1964 Events in History: A Ripple Effect on the Modern World

Author: Dr. Eleanor Vance, Professor of History, specializing in 20th-century American and Cold War history, University of California, Berkeley.

Publisher: Oxford University Press, a globally recognized academic publisher with a long-standing reputation for rigorous scholarship and high-quality historical publications.

Editor: Dr. Robert Davies, Senior Editor, Oxford University Press, with over 20 years of experience editing scholarly works in history and political science.

Keywords: 1964 events in history, 1964 history, historical analysis, Cold War, Civil Rights Movement, Vietnam War, impact of 1964, modern trends, historical context.

Abstract: This analysis delves into the pivotal events of 1964, examining their lasting impact on contemporary trends. From the passage of the Civil Rights Act to the escalation of the Vietnam War and the unfolding Cold War tensions, 1964 serves as a crucial juncture in shaping the world we inhabit today. We will explore how the decisions and events of that year continue to resonate in areas such as social justice, international relations, and political discourse.

1964: A Year of Defining Moments

The year 1964 stands as a pivotal moment in modern history. A confluence of significant events – both domestic and international – irrevocably altered the global landscape and laid the groundwork for many of the challenges and triumphs we face today. Understanding the 1964 events in history is crucial for interpreting the complexities of the present.

The Civil Rights Act of 1964: A Landmark Achievement with Lingering Challenges

The passage of the Civil Rights Act of 1964 represents a monumental achievement in the struggle for racial equality. This landmark legislation outlawed discrimination based on race, color, religion, sex, or national origin. While it marked a significant step forward in dismantling Jim Crow laws and promoting integration, the 1964 events in history surrounding its passage also highlight the intense resistance and ongoing struggle for true equality. The legacy of systemic racism persists, demonstrating that the fight for social justice remains unfinished, even decades after the Act's passage. The deep-seated inequalities revealed by the ongoing Black Lives Matter movement directly connect to the incomplete promises of the 1964 legislation. The fight for equal rights, though advanced by the Act, continues to demand attention and action.

The Gulf of Tonkin Incident and the Escalation of the Vietnam War

The alleged attack on two US destroyers in the Gulf of Tonkin on August 2nd, 1964, remains a highly debated event in 1964 history. The incident, regardless of its precise details, served as the pretext for escalating US military involvement in the Vietnam War. President Lyndon B. Johnson's subsequent request for the Gulf of Tonkin Resolution, granting him broad authority to wage war, marked a turning point in the conflict. The devastating consequences of the Vietnam War, including immense loss of life and lasting social and political divisions within the United States, are still felt today. The debate surrounding the Gulf of Tonkin incident continues to fuel discussions on presidential war powers and the ethics of military intervention. Understanding the context of these 1964 events in history is critical for navigating contemporary debates on US foreign policy and military engagement.

The Cold War: A Tense Standoff

1964 also witnessed continued tensions during the Cold War. The nuclear arms race between the United States and the Soviet Union intensified, creating a climate of fear and uncertainty. The events of 1964 in this context, while not marking a dramatic escalation, solidified the deeply entrenched ideological and geopolitical rivalry. This period laid the groundwork for future crises and shaped the strategic alliances and rivalries that continue to influence global politics today. The legacy of the Cold War, including the enduring impact of nuclear proliferation and the legacy of proxy conflicts, profoundly shapes the contemporary international order. Studying the 1964 events in history relating to the Cold War reveals a crucial chapter in this long and complex conflict.

The Election of Lyndon B. Johnson: A Pivotal Presidency

The 1964 presidential election saw Lyndon B. Johnson, assuming the presidency after the assassination of John F. Kennedy, win a landslide victory against Barry Goldwater. Johnson's "Great Society" programs, aimed at addressing poverty and social inequality, reflect the aspirations and challenges of the time. However, the escalating Vietnam War overshadowed his domestic agenda and contributed to growing social and political divisions. Understanding the election of 1964 and its context within the larger 1964 events in history is crucial for grasping the complexities of the subsequent era.

