19D OSUT Training Schedule: A Comprehensive Analysis

Author: Dr. Michael Davis, PhD in Military History, former US Army Officer (Infantry, Retired)

Keywords: 19D OSUT training schedule, 19D OSUT, Cavalry Scout, OSUT, One Station Unit Training, Army training, military training, Army MOS, military occupation specialty

Publisher: Military Professional Resources, Inc. (MPRI) – A leading provider of military training and consulting services with decades of experience in analyzing and evaluating military training programs.

Editor: Colonel (Ret.) Sarah Johnson, former US Army Training and Doctrine Command (TRADOC) officer with expertise in combat arms training and curriculum development.

Summary: This article provides a detailed analysis of the 19D OSUT training schedule, tracing its evolution from its inception to its current iteration. We explore the historical context influencing its design, examine the key components of the training, and assess its relevance in the modern military environment. The analysis highlights the rigorous nature of the program and its effectiveness in producing highly skilled and capable Cavalry Scouts. Finally, we address common questions and concerns regarding the 19D OSUT training schedule.

The Historical Context of the 19D OSUT Training Schedule

The 19D Military Occupational Specialty (MOS), Cavalry Scout, is a critical role within the US Army, responsible for reconnaissance, surveillance, and target acquisition. The adoption of One Station Unit Training (OSUT) for 19D significantly streamlined the training process. Prior to OSUT, soldiers underwent Basic Combat Training (BCT) followed by Advanced Individual Training (AIT) at separate locations, often resulting in longer training times and logistical challenges. The implementation of the 19D OSUT training schedule addressed these issues by consolidating both BCT and AIT into a single location, reducing overall training duration and improving efficiency.

The historical evolution of the 19D OSUT training schedule reflects changes in military doctrine, technology, and operational requirements. Early iterations focused heavily on traditional scouting techniques, emphasizing

map reading, land navigation, and observation skills. However, as technology advanced, the 19D OSUT training schedule incorporated training on sophisticated reconnaissance equipment, including unmanned aerial vehicles (UAVs), thermal imaging devices, and advanced communication systems. The curriculum also adapted to reflect the changing nature of warfare, integrating training in counterinsurgency, urban warfare, and asymmetric conflict. The current 19D OSUT training schedule represents the culmination of decades of refinement and adaptation.

Components of the 19D OSUT Training Schedule

The 19D OSUT training schedule is a demanding and comprehensive program designed to transform recruits into highly skilled Cavalry Scouts. The program typically lasts for approximately 14 weeks and covers a wide range of subjects:

Basic Combat Training (BCT): This foundational phase lays the groundwork for all subsequent training. Recruits receive instruction in basic soldiering skills, including physical fitness, weapons training, drill and ceremony, and basic first aid. This phase also emphasizes discipline, teamwork, and leadership development.

Advanced Individual Training (AIT): This phase focuses specifically on the skills required of a Cavalry Scout. Training includes:

Reconnaissance and Surveillance: This involves extensive instruction in patrol techniques, observation skills, map reading, land navigation, and the use of various reconnaissance equipment.

Weapons Systems: Recruits receive comprehensive training on a variety of weapons systems, including crew-served weapons, anti-tank weapons, and small arms.

Communications: Effective communication is crucial for Cavalry Scouts. Training includes the use of various communication systems, including radios and satellite communication equipment.

Vehicle Operation and Maintenance: Cavalry Scouts operate a variety of vehicles, including Humvees and other specialized vehicles. Training encompasses both operation and maintenance of these vehicles.

Tactical Procedures: Recruits learn various tactical procedures, including conducting ambushes, establishing observation posts, and conducting raids.

Specialized Training: Depending on the specific needs of the Army, additional specialized training might be incorporated, such as training on specific weapons systems or counter-IED techniques.

Current Relevance of the 19D OSUT Training Schedule

The 19D OSUT training schedule remains highly relevant in today's complex security environment. The skills and knowledge gained during this program are directly applicable to a wide range of operational scenarios. The emphasis on reconnaissance, surveillance, and target acquisition is particularly crucial in modern warfare, where information superiority is a key determinant of

success. Furthermore, the training program's focus on teamwork, adaptability, and problem-solving equips soldiers with the skills needed to thrive in unpredictable and dynamic environments. The continuous evolution of the 19D OSUT training schedule ensures that it remains aligned with current operational requirements and technological advancements.

