1970s trivia questions and answers: **A More Beautiful Question** Warren Berger, 2014-03-04 To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our

schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

1970s trivia questions and answers: Out of Time? Elena Backhausen, Benjamin Wihstutz, Noa Winter, 2023-07-10 Out of Time? has many different meanings, amongst them outmoded, out of step, under time pressure, no time left, or simply delayed. In the disability context, it may also refer to resistant attitudes of living in "crip time" that contradict time as a linear process with a more or less predictable future. According to Alison Kafer, "crip time bends the clock to meet disabled bodies and minds." What does this mean in the disability arts? What new concepts of accessibility, crip futures, and crip resistance can be staged or created by disability performance? And how does the notion of "out of time" connect crip time with pandemic time in disability performance? The collective volume seeks to respond to these questions by exploring crip time in disability performance as both a concept and a phenomenon. The book tackles the topic from two angles: on the one hand from a theoretical point of view that connects performance analysis with crip and performance theory, on the other hand from a practice-based perspective of disability artists who develop new concepts and dramaturgies of crip time based on their own lived experiences and observations in the field of the performing and disability arts. The book gathers different types of text genres, forms, and styles that mirror the diversity of their authors. Besides theoretical and academic chapters on disability performance, the book also includes essays, poems, dramatic texts, and choreographic concepts that reflect upon the alternative knowledge in the disability arts.