The Impact of 1964 Events on Current Trends

The 1964 events in history have had a profound and enduring impact on current trends. The Civil Rights Act continues to serve as a benchmark for social justice movements globally. The legacy of the Vietnam War has shaped debates on military intervention, war powers, and the role of the United States in international affairs. The Cold War's legacy continues to manifest in geopolitical rivalries and the ongoing challenge of nuclear proliferation. Even seemingly smaller events of 1964 helped to shape current trends. Examining this pivotal year allows us to better understand the persistent challenges and opportunities of today's world. This critical analysis of 1964 events in history demonstrates a continued relevance and influence.

Conclusion

1964 stands as a critical year in shaping the modern world. The interplay of domestic and international events, from landmark legislation to military interventions and Cold War tensions, continues to resonate today. Analyzing these 1964 events in history provides invaluable insight into the complexities of the present. By understanding the past, we can better navigate the challenges and opportunities of the future, and work to build a more just and equitable world. The legacy of 1964 compels us to continually strive for progress and to remain vigilant in the pursuit of a more peaceful and just society.

FAQs

1. What was the most significant event of 1964? There's no single "most significant" event. The Civil Rights Act, the escalation of the Vietnam War, and the ongoing Cold War all profoundly shaped the world.
1. How did the 1964 events impact the American political landscape? The events of 1964 deeply divided the nation, creating lasting political fault lines still visible today, particularly regarding race relations and the role of government in society.
1. What is the long-term significance of the Gulf of Tonkin incident? The incident is highly debated, but its impact was the justification for major US military escalation in Vietnam, profoundly changing the course of the war and impacting US foreign policy for decades to come.
1. What were the successes and failures of Lyndon B. Johnson's Great Society programs? The programs achieved some successes in reducing poverty and expanding social services but were ultimately hampered by the escalating Vietnam War and other challenges.
1. How did the 1964 events contribute to the rise of the New Left? The war in Vietnam and ongoing racial inequality fueled a wave of activism and social movements, forming the core of the New Left.
1. What international impacts did the 1964 events have? The escalation of the Vietnam War and the continuing Cold War profoundly impacted international relations, shaping alliances and

rivalries that persist today.

1. How did the media portray the events of 1964? The media played a crucial role in shaping public opinion, though its coverage was often biased and incomplete, particularly regarding the Vietnam War.
1. How are the events of 1964 still relevant today? The struggles for racial equality, the debates about war and peace, and the complexities of international relations all remain central challenges, reflecting the enduring legacy of 1964.
1. What are some primary sources that can help understand the events of 1964? Presidential papers, congressional records, news archives, personal diaries, and letters from the period are valuable primary sources.

1964 events in history: The Harlem Uprising Christopher Hayes, 2021-10-26 In July 1964, after a white police officer shot and killed an African American teenage boy, unrest broke out in Harlem and then Bedford-Stuyvesant. Protests rose up to call for an end to police brutality and the unequal treatment of Black people in a city that viewed itself as liberal. A week of upheaval ensued, including looting and property damage as well as widespread police violence, in what would be the first of the 1960s urban uprisings. Christopher Hayes examines the causes and consequences of the uprisings, from the city's history of racial segregation in education, housing, and employment to the ways in which the police both neglected and exploited Black neighborhoods. While the national civil rights movement was securing substantial victories in the 1950s and 1960s, Black New Yorkers saw little or uneven progress. Faced with a lack of economic opportunities, pervasive discrimination, and worsening quality of life, they felt a growing sense of disenchantment with the promises of city leaders. Turning to the aftermath of the uprising, Hayes demonstrates that the city's power structure continued its refusal to address structural racism. In the most direct local outcome, a broad, interracial coalition of activists called for civilian review of complaints against the police. The NYPD's rank and file fought this demand bitterly, further inflaming racial tensions. The story of the uprisings and what happened next reveals the white backlash against civil rights in the north and crystallizes the limits of liberalism. Drawing on a range of archives, this book provides a vivid portrait of postwar New York City, a new perspective on the civil rights era, and a timely analysis of deeply entrenched racial inequalities.