Challenges and Future Considerations

While the 19D OSUT program is highly effective, challenges remain. Maintaining a high standard of training amid evolving threats and technological advancements requires constant curriculum review and update. Furthermore, ensuring sufficient resources, including qualified instructors and modern equipment, is critical to maintaining the quality of the training. Future considerations should include incorporating advanced simulation and virtual reality training technologies to enhance training realism and efficiency. Furthermore, incorporating more diverse and inclusive training methodologies can help ensure the program attracts and retains a wider pool of qualified candidates.

Conclusion

The 19D OSUT training schedule represents a significant investment in the development of highly skilled and capable Cavalry Scouts. Its historical evolution reflects a continuous adaptation to changing military needs and technological advancements. The program remains highly relevant in the modern security environment, equipping soldiers with the skills needed to succeed in a wide range of operational scenarios. By addressing ongoing challenges and embracing technological advancements, the 19D OSUT training schedule will continue to produce the highly skilled and capable soldiers essential to the US Army.

FAQs

1. How long is the 19D OSUT training schedule? The 19D OSUT typically lasts around 14 weeks, but this can vary slightly.
1. Where does 19D OSUT training take place? The specific location varies, but it's generally conducted at a single US Army installation designed for OSUT.
1. What are the physical fitness requirements for 19D OSUT? Recruits must meet the Army's physical fitness standards, which include running, push-

ups, sit-ups, and a 2-mile run.

1. What kind of weapons training is included in 19D OSUT? Training covers a range of weapons, including rifles, machine guns, and potentially anti-tank weapons.
1. Is there any specialized training within the 19D OSUT? Yes, depending on current needs, specialized training in areas such as counter-IED or specific technology may be incorporated.
1. What are the chances of deploying after 19D OSUT? The likelihood of deployment depends on the Army's operational needs and the soldier's assignment.
1. Can I choose my duty station after completing 19D OSUT? Duty station assignments are based on the needs of the Army, but preferences can be expressed.
1. What is the job outlook for a 19D Cavalry Scout? 19D Cavalry Scouts are consistently in demand within the Army, offering opportunities for career progression.
1. Are there any scholarships or financial aid programs available for 19D OSUT? Various programs may be available, depending on eligibility. It's recommended to research Army recruitment programs.

19d osut training schedule: Assessing the Impact of Psychomotor and Leadership Selection Tests on the Excellence in Armor Program Scott E. Graham, 1989 As part of the Skills Selection and Sustainment (S3) program, this research evaluated the potential effectiveness of spatial, psychomotor, and leadership scales as additional selection criteria for the Excellence in Armor (EIA) program. The S3 predictor tests were administered to 1,642 One Station Unit Training (OSUT) soldiers at the Fort Knox reception station. In addition, 479 19K (M1 tank crewmen) OSUT soldiers were given an engagement tank gunnery test on the high-fidelity Institutional Conduct of Fire Trainer (I-COFT). The I-COFT test included offensive and defensive engagements fired in normal and degraded operational modes. The primary analysis evaluated I-COFT speed and accuracy as a function of S3 spatial/psychomotor scores. The S3 spatial/psychomotor tests were a strong predictor of simulated tank gunnery performance, yielding a correlation of .54 with I-COFT speed/accuracy. The 2-1/2-month interval between the predictor and criterion tests suggests that the relationship should remain stable over time, and the relationship shrank only slightly when the EIA soldiers were given additional training. The results indicate that including the S3 tests in the EIA selection process would result in EIA graduates with stronger gunnery skills. Keywords: Personnel selection, Gunnery prediction, Unit conduct of fire trainer, Performance(human). (sdw).

19d osut training schedule: Post-Cold War Stephen A. Bourque, 2008-03-30 From the fall of the Berlin Wall in 1989 through the years immediately after the collapse of the World Trade Center and Pentagon in 2001, and within the administrations of George H. W. Bush, William J. Clinton, and George W. Bush, soldiers' lives underwent enormous changes. Without the benefit of national conscription, these professionals, nurtured on stories of World War II, Korea, and Vietnam, experienced repetitive tours of duty in one combat zone after another to an extent the warriors of earlier eras could never have imagined. They fought every kind of war during this period; high-intensity mechanized war, air and heliborne raids, peace-keeping activities, urban combat, counter-insurgency operations, refugee support, and counter-narcotics operations. What makes the story of this era's soldiers all the more compelling is that these activities took place as the American military actually decreased its military strength during the period, leading to more and longer tours of duty. The book also includes a timeline to put dates and events in better perspective, a comprehensive, topically arranged bibliography, and a thorough index.

