20 questions to ask an immigrant: Partnering with Parents to Ask the Right Questions Luz Santana, Dan Rothstein, Agnes Bain, 2016-09-19 How can we make it easier for schools and families to work together on behalf of all students? It all begins by tapping into the different strengths educators and parents and caregivers can contribute to building a strong partnership. *Partnering with Parents to Ask the Right Questions*, by Luz Santana, Dan Rothstein, and Agnes Bain of the Right Question Institute, presents a deceptively simple strategy for how educators can build effective partnerships with parents—especially those who typically have not been actively involved in their children's schooling. It distills complex, important ideas on effective civic participation into an easy-to-learn process that teaches parents two fundamental skills they can use to support the education of their children, monitor their progress, and advocate for them: asking better questions and participating effectively in key decisions. Based on more than two decades of work and research in a wide range of low- and moderate-income communities, this book empowers overburdened and under-resourced educators and parents to work together and achieve their common goal of successful students. This indispensable guide includes case studies spanning K-12 classrooms, and it explores ways to assist struggling students, collaborate on IEPs, and communicate with families of English language learners. The accessible and easy-to-use format, field-tested advice, and vivid examples from schools that put the advice into practice make this a must-have for everyone from the classroom to the central office.

20 questions to ask an immigrant: Global Labour and the Migrant Premium Tugba Basaran, Elspeth Guild, 2018-07-04 This book provides the first systematic account of the premium costs that migrants pay to live and work abroad. Reducing the costs of international labour migration, specifically worker-paid costs for low-skilled employment, has become an important item on the global agenda over the last years and is particularly pertinent for the UN’s Global Compact on Safe, Orderly and Regular Migration. Recruitment costs alone amount in most migration corridors to anywhere between one and ten months of foreign earnings and many migrants may well lose between one and two years of foreign earnings, if all costs are considered. This book is intended as a primer for evidence-based policy for reducing the costs of international labour mobility. The contributors include academics from law, economics and politics, but also authors from international organizations, non-governmental organizations, as well as the voices of migrants. The hope of the editors is that this small collection sets the basis for evidence-based policies that seek to reduce the costs of international migration. This book will be of interest to scholars and students of migration, globalization, law, sociology and international relations, as well as practitioners and policy makers.

20 questions to ask an immigrant: Immigration and Public Opinion in Liberal Democracies Gary P. Freeman, Randall Hansen, David L. Leal, 2013-01-04 Although ambivalence characterizes the stance of scholars toward the desirability of close opinion-policy linkages in general, it is especially evident with regard to immigration. The controversy and disagreement about whether public opinion should drive immigration policy are among the factors making immigration one of the most difficult political debates across the West. Leading international experts and aspiring researchers from the fields of political science and sociology use a range of case studies from North America, Europe and Australia to guide the reader through the complexities of this debate offering an unprecedented comparative examination of public opinion and immigration. part one discusses the socio-economic and contextual determinants of immigration attitudes across multiple nations part two explores how the economy can affect public opinion part three presents different perspectives on the issue of causality – do attitudes about immigration drive politics, or do politics drive attitudes? part four investigates how several types of framing are critical to understanding public opinion and how a wide range of political factors can mould public opinion, and often in ways that work against immigration and immigrants part five examines the views of the largest immigrant group in the U.S. – Latinos – as well as how opinions are shaped by contact with and opinions about immigrants in the U.S. and Canada. An essential read to all who wish to understand the nature of immigration research from a theoretical as well as practical point of view.

20 questions to ask an immigrant: Immigration and Perceptions of National Political Systems in Europe Lauren McLaren, 2015-09-10 Immigration has become one of the most pressing political issues of the modern day, and public opinion polls indicate that it has been of public concern for some time. This book analyses the impact of immigration on perceptions of national political systems in Europe and contends that public concern about immigration is undermining trust in national political institutions and elites, as well as satisfaction with the way democracy is working. Immigration and Perceptions of National Political Systems in Europe contends that immigration presents more substantial challenges to some national identity constructions, and that while national identity in general can help to bolster support for national political systems, those who emphasize lengthy ties to the country are likely to be less positive about their national political systems, particularly when these allow for relatively easy immigrant incorporation. This book also includes an analysis of the impact of concern about immigration on the British political system, and shows that while concern about immigration appears to have been fairly high since the 1960s, it is only in since 1997 that such concern has come to translate into negative perceptions of the British political system.