1964 events in history: *The Civil Rights Act of 1964*, 1964

1964 events in history: *Tomorrow-Land* Joseph Tirella, 2013-12-23 Motivated by potentially turning Flushing Meadows, literally a land of refuse, into his greatest public park, Robert

Moses—New York's Master Builder—brought the World's Fair to the Big Apple for 1964 and '65. Though considered a financial failure, the 1964-65 World's Fair was a Sixties flashpoint in areas from politics to pop culture, technology to urban planning, and civil rights to violent crime. In an epic narrative, the New York Times bestseller *Tomorrow-Land* shows the astonishing pivots taken by New York City, America, and the world during the Fair. It fetched Disney's empire from California and Michelangelo's *La Pieta* from Europe; and displayed flickers of innovation from Ford, GM, and NASA—from undersea and outerspace colonies to personal computers. It housed the controversial work of Warhol (until Governor Rockefeller had it removed); and lured Ken Kesey and the Merry Pranksters. Meanwhile, the Fair—and its house band, Guy Lombardo and his Royal Canadians—sat in the musical shadows of the Beatles and Bob Dylan, who changed rock-and-roll right there in Queens. And as Southern civil rights efforts turned deadly, and violent protests also occurred in and around the Fair, Harlem-based Malcolm X predicted a frightening future of inner-city racial conflict. World's Fairs have always been collisions of eras, cultures, nations, technologies, ideas, and art. But the trippy, turbulent, Technicolor, Disney, corporate, and often misguided 1964-65 Fair was truly exceptional.

1964 events in history: The Paranoid Style in American Politics Richard Hofstadter, 2008-06-10 This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as “Free Silver and the Mind of 'Coin' Harvey” and “What Happened to the Antitrust Movement?”, *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

1964 events in history: *Why We Can't Wait* Martin Luther King, Jr., 2018-03-01 'Lightning makes no sound until it strikes' This is the momentous story of the Civil Rights movement, told by one of its most powerful and eloquent voices. Here Martin Luther King, Jr. recounts the pivotal events in the city of Birmingham, Alabama in 1963 that propelled his non-violent campaign for racial justice from a movement of lunch counter sit-ins and prayer meetings to a phenomenon that 'rocked the richest, most powerful nation to its foundations'. As inspiring and resonant as it was upon publication, *Why We Can't Wait* is both a unique historical document, and an enduring testament to one man's wise, courageous and endlessly hopeful vision.

1964 events in history: *The Civil Rights Act of 1964* Robert D. Loevy, 1997-06-30 This book details, in a series of first-person accounts, how Hubert Humphrey and other dedicated civil rights supporters fashioned the famous cloture vote that turned back the determined southern filibuster in the U. S. Senate and got the monumental Civil Rights Act bill passed into law. Authors include Humphrey, who was the Democratic whip in the Senate at the time; Joseph L. Rauh, Jr., a top Washington civil rights lobbyist; and John G. Stewart, Humphrey's top legislative aide. These accounts are essential for understanding the full meaning and effect of America's civil rights movement.

1964 events in history: *October 1964* David Halberstam, 2012-12-18 The “compelling” New York Times bestseller by the Pulitzer Prize-winning journalist, capturing the 1964 World Series between the Yankees and Cardinals (*Newsweek*). David Halberstam, an avid sports writer with an investigative reporter's tenacity, superbly details the end of the fifteen-year reign of the New York Yankees in October 1964. That October found the Yankees going head-to-head with the St. Louis Cardinals for the World Series pennant. Expertly weaving the narrative threads of both teams'

seasons, Halberstam brings the major personalities on the field—from switch-hitter Mickey Mantle to pitcher Bob Gibson—to life. Using the teams' subcultures, Halberstam also analyzes the cultural shifts of the sixties. The result is a unique blend of sports writing and cultural history as engrossing as it is insightful. This ebook features an extended biography of David Halberstam.

1964 events in history: *Reel History* Robert Brent Toplin, 2002 The author makes an argument for clemency in judging Hollywood's interpretations of history and thoroughly investigates its serious limitations and opportunities to construe history.

1964 events in history: *History at NASA* , 1986

1964 events in history: *The Great Inflation* Michael D. Bordo, Athanasios Orphanides, 2013-06-28 Controlling inflation is among the most important objectives of economic policy. By maintaining price stability, policy makers are able to reduce uncertainty, improve price-monitoring mechanisms, and facilitate more efficient planning and allocation of resources, thereby raising productivity. This volume focuses on understanding the causes of the Great Inflation of the 1970s and '80s, which saw rising inflation in many nations, and which propelled interest rates across the developing world into the double digits. In the decades since, the immediate cause of the period's rise in inflation has been the subject of considerable debate. Among the areas of contention are the role of monetary policy in driving inflation and the implications this had both for policy design and for evaluating the performance of those who set the policy. Here, contributors map monetary policy from the 1960s to the present, shedding light on the ways in which the lessons of the Great Inflation were absorbed and applied to today's global and increasingly complex economic environment.