Cameron, 2010 Providing a narrative analysis of US Army reconnaissance, scout, and cavalry evolution from the post-World War I era through the Iraqi conflict, this book outlines key developments in the concepts governing reconnaissance units from the armored cavalry regiment down to the maneuver battalion scout platoon. The trend analysis included in these pages shows how mounted reconnaissance arrived at its current state. The author provides a clear depiction of past evolution to guide future

reconnaissance development--Command and General Staff College Combined Arms Center website.

19d osut training schedule: TRADOC Pamphlet TP 600-4 The Soldier's Blue Book United States Government Us Army, 2019-12-14 This manual, TRADOC Pamphlet TP 600-4 The Soldier's Blue Book: The Guide for Initial Entry Soldiers August 2019, is the guide for all Initial Entry Training (IET) Soldiers who join our Army Profession. It provides an introduction to being a Soldier and Trusted Army Professional, certified in character, competence, and commitment to the Army. The pamphlet introduces Soldiers to the Army Ethic, Values, Culture of Trust, History, Organizations, and Training. It provides information on pay, leave, Thrift Saving Plans (TSPs), and organizations that will be available to assist you and your Families. The Soldier's Blue Book is mandated reading and will be maintained and available during BCT/OSUT and AIT. This pamphlet applies to all active Army, U.S. Army Reserve, and the Army National Guard enlisted IET conducted at service schools, Army Training Centers, and other training activities under the control of Headquarters, TRADOC.

19d osut training schedule: *The Army Military Occupational Specialty Database* Stephen J. Kirin, 1992 The U.S. Army will face demanding challenges to maintain a well-trained and ready force in the face of shrinking defense budgets. Given the extensive resources used to conduct individual training (i.e., personnel, facilities, and consumables), current training methods are facing especially intensive scrutiny. In response, the Army is developing several new training concepts that could reduce the cost of individual training. Such concepts include, for example, expanding the use of new training technologies, distributing training to field units, and substituting civilian for military training where this may be applicable. Current RAND research is developing and applying new analytical tools for assessing alternative training approaches. The objective is to assess new strategies that modify current training approaches, considering resource inputs, costs, and consequences of training changes. Because major costs are incurred during specialized skill training, especially for enlisted personnel, the research focuses most heavily on alternative strategies for training enlisted entry-level Military Occupational Specialties (MOS). This Note documents the Army Military Occupational Specialty Database (MOS-D), which was prepared as part of the research. MOS-D contains data describing training-relevant characteristics of 317 Army MOS as of FY90. The data set contains information describing entry prerequisites, characteristics of job-holders and entry-level training courses, and the nature of the work performed. The data set can be analyzed to compare and contrast enlisted entry-level occupations in a number of ways related to how training is conducted. Such analyses can be used to guide more intensive research on alternative training strategies and methods for specific and related occupations. This document focuses on the 242 MOS in MOS-D considered entry-level, active-Army occupations. (43 tables, 8 figures, 32 refs.).

19d osut training schedule: With It Or in It Bacil Donovan Warren, 2016-02-24 Using humor and frank candor, author Bacil Donovan Warren shares his personal experience, as well as that of his fellow tankers, as part of the US Army's 3d Armored Cavalry Regiment (the Brave Rifles) in Saudi Arabia and Iraq. Warren recounts the initial shock of hearing about Iraq's invasion of Kuwait and his Regiment's preparation for deployment during Operation Desert Shield. He describes the stress and sometimes mind-numbing boredom of being deployed deep in the desert of Saudi Arabia, constantly preparing for a possible Iraqi invasion. He recalls the terrifying experience of the start of the air war of Operation Desert Storm and the workmanlike action during combat against Iraq's Republican Guard forces during Operation Desert Sabre. *With It or in It* brings clarity and focus to their unceasing efforts to bring the conflict to a swift and decisive end. Finally, Warren describes the triumphant return of the Brave Rifles to Ft. Bliss, Texas, and the waiting arms of their families and loved ones.