20 questions to ask an immigrant: On New Shores Susan S. Chuang, Robert P. Moreno, 2008

Over the past several decades, researchers as well as social policymakers and educators have acknowledged the importance that fathers play in their children's lives. A good deal of research on fathering has been conducted among Euro-American families in North America. However, our understanding of fathering across various ethnic groups remains limited. Throughout Canada and the United States, the immigrant population has been growing rapidly. Currently, no book has delineated the field of immigrant fathering from a comprehensive and multi-disciplinary perspective which includes theory, research, and social policy. Researchers are widely recognizing that the theoretical frameworks and models of parenting, and more specifically, fathering, that were based on Euro-American families may not be relevant to other ethnic groups. As researchers refine theoretical and methodological approaches to understand fathering within sociocultural contexts, they become more cognizant of the varying meanings of parenting between and within ethnic groups. *On New Shores* extends the understanding of fathering in ethnic minority families and specifically focuses on immigrant fathers--an area which has remained fairly uncharted. The book provides readers with a richer and more comprehensive approach to how researchers, practitioners, and social policymakers can examine fathering among ethnic minority families.

20 questions to ask an immigrant: Moral Debates in Contemporary Catholic Thought James Bretzke, 2024-11-26 How do we navigate a morally complex world? How do we know how to do the right thing, especially when so many voices are clamoring for our attention, telling us that they have the full truth of just what the "right thing" is, and what it requires of us? James T. Bretzke, S.J., one of most lucid interpreters of the Catholic tradition writing today, helps students morally analyze a wide range of controversial and contested issues in society today through the use of principles, paradigms, and the cardinal virtue of prudence. After introducing the approach of principled prudence, drawing on Thomas Aquinas, Catholic Social Teaching, and other sources, Bretzke engages a range of moral considerations in the following chapters: the death penalty, abortion, gender, immigration and border security, welfare, economics, and faithful citizenship. In the concluding chapter, Bretzke surveys our current political landscape, and its attendant culture wars, and suggests a possible path forward drawing on the central moral concept of the common good. While politics has often been described as the "art of compromise," U.S. society seems to be short of such artists today. Bretzke, a master of moral theology, gives students the tools to better

interpret and assess critical issues—and to appreciate the depth of the Catholic tradition’s wisdom on such issues. Ideal for classroom use, including such courses as Catholic ethics, theological ethics, and moral theology, this text illuminates the core moral principles that deal with moral discernment in an imperfect and increasingly polarized world. Each chapter includes case studies, questions for reflection and discussion, and resources for further reading.\

20 questions to ask an immigrant: Language, Immigration and Naturalization Ariel Loring, Vaidehi Ramanathan, 2016-04-20 This volume focuses on the everyday legalities and practicalities of naturalization including governmental processes, the language of citizenship tests and classes, the labelling and lived experiences of immigrants/outsideers and the media's interpretation of this process. The book brings together scholars from a wide range of specialities who accentuate language and raise issues that often remain unarticulated or masked in the media. The contributors highlight how governmental policies and practices affect native-born citizens and residents differently on the basis of legal status. Furthermore, the authors observe that many issues that are typically seen as affecting immigrants (such as language policies, nationalist identities and feelings of belonging) also impact first-generation native-born citizens who are seen as, or see themselves as, outsideers.

As the tension between the two towns simmers, a surprising newcomer is handpicked to try to save the Beartown club. Soon a new team starts to take shape around Amat, the fastest player you'll ever see; Benji, the intense lone wolf; and Vidar, a born-to-be-bad troublemaker. But bringing this team together proves to be a challenge as old bonds are broken, new ones are formed, and the enmity with Hed grows more and more heated. As the big game between Beartown and Hed approaches, the not-so-innocent pranks and incidents between the communities pile up. By the time the last game is finally played, a resident of Beartown will be dead, and the people of both towns will be forced to wonder if, after all they've been through, the game they love can ever return to something simple and innocent. *Us Against You* is a declaration of love for all the big and small, bright and dark stories that form and colour our communities. Compelling and heartbreaking, it's a roller-coaster ride of emotions and a showcase for "Fredrik Backman's pitch-perfect dialogue and unparalleled understanding of human nature" (Shelf Awareness).