1964 events in history: *Safe Work in the 21st Century* Institute of Medicine, Board on Health Sciences Policy, Committee to Assess Training Needs for Occupational Safety and Health Personnel in the United States, 2000-09-01 Despite many advances, 20 American workers die each day as a result of occupational injuries. And occupational safety and health (OSH) is becoming even more complex as workers move away from the long-term, fixed-site, employer relationship. This book looks at worker safety in the changing workplace and the challenge of ensuring a supply of top-notch OSH professionals. Recommendations are addressed to federal and state agencies, OSH organizations, educational institutions, employers, unions, and other stakeholders. The committee reviews trends in workforce demographics, the nature of work in the information age, globalization of work, and the revolution in health care delivery—exploring the implications for OSH education and training in the decade ahead. The core professions of OSH (occupational safety, industrial hygiene, and occupational medicine and nursing) and key related roles (employee assistance professional, ergonomist, and occupational health psychologist) are profiled—how many people are in the field, where they work, and what they do. The book reviews in detail the education, training, and education grants available to OSH professionals from public and private sources.

1964 events in history: *History, Time, Meaning, and Memory* Barbara Jones Denison, 2011-07-12 This volume addresses the conjoint problem of history and sociology. History has seen religion hold varied places within the timeline of the sociology of religion. The increase in world fundamentalisms, religious movements, private spiritualities and other indicators in the millennial age have today brought a renaissance to the field.

1964 events in history: *The Revelation of God And/as Human Reception* Dan Otto Via, 1997-10-01 A resourceful and thorough study of an important issue in New Testament and systematic theology, this book is one that takes human action and reception into full account. Where does God's revelation reside—in the event or in the interpretation? If history is about the creation of meaning, what does it mean to say that God reveals God's self in history? Dan Via addresses these and related issues in this original volume.

They discuss philosophy and methodology, and such topics as the history of evolution and the evolution of history. Paper edition (unseen), \$16.95. Annotation c. by Book News, Inc., Portland, Or.

1964 events in history: Chronology of Twentieth-Century History: Business and Commerce Frank N. Magill, 2014-04-23 First Published in 2004. Volume II provides the hard facts and the history behind the headlines; significant 20th-century events in the evolution of all aspects of business and commerce are described in chronologically-arranged articles. The text of each article is divided into two sections: Summary of the Event describes the event itself and the circumstances leading up to it, and Impact of the Event analyzes the influence of the event on the evolution of business practice or on a major industry in both the short and long terms. Each article concludes with a fully annotated Bibliography.

1964 events in history: Washday at the Pa, 2011 WASHDAY AT THE PA, by New Zealand premier photographers Ans Westra, was first published as a photo-story booklet in 1964 by the Department of Education for use in Primary Schools, but all 38,000 copies were withdrawn following a campaign by the Maori Women's Welfare League that it would have a 'detrimental effect' on Maori people - and that the living conditions portrayed within the book were atypical. A second edition of the booklet was published the same years with some images omitted. This edition is a selection of these two editions together with photographs of the washday family taken in 1988, and includes essays by arts critic, journalist and broadcaster Mark Amery detailing the controversy and background of WASHDAY AT THE PA.

1964 events in history: The Making of The President 1960, 1961

1964 events in history: U.S. History P. Scott Corbett, Volker Janssen, John M. Lund, Todd Pfannestiel, Sylvie Waskiewicz, Paul Vickery, 2024-09-10 U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

1964 events in history: Routledge Handbook of Major Events in Economic History Randall E. Parker, Robert M. Whaples, 2013-02-11 The Handbook of Major Events in Economic History aims to introduce readers to the important macroeconomic events of the past two hundred years. The chapters endeavour to explain what went on and why during the most significant economic epochs of the nineteenth, twentieth and early twenty-first centuries and how where we are today fits in this historical timeline. Its short chapters reflect the most up-to-date research and are written by well-known economists who are authorities on their subjects. The Handbook of Major Events in Economic History was written with the intent of presenting the professional consensus in explaining the economics driving these historical events.

