johnny Cash, and Zorro. Do you know the secret identities of Ivanhoe’s Black Knight or Men in Black’s Agent M? In this ultimate book for trivia buffs and other assorted know-it-alls, the 365 entries feature “This Day in History” factoids, trivia quizzes, and questions categorized by Jennings as “Easy,” “Hard,” and “Yeah, Good Luck.” Topics cover every subject under the sun, from paleontology to mixology, sports feats to Bach suites, medieval popes to daytime soaps. This addictive gathering of facts, oddities, devilishly clever quizzes, and other flights of fancy will make each day a fun and intriguing new challenge.

1958 trivia questions and answers: Cold War Journalism Kevin Grieves, 2021-04-29 This book explores Cold War journalism and journalists as threat, representing ‘enemy’ systems and ideologies. The book also examines Cold War aspirations of forging transnational journalistic connections across the Iron Curtain as well as finding common journalistic ground within the East and West blocs. The book shines a critical light on overly idealistic visions for that journalistic common ground, drawing on primary archival source material to investigate journalists and reporting work, journalistic content and journalistic venues during the Cold War era. This is not a book about traditional war correspondence – rather, it is about the rhetorical battles and the ideological fronts that have shaped and continue to shape our world. By fully understanding how journalism and journalists have intersected with hostile barriers and divisions in the past, we can have a more nuanced understanding of the current global media environment.

1958 trivia questions and answers: Tuning in Ronald Wayne Rodman, 2010 Television has been called the boob tube, goof box, and even a vast wasteland of American culture. Yet, for all its banality, television is in many ways a mirror of culture, and communicates messages within culture through the multiple channels of visual images, language, sound, and music. All of these channels contain their own unique coded messages to create the larger meaningful text of television. As one of these sensory channels, music contributes to meaning in television through its artistic language and through television viewers' association of music with certain aspects of culture. Music has always been an integral part of the American television, even from its earliest days. Like its parent medium of radio, television broadcasts music to entertain viewers with live and video taped performances, but music has also come to play a much larger role in television beyond its pleasurable performance aspects. Music is used in narrative programs to evoke moods and identify

characters and setting, it is used to sell products through commercial jingles, and most importantly, music generally aids broadcast television in navigating through the continuous flow of daily programming. This navigational aspect of television music is a distinctive feature, and functions to transport the viewer through three spaces of TV: the flow of the televisual apparatus, with commercials, newbreaks, and promos; the storyworld of each narrative program, and the representational space between narrative and flow. As *Heard on TV* is an examination and analysis of music in American television during the first fifty years of its history. The book focuses on how music has functioned to serve as a navigator through the flow of television and contributing to structure narrative programs, while also conveying meaning to its viewers by correlating with the images and sounds that it accompanies. Drawing from precedents of the cinema and radio, the book examines music in a number of classic television genres by positing a theory of functional musical spaces adapted from theories of Charles Morris, Umberto Eco, John Fiske, and others.

1958 trivia questions and answers: *This Is Our Town* Alexandra Osborn Spotti, 2021-08-20 With World War II raging throughout Europe, the United States knew it needed to produce magnesium—the "miracle metal"—in prodigious quantities. Thousands of souls from across the United States heeded the call and traveled to Southern Nevada to build the world's largest magnesium production plant. Living conditions were harsh in the parched desert encampment that some called Tent City. But the iron-willed men and women who answered the call would break all records in magnesium production. When the war ended, however, a mass exodus from the settlement left it on the brink of becoming just another ghost town. In this book, the author offers readers a front-row seat to the development of Henderson, Nevada. In plain, straightforward language, she examines the forces that propelled the small community through the war and how it continued to thrive into the twenty-first century. Whether you're interested in World War II, the history of Nevada, or the history of Henderson in particular, this book reveals the powerful impact of a small desert town.