19d osut training schedule: **Development of a Personal Computer-based Enlisted Personnel Allocation System (PC-EPAS)** , 2001 This report summarizes the development of the PC-Based Enlisted Personnel Allocation System (EPAS) through completion of the Functional Description phase (circa 1998). EPAS is a software system designed to introduce person-job-match optimization into REQUEST, the Army's training reservation system. This report reflects the results of research conducted and sponsored by the U.S. Army Research Institute over the 1993 - 1998 period. This work established the feasibility of using sophisticated optimization procedures to improve classification efficiency, as well as the additional classification gains made possible by utilizing measures of soldier performance as assignment composites in the classification process. The production version of EPAS, designed as an enhancement to and subsystem of REQUEST, will be transparent to Army applicant and career counselor. Evaluation field-testing is scheduled for FY 2002-2003.

19d osut training schedule: From One Leader to Another Combat Studies Institute Press, 2013-05 This work is a collection of observations, insights, and advice from over 50 serving and retired Senior Non-Commissioned Officers. These experienced Army leaders have provided for the reader, outstanding mentorship on leadership skills, tasks, and responsibilities relevant to our Army today. There is much wisdom and advice from one leader to another in the following pages.

19d osut training schedule: Level Zero Heroes Michael Golembesky, John R. Bruning, 2014-09-02 An elite Marine special operations team, a battle to save downed soldiers in Afghanistan, a fight for survival—an incredible true story of war that became a New York Times bestseller. In Level Zero Heroes, Michael Golembesky follows the members of U.S. Marine Special Operations Team 8222 on their assignment to the remote and isolated Taliban stronghold known as Bala Murghab as they conduct special operations in an effort to break the Taliban's grip on the Valley. What started out as a routine mission changed when two 82nd Airborne Paratroopers tragically drowned in the Bala Murghab River while trying to retrieve vital supplies from an air drop that had gone terribly wrong. In this one moment, the focus and purpose of the friendly forces at Forward Operating Base Todd, where Team 8222 was assigned, was forever altered as a massive clearing operation was initiated to break the Taliban's stranglehold on the valley and recover the bodies. From close-quarters firefights in Afghan villages to capturing key-terrain from the Taliban in the unforgiving Afghan winter, this intense and personal story depicts the brave actions and sacrifices of MSOT 8222. Readers will understand the hopelessness of being pinned down under a hail of enemy gunfire and the quake of the earth as a 2000 lb. guided bomb levels a fortified Taliban fighting position. A powerful and moving story of Marine Operators doing what they do best, Level Zero Heroes brings to life the mission of these selected few that fought side-by-side in Afghanistan, in a narrative as action-packed and emotional as anything to emerge from the Special Operations community contribution to the Afghan War.

19d osut training schedule: *Inside Delta Force* Eric Haney, 2010-05-25 The story of America's elite military unit told by one of its founding members They are the U.S. Army's most elite top secret

strike force. They dominate the modern battlefield, but you won't hear about their heroics on CNN. No headlines can reveal their top-secret missions; and no book has ever taken readers inside-until now. Here, a founding member of Delta Force takes us behind the veil of secrecy and into the action-to reveal the never-before-told story of 1st Special Forces Operational Detachment-D (Delta Force). **INSIDE DELTA FORCE** In this dramatic behind-the-scenes chronicle, Eric Haney, one of the founding members of Delta Force, takes us inside this legendary unit from the beginning. Here, for the first time, are details of the grueling selection process, designed to break the strongest of men, that singles out the perfect soldier, and then the years of training that turns him into the ultimate modern warrior that is the Delta Force Operator. From fighting guerrilla warfare in Honduras to close VIP protection in Beirut, from rescuing missionaries in Sudan to the abortive attempt to extract American hostages from Tehran, and leading the way onto the island of Grenada, Eric Haney captures the daring and discipline that distinguish the men of Delta Force. Inside Delta Force puts the reader right at the heart of the action and gives a breathtaking glimpse of a life that is as driven, inspiring and terrifying as they come. Eric L. Haney, Command Sergeant Major, USA (Ret.), served for more than twenty years in the United States Army's most demanding combat units: as a combat infantryman, a Ranger, and ultimately as a founding member of Delta Force. In his retirement, Haney has protected princes, presidents and CEOs alike.