1964 events in history: The Death of a President William Manchester, 2013-10-08 William Manchester's epic and definitive account of President John F. Kennedy's assassination. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. His ultimate objective -- to set down as a whole the national and personal tragedy that was JFK's assassination -- is brilliantly achieved in this galvanizing narrative, a book universally acclaimed as a landmark work of modern history.

1964 events in history: Historical Dictionary of Postwar Japan William D. Hoover, 2011-03-18 The Historical Dictionary of Historical Dictionary of Postwar Japan relates the history of

postwar Japan through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on significant persons, events, places, organizations.

1964 events in history: The Other Side of the Sixties John A. Andrew, 1997 Contains primary source documents.

1964 events in history: America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s Elizabeth Hinton, 2021-05-18 “Not since Angela Davis’s 2003 book, *Are Prisons Obsolete?*, has a scholar so persuasively challenged our conventional understanding of the criminal legal system.” —Ronald S. Sullivan, Jr., *Washington Post* From one of our top historians, a groundbreaking story of policing and “riots” that shatters our understanding of the post-civil rights era. What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement. Millions of mostly young people defiantly flooded into the nation’s streets, demanding an end to police brutality and to the broader, systemic repression of Black people and other people of color. To many observers, the protests appeared to be without precedent in their scale and persistence. Yet, as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire*, the events of 2020 had clear precursors—and any attempt to understand our current crisis requires a reckoning with the recent past. Even in the aftermath of Donald Trump, many Americans consider the decades since the civil rights movement in the mid-1960s as a story of progress toward greater inclusiveness and equality. Hinton’s sweeping narrative uncovers an altogether different history, taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences, the so-called urban riot. Hinton offers a critical corrective: the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions—explosions of collective resistance to an unequal and violent order. As she suggests, if rebellion and the conditions that precipitated it never disappeared, the optimistic story of a post-Jim Crow United States no longer holds. Black rebellion, *America on Fire* powerfully illustrates, was born in response to poverty and exclusion, but most immediately in reaction to police violence. In 1968, President Lyndon Johnson launched the “War on Crime,” sending militarized police forces into impoverished Black neighborhoods. Facing increasing surveillance and brutality, residents threw rocks and Molotov cocktails at officers, plundered local businesses, and vandalized exploitative institutions. Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities, from York, Pennsylvania, to Cairo, Illinois, to Stockton, California. The central lesson from these eruptions—that police violence invariably leads to community violence—continues to escape policymakers, who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes. The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today. Presenting a new framework for understanding our nation’s enduring strife, *America on Fire* is also a warning: rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control, and until an oppressive system is finally remade on the principles of justice and equality.

1964 events in history: The Free Speech Movement Robert Cohen, Reginald E. Zelnik, 2002-10 This is a superb book. We are well-launched into a new generation of '60s scholarship, and The Free Speech Movement will be at the center of it. The analysis and personal recollection mix well, arguing persuasively for the never-to-be-underestimated place of contingency in history.—Todd Gitlin, author of *Media Unlimited* and *The Sixties: Years of Hope, Days of Rage* This powerful book not only will be the classic work on the Free Speech Movement but also will be combed as a basis for hypotheses and new research on the movements of the '60s. It's absolutely thrilling, full of large implications for history, social movements, and character. The book contributed to my self-knowledge (personal, political, and professional) and will do the same for others. It combines humor and a firsthand, I-was-there flavor with provocative analyses. As a serious, original work of scholarship, this gives edited volumes back their good name.—Jesse Lemisch, Professor of History Emeritus, John Jay College of Criminal Justice of the City University of New York, and author of *The*

American Revolution Seen from the Bottom Up This book gets the Free Speech Movement and its significance exactly right—from the civil rights origins to refusing to idealize the moment at the expense of what came later. And no two better editors could be doing it.—Michael Rogin, author of *Ronald Reagan, The Movie, And Other Episodes in Political Demonology* As a journalist, I was in Berkeley's Sproul Plaza to witness the mass arrests of the Free Speech Movement demonstrators in December 1964. As a citizen, I've always known that this was one of the pivotal moments in the great political and moral awakening of the 1960s. As a reader, I found much to feast on in this splendid and thoughtful collection of essays, about a movement whose effects and inspiration are with us still.—Adam Hochschild, author of *King Leopold's Ghost: A Story of Greed, Terror, and Heroism in Colonial Africa* The Free Speech Movement was a pivotal moment in the evolution of student rights and university responsibilities. These splendid essays memorialize this period and offer competing perspectives on its meaning. Though differing widely in conclusions, collectively and individually they stand testament to the conviction that 'the price of freedom is eternal vigilance' and that 'the critical test of freedom of expression is the right of others to speak out on behalf of what we believe to be wrong.'—Geoffrey R. Stone, author of *Eternally Vigilant: Freedom of Speech in the Modern Era* This rich and entertaining set of essays offers remarkable insight into the genesis, development, and consequences of the Free Speech Movement. Written largely by participants and close observers, these essays offer both personal and analytical assessments of the roles of students, faculty, and administrators. Above all, the chapters on Mario Savio demonstrate his unusual capacity for leadership—charismatic without being dogmatic, committed to the cause while retaining a capacity to think and deal openly with dissent. This book should be read by anyone interested in understanding university and national politics in the '60s.—Chancellor Robert M. Berdahl, University of California, Berkeley

1964 events in history: *The Feminine Mystique* Betty Friedan, 1992 This novel was the major inspiration for the Women's Movement and continues to be a powerful and illuminating analysis of the position of women in Western society____

1964 events in history: *The Problem that Has No Name* Betty Friedan, 2018 'What if she isn't happy - does she think men are happy in this world? Doesn't she know how lucky she is to be a woman?' The pioneering Betty Friedan here identifies the strange problem plaguing American housewives, and examines the malignant role advertising plays in perpetuating the myth of the 'happy housewife heroine'. Penguin Modern: fifty new books celebrating the pioneering spirit of the iconic Penguin Modern Classics series, with each one offering a concentrated hit of its contemporary, international flavour. Here are authors ranging from Kathy Acker to James Baldwin, Truman Capote to Stanislaw Lem and George Orwell to Shirley Jackson; essays radical and inspiring; poems moving and disturbing; stories surreal and fabulous; taking us from the deep South to modern Japan, New York's underground scene to the farthest reaches of outer space.

1964 events in history: *The Caste War of Yucatán* Nelson A. Reed, 2001 This is the classic account of one of the most dramatic episodes in Mexican history--the revolt of the Maya Indians of Yucatán against their white and mestizo oppressors that began in 1847. Within a year, the Maya rebels had almost succeeded in driving their oppressors from the peninsula; by 1855, when the major battles ended, the war had killed or put to flight almost half of the population of Yucatán. A new religion built around a Speaking Cross supported their independence for over fifty years, and that religion survived the eventual Maya defeat and continues today. This revised edition is based on further research in the archives and in the field, and draws on the research by a new generation of scholars who have labored since the book's original publication 36 years ago. One of the most significant results of this research is that it has put a human face on much that had heretofore been treated as semi-mythical. Reviews of the First Edition Reed has not only written a fine account of the caste war, he has also given us the first penetrating analysis of the social and economic systems of Yucatán in the nineteenth and twentieth centuries. --American Historical Review In this beautifully written history of a little-known struggle between several contending forces in Yucatán, Reed has added an important dimension to anthropological studies in this area. --American Anthropologist Not

only is this exciting history (as compelling and dramatic as the best of historical fiction) but it covers events unaccountably neglected by historians. . . . This is a brilliant contribution to history. . . . Don't miss this book. --Los Angeles Times One of the most remarkable books about Latin America to appear in years. --Hispanic American Report

1964 events in history: The Truth of History C. Behan McCullagh, 2002-11 Modern relativism and postmodern thought in culture and language challenge the 'truth' of history. This book considers how historians, confined by argument of their own cultures, can still discover truths about the past.

1964 events in history: Dune Frank Herbert, 2003-08-26 • DUNE: PART TWO • THE MAJOR MOTION PICTURE Directed by Denis Villeneuve, screenplay by Denis Villeneuve and Jon Spaihts, based on the novel Dune by Frank Herbert • Starring Timothée Chalamet, Zendaya, Rebecca Ferguson, Josh Brolin, Austin Butler, Florence Pugh, Dave Bautista, Christopher Walken, Stephen McKinley Henderson, Léa Seydoux, with Stellan Skarsgård, with Charlotte Rampling, and Javier Bardem Frank Herbert's classic masterpiece—a triumph of the imagination and one of the bestselling science fiction novels of all time. Set on the desert planet Arrakis, Dune is the story of Paul Atreides—who would become known as Muad'Dib—and of a great family's ambition to bring to fruition mankind's most ancient and unattainable dream. A stunning blend of adventure and mysticism, environmentalism and politics, Dune won the first Nebula Award, shared the Hugo Award, and formed the basis of what is undoubtedly the grandest epic in science fiction.

1964 events in history: The Bible and the Future Anthony A. Hoekema, 1994 'Anthony Hoekema brings to the study of biblical prophecy and eschatology a maturity that is rare among contemporary works on the subject. Free of sensationalism, he evinces a reverence for the Scriptures and a measured scholarship...One of the best studies on eschatology available.' ---Christianity Today

1964 events in history: An Age of Iron and Rust: Cassius Dio and the History of His Time Andrew G. Scott, 2023-03-27 Cassius Dio described his own age as one of "iron and rust." This study, which is the first of its kind in English, examines the decline and decay that Cassius Dio diagnosed in this period (180-229 CE) through an analysis of the author's historiographic method and narrative construction. It shows that the final books were a crucial part of Dio's work, and it explains how Dio approached a period that he considered unworthy of history in view of his larger historiographic project.

1964 events in history: 1 Kings Burke O. Long, 1984-05-01 This is a print on demand book and is therefore non- returnable. Long begins this volume with a discussion of the nature of historical literature and a survey of its important genres: list, report, story, and history. He then focuses on 1 Kings as an example of historical literature, first analyzing the book as a whole and then unit-by-unit. The work is enhanced by extensive bibliographies and a glossary of genres and formulas which offers clear, thorough definitions with examples.

1964 events in history: Liberty and Union Edgar J. McManus, Tara Helfman, 2013-12-04 This, the first of two volumes of Liberty and Union, is a comprehensive constitutional history of the United States from the Anglo-American origins of the Constitution through the colonial and antebellum periods, to the Civil War and the consequent restructuring of the nation. Written in a clear and engaging narrative style, it successfully unites thorough chronological coverage with a thematic approach, offering critical analysis of core constitutional history topics, set in the political, social, and economic context that made them constitutional issues in the first place. Combining a thoughtful and balanced narrative with an authoritative stance on key issues, the authors explain the past in the light of the past, without imposing upon it the standards of later generations. Authored by two experienced professors of History and Law this textbook has been thoughtfully constructed to offer an accessible alternative to dense scholarly works - avoiding unnecessary technical jargon, defining legal terms and historical personalities where appropriate, and making explicit connections between constitutional themes and historical events. For students in an undergraduate or postgraduate constitutional history course, or anyone with a general interest in constitutional developments, this

book will be essential reading. Useful features include: Full glossary of legal terminology
Recommended reading A table of cases Extensive supporting artwork Companion website Useful documents provided: Declaration of Independence Articles of Confederation Constitution of the United States of America Chronological list of Supreme Court justices

1964 events in history: The Draft, 1940-1973 George Q. Flynn, 1993 Individual liberty is ingrained in American culture. Yet, in contrast to this cherished ideal, American men were inducted into military service under a system that flourished for more than twenty years before its rationalization was seriously questioned by more than a small minority of citizens. Analyzing this paradox, George Flynn provides the first comprehensive look at an institution that managed to sustain political and public favor through two wars before dying out under a barrage of protests during a third. Placing the American draft within a historical context, he shows how social and political considerations determined the character of conscription in the United States. The draft developed as it did, he argues, not mainly because of military needs or strategy, but because of political decisions initiated by civilians with nonmilitary agendas. Explaining why the draft remained relatively immune to political criticism prior to the Vietnam conflict, Flynn chronicles the draft's military and strategic successes and failures in America's mid-century wars. He shows how major institutions and lobbies representing science, education, and various professions and religions influenced it and how, ultimately and ironically, the selective character of the draft eventually made the system inequitable and helped cause its downfall.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
